A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Memphis, Tenn., or Columbia, S. C.

FOR SALE—Good family horse, young and gentle. S. A. Wade.

A Watch That Will Last A LIFETIME.

In a watch, the greatest wear takes place in the journals and their bearings. The South Bend Watch has journals—called pivots—made of the finest quality of steel, tempered by a special process and brought to an absolutely perfect finish. Their bearings are the finest imported jewels, carefully selected and polished with specially prepared diamond powder. They are practically proof against wear.

This is but one of the many features that make a South Bend Watch the most durable watch made.
