

TO TOBACCO PLANTERS KEETLEWELL'S Manipulated Guano!

Proved by experience to be the best Fertilizer known for the growth and improvement of quality of the Tobacco Plant.

THIS GUANO has been thoroughly tested for several seasons on all crops, with universal success, and can no longer be regarded as an experiment.

No. 1—H-Most Penetrating, Guano.

No. 2-3 and 3-4—Extremely integrated by machinery.

We challenge any man, to point, in first crop, and in second crop, and improvement of seed, in admittance of no comparison. For Tobacco it is greatly superior, producing a much heavier and richer leaf.

H. G. S. KEY,

George H. Morgan,
St. Mary's Referee.

Dr. R. NEALE,
Henry Sotheren,
Montgomery County.

N. C. Dickerson, Esq., says "Tobacco is very superior to what I have raised with Penman, and its effect upon grass exceeds any thing I ever saw or used."

F. M. Griffith of same county, testifies as follows:

New Lexington, Jan. 30th, 1858.

Jno. Kettell, Esq., Esq.

Madam Sir—I would now desire to inform you of the result from the use of Kettlewell's Manipulated Guano, on my corn, oats, tobacco and wheat crops. I used it last Spring on my corn and oats, side by side with a No. 1 Penman Guano, and saw but little difference if any; I should decide in favor of the Manipulated Guano.

For tobacco I much prefer it, as the plant a much finer texture, which is, of course, of great advantage in curing. From the same reason, results in saving expense on my Spring crops, I ordered 4 tons last Fall for my wheat, which at this time looks equally as promising as any of my neighbors where Penman Guano has been used. Several of my neighbors also have tried it and are very much pleased with its results.

With the highest consideration of respect,

I am very truly yours, &c.
F. M. GRIFFITH.

Extract of a letter from Col. Geo. W. Hughes, of West River, Anne Arundel county, Oct. 23d, 1857.

I have used your Manipulated Guano No. 1, on Tobacco the last season, with most excellent effect, and expect to increase my purchase of it next Spring for the same purpose."

Our agents in Petersburg, Virginia, a large Tobacco district, refers to us as follows:

JOHN ROWLEY & CO.

Sale Agents for

KEETLEWELL'S MANIPULATED GUANO.

This most valuable manure was first brought out under the name of Reed's Manipulated Guano, but is now sold under the name of Kettlewell, Esq., of Baltimore, and recommended in his name by his physician, who has now taken entire charge of himself, and is engaged on a very extensive scale. We especially beg leave to call it to the attention of tobacco growers—it has superseded all other fertilizers—making a much heavier and richer plant than that grown from the Penman. We deem any further comment unnecessary, but will submit the following names for reference:

R. P. ATKINSON, Dandridge,

H. A. WINSTON, Easton.

P. R. WHALEY, Prince George's.

T. E. DAVIS, Washington.

M. R. NELLETT, Newbern.

J. W. COOK, Hagerstown.

J. S. PARISH, Hagerstown.

W. M. GILL, Dandridge.

O. P. HARE, Free George.

J. W. REESE, Belvoir.

B. SMITH, Lanesboro.

Persons ordering direct or through their Commission Houses will please specify Kettlewell's Manipulated Guano—the original and genuine article.

No. 1, per ton, of \$200 lbs., \$45.

No. 2, " " " " " 45.

Put up in good strong bags.

JOHN KETTEWELL,

Or,

G. OBER, General Agent,

No. 5 Bowly's Wharf, Baltimore, Md.

May 13, 1858.

FIRST PREMIUM

Threshing Machine.

LINTON'S

Iron General Threshing Ma-

chines.

The superiority of this machine was fully tested and proven at the late fair of the Maryland State Agricultural Society, when it entered into competition with 15 different kinds of Horse Powers and Threshers, and to which, after a careful examination by the Judges, the First Premium was awarded.

