### CARDINAL GIBBONS

Says Put Guilty Standard Oil Officials in Jail.

New York, Aug. 12.—Cardinal Gibbons, highest dignitary of the Roman Catholic Church in America, who is resting at Southampton, Long Island, expressed himself as follows to-day regarding the punishment meted out by the Federal Court in Chicago to the Standard Oil Company:

"The fine of \$29,240,000 imposed upon the Standard Oil Company for violations of the law is, indeed, a large sum of money, but I am not prepared to state whether or not it was excessive. If, however, it is inadequate in compelling a compliance with the law the incarceration of the guilty officers, with its attendant disgrace, would prove a more effective remedy.

"Moral suasion alone will never accomplish the needed reformation in this direction. Many fine sermons might be preached to these men, but they would continue to accumulate millions by the same methods which are now being exposed. The disgrace of imprisonment would prove a certain remedy, according to my understanding of its effect upon this class."

Concerning the crime situation in New York, the Cardinal made this comment:

"As a remedy for the crime wave now sweeping through New York City, I would suggest that penalties be imposed that will be commensurate with the crime. The principal preventative to such sentences being imposed and carried out lies in the fact that able and influential lawyers lend themselves to the defense of the criminals and the crime and through astuteness secure in a manner its effect on the case, either a real or a nominal fine."

### Pessimistic Feeling in Financial Circles.

New York, August 12.—Last week's liquidating movement in the stock market was resumed at the very opening of business to-day, and save for a few fitful rallies, was maintained throughout the session. Securities came out in enormous volume for the first ten minutes, when the situation was one of utter demoralization. The greatest losses were those recorded by the Hill and Hariman stocks, but a number of the less conspicuous issues were thrown over at severe declines.

The break was checked before the end of the first hour, but in the late afternoon prices went still lower. New low records were made by some issues, and the list as a whole was very near the low level made in the "silent panic" last March.

Sentiment in high financial circles was decidedly pessimistic, reflecting the disgust and lack of confidence which appeared to pervade the markets of the world at this particular time. To a large extent this feeling is based on existing monetary conditions. Time money is becoming scarcer at all the leading financial centers, and this condition gives promise of becoming acute here before the end of the month, by which time crop moving demands will have attained their full proportions. Among the other causes which contributed to to-day's sensational declines were the weakness of American securities in London.

### ENJOINED FROM USING CHURCH

Another Chapter in Cumberland Church Controversy.

Dickson, Tenn., Aug. 12.—As a result of the contention over the Cumberland Presbyterian Church property at this place, the ruling elders of the C. P. Church have applied for a mandatory injunction seeking to restrain W. T. Salmon, the U. S. A. pastor and his Board of Elders from further possession of the church, and to demand of them the surrender of the keys and the prompt and complete abandonment of all claims whatever.

The application for the injunction has been filed with Chancellor Stout who has the same under advisement and who will act finally upon the matter at Clarksville next Wednesday. The result is awaited with much interest here. This being the birthplace of the C. P. Church, the faithful had worked zealously to build themselves a home in memory of the past. Many privations were endured and many self-denials made in order that the work might be accomplished. But, no sooner had the effort succeeded than the storm burst in all its fury upon the builders, and like those that were led captive to Babylon—like those that refused to forget Jerusalem—the faithful refuse to abandon their home; they refuse to sing the Lord's song in a strange land, and therefore no end of interest attaches to the result.

### FATAL SHOOTING AT FULTON.

Bert Blackford and Charles Martin Have Difficulty.

Fulton, Ky., Aug. 12.—Bert Blackford shot Charley Martin this afternoon in R. S. Murphey's place of business on the Tennessee side of the town.

The two men had been drinking and had words on the street during the day and the affray in Murphey's place was the termination of the affair.

It seems that Martin had gone to Cairo for work, but on returning to this city was employed in a shop in which Blackford worked. The street quarrel was renewed when the two men met in Murphey's place and Blackford claims that Martin made a movement as if to draw a gun, when he (Blackford) pulled out his pistol and commenced firing at Martin. Three shots were fired, one taking effect in the right side.

After the shooting, Blackford escaped to the Kentucky side and made an attempt to get away, but was apprehended by Chief of Police Baker. He was taken to the rear of Phelps' hardware store and placed under guard until a warrant could be issued by the Tennessee authorities and he was taken back to Tennessee and carried to Union City jail.

Martin lingered for a few hours and expired.

He has been a resident of Fulton for many years and is a popular young married man. Blackford came to Fulton several months ago from Cairo, Ill., where he has been employed since in a barber shop.

