TEETH CAUSE OTHER ACHES

Reading my Ladies' Home Journal I find the following paragraph: "A man suffered from acute rheumatism. He went from one doctor to another without relief. Finally he went to his dentist one day to have his teeth fixed. A blind abscess was found, which was opened and cured. Immediately his rheumatism disappeared."

This is only one of thousands of cases coming to light that prove bad teeth are a cause of other aches than toothache. Dental care heads them off.

Camels are made for Men who Think for Themselves

Such folks know real quality—and DEMAND it.

They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave NO CIGARETTY AFTERTASTE.

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons.

But QUALITY! Listen! That's CAMELS!

Three Parties To A Telephone Call

It is always well to remember that good telephone service does not depend entirely upon the operator.

There are two other persons involved—the person calling and the person answering—and over their movements the operator has no control. She may do her part very efficiently, but unless the others co-operate, the best results will not be had.

It is not the fault of the operator, for instance, if the calling party, relying on his memory, calls for a wrong number or hangs up his receiver in the middle of a conversation. Neither is it the fault of the operator if the called party fails to answer promptly or is already engaged in conversation with another person.

Good telephone operating is brought about by co-operation on the part of the party calling, the operator and the party called.
