MAJESTIC RANGE**
THE RANGE WITH A REPUTATION
MADE IN ALL SIZES AND STYLES.

Set of Ware FREE

If you call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great and Majestic Range, and will purchase one at the regular price, we will give you free the beautiful and useful souvenir set of ware illustrated in this advertisement. This ware is made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this set, especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during the demonstration week only.

Reasons Why the GREAT MAJESTIC You Should Buy.

- 1st. It has the reputation of being the best range money can buy.
 - 2d. It not only has the reputation but IS the best range made, and we will prove this to you if you will let us.
 - 3d. It is constructed of malleable iron, material you can't beat, and of charcoal iron, material that resists rust 300 per cent greater than steel, is riveted together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.
 - 4th. The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water, is heated like a tea-kettle, with pocket against left hand lining, and movable and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from the fire.
- Majestic Ranges use less fuel; heat more water—and heat it hotter; costs practically nothing for repairs, lasts three times as long; bakes better; easier to keep clean and gives better satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once? Come in demonstration week and we'll prove it.

Diamonds?

Well, I should say so!

Dietzel Bros. have a fine assortment of Diamond Rings, and I am more than pleased with the one I bought. You can count on one thing, if they tell you it is a perfect stone, you can rely on it being that very way. They guarantee their goods in the old, old Dutch Dietzel way—an article must be as they say it is. Their future is in front of them; their honor behind them to the limit.

Notice to the Farmers.

Do you intend to plant cotton? If so, do you intend to plant seed that will not open. Our seed have been tried and they open in this climate. Only about 50 bushels left, so if you will phone us to book you for as many bushels of Simpson's Early Prolific Cotton, the earliest cotton in the world, as you want, we will do so. They cost you \$1.75 per bushel, but every seed is good, and, being small, you only use about one-half as many as the old green native seed. We guarantee you from one pound to 500 pounds more per acre than any other seed you can plant. Does it pay to plant seed that will not open, or seed that will open and give you a full crop instead of only a half a crop? Call or phone the Union City Feed Store. Phone 567.