This machine is driven by iron rods in place of a chain—no iron is lost in stamping to iron bands, and it is warranted to out-thresh any other machine—in short, it is the very best in the market. It will thresh at a fair trial from 75 to 100 bushels per hour.

This machine is known as Linton's Iron General Machine (Patterson's) is made of the best material—warranted to give satisfaction, and is well known in the lower parts of Maryland and Virginia, to be just such as we recommend.

Price—No. 1—4 Horse Power and Thresher and Separator, with plated bars; finished in best style, delivered on board of vessels in Baltimore, \$150.

No. 2—6 Horse Power and Thresher, all complete, for threshing, \$165.

No. 3—8 Horse Power and Thresher, all complete, with Straw Carrier, \$200.

Last season we were unable to fill all our orders—therefore, who desire this, no chance will order early, or they may be disappointed.

Also—Montgomery & Prothero's celebrated Double Screen Rockaway Fan, furnished to order.

All orders by mail, or otherwise, promptly attended to.

Address, No. 45 West Pratt Street, Baltimore Md.

June 3, 1858.—1y.

ATHLIES

AUTOMATON OR SELF-RAKING REAPER AND MOWER.

The greatest Labor-Saving MACHINE ever invented.

The only machine with which ONE BOY can cut grain alone and take it ready for loading. This Reaper and Mower stands without a rival wherever used. The following references are appended to satisfy the neighbors of St. Mary's that the "Self Raking Reaper" is what it is represented to be: J. T. Baker, Dr. C. S. Spalding, Thomas Held, Jas. H. Thomas, Painter, can obtain this machine by early application to the Agent.

J. W. J. MOORE,
Agent for St. Mary's county,
At Leonard Town, Md.

TO THE PUBLIC:
A REPORT having obtained currency here and elsewhere, that I have sold the Washington Hotel, the object of this notice is to ascertain the report is entirely without foundation.

I availed myself of this opportunity to inform my friends and the public that I am prepared to accommodate them, and solicit a confirmation of their favors.

J. W. J. MOORE,
Leonard Town.

FIRST PREMIUM

Threshing Machine.

LINTON'S

Iron General Threshing Ma-

chines.

The friends of DANIEL T. MORGAN, present him to the voters of St. Mary's county, as a candidate for clerk of the circuit court at the election in 1858, and solicit for him a sufficient number of votes to elect him.

REQUISITES FOR GRADUATION FILES, &c.

The candidate for the degree of Doctor of Medicine must be twenty-one years of age, of good moral character, have applied himself for three years to the study of Medicine, and have attended two all courses of lectures, the last one of which shall have been at this institution; also one course of Practical Medicine.

At the time of application, he must pay to the Dean of the Faculty the Diploma fees, also present an original Thesis on some medical subject, and shall undergo a satisfactory examination. Should the candidate not pass, the fee and essay will be returned to him.

The fee for the Full Course is \$100.00 Matriculation (paid only once) \$5.00 Demonstrator's Ticket, \$10.00 Graduation \$5.00

The expenses of living in Washington are moderate as in any other city in the Union.

For further information, address

JOHN ELIOT, M. D.,

Dean of the Faculty,

No. 405 Pratt Street, West.

April 15th, 1858.—1y.

NOTICE.

We, the undersigned, of the law firm of Miles, Robertson & Briscoe, will continue to transact the Commission business at the old stand, No. 140 Pratt street, under the style of Robertson & Briscoe.

Particular attention will be given to the inspection of Tobacco and the measuring and weighing of Grain.

We also purchase on commission all kinds of Merchandise, Clover, Timothy, Flax and other Seeds, Lime, Plaster, Bone Dust, Dried Guano, Ashes, and all Fertilizers so essential to Farmers.

This machine is known as Linton's Iron General Machine (Patterson's) is made of the best material—warranted to give satisfaction, and is well known in the lower parts of Maryland and Virginia, to be just such as we recommend.