### Tennessee School for the Blind.

Dear Sir:

Believing that you will be willing to give a moment of your valuable time to the service of humanity, I take the liberty of addressing you in behalf of the blind children of the State who in consequence of their affliction, are unable to attend the ordinary school and acquire the education deemed so necessary to the success and happiness of the children of this generation.

There are more than one thousand of these unfortunate children in Tennessee and some of them may be found in every section and in almost every community. Their parents and friends seem indifferent to the great blessings which this school freely offers all children with defective vision. It is erroneously thought that those

only totally blind are admitted into this school. The privilege is extended to every child of school age who cannot see to read or who can only master lessons with pain and difficulty.

If there are any of these children in your neighborhood, I most earnestly trust that you will tell them of this institution and urge them to apply for admission, thereby assisting in giving hope and bringing sunshine to the hearts of the poor, helpless ones who now sit in ignorance and darkness.

If you will kindly send to me at Nashville the names of parents of any of these children I shall be greatly obliged.

Very respectfully,

J. V. ARMSTRONG, Supt.  
August 3, 1907.

### WHEAT GROWERS ORGANIZE.

Officers and Plans for Work in Robertson County.

Springfield, Tenn., Aug. 12.—Pursuant to a call of John M. Foster, one of the promoters of the Tobacco Association, the wheat-growers of Robertson County assembled at the courthouse here Saturday afternoon and perfected an organization to be known as the Robertson County Wheat-growers' Association. Jerre W. Long was elected President and Jno. M. Foster Secretary and Treasurer. Vice-Presidents were elected in each Civil District.

Each Vice-President was instructed to immediately call a meeting of his district farmers on Saturday afternoon, August 24, for the purpose of forming neighborhood clubs and sending their President to meet with the County Association at the courthouse at Springfield on the first Monday in September, 1907.

At this meeting there will be addresses by the Hons. Jos. E. Washington, Joel B. Fort, V. A. Bradley, A. E. Garner, John M. Foster and John E. Garner, Jr., and others.

The meeting was a most enthusiastic one, and everyone interested is in high glee over the prospects of a rapid advance in the price of wheat locally. Resolutions were adopted whereby no initiation fee, no dues are charged, as well as no officer is to receive any salary.

### A Good Plan.

The Tennesseean endorses the efforts of the Chattanooga Chamber of Commerce in its plan of holding a convention of the secretaries of the commercial organizations of the South.

It has been definitely determined to hold such a convention, and the dates are fixed for October 16 and 17, to meet in the city of Chattanooga, and it is believed that the larger number of commercial bodies throughout the South will have delegates present.

The objects of this gathering will be to discuss plans for rendering business organizations more active and efficient in the work of building up the South, and to obtain closer co-operation between them on matters of common interest. A program will be arranged along these lines, and every secretary who attends will receive practical ideas from those whose experience entitles them to give advice on the subjects discussed. Every commercial organization in the South will be asked to send its secretary as a delegate to this convention.

Considerable good should result to the various organizations taking part in this conference, as well as giving added impetus to Southern trade generally. Concerted action is the only thing needed to bring supremacy to the South as an industrial center.—Nashville Tennesseean.

### CONFERENCE OCTOBER 14

Of Textile Manufacturers and Labor Men.

Gov. Patterson has issued a call for a conference of textile manufacturers and labor representatives, to be held in Nashville Oct. 14. This call has been issued after a conference with President A. E. Hill, of the Nashville Trades and Labor Union, and Secretary E. S. Shannon, of the Nashville Board of Trade. The Governor's call, which is self-explanatory, follows:

To Whom Concerned: By virtue of the authority in me vested by a joint resolution of the Tennessee Legislature, approved and signed by me March 11, 1907, I hereby call a meeting and conference of the representatives of all labor organizations and others interested in this movement, from what are known as the Cotton States, to meet in the City of Nashville on Oct. 14, 1907, there to consider the question of child and female labor in shops and factories, with a view to adopting uniform laws that will be agreeable and just to the respective parties in interest.

The importance of this meeting is self-evident. In the uplift and evolution of civilized nations, the care and protection of women and children are questions that have become paramount. The ablest statesmen, publicists, philanthropists, and thinking people generally, are addressing themselves assiduously to an adjustment of these matters, and I urge upon all textile interests, and especially upon all labor organizations, to choose and send delegates of conservatism, probity, ability and discretion, who will meet and give serious thought to the

questions mentioned, and take such action as may commend itself to their good judgment.

Done in Nashville, Tenn., at the Executive Chamber, this Aug. 9, 1907.  
MALCOLM R. PATTERSON,  
Governor.

One subject of special importance to come before this conference will be that of laws regulating hours, it being desired to secure uniform action by the States in regard to this feature of the labor question. It is expected that the conference will be largely attended, and that a movement of far-reaching results will be the outcome.
