Small Depositors

There are several reasons why the management of the Cape County Savings Bank welcomes small depositors and considers it a matter of good business policy to give equal attention to small and large accounts.

In the first place, most of our large depositors started as small depositors.

We have had the pleasure of seeing many accounts grow steadily over a period of years and are glad to say that we have helped our customers to increase their business and deposits.

So far as the bank is concerned, it is just as satisfactory to have several small accounts aggregating the same as one larger one, because, although there is three times the bookkeeping involved, that is more than offset by the possibilities of development of three different accounts, besides the advertising value of three satisfied customers.

This Bank's Capital and Surplus of \$100,000.00, and its complete equipment and strong personnel make it an ideal depository for small depositors who hope to be bigger ones.

The officers will be glad to talk over banking relations with you at any time and pledge themselves to serve your interests faithfully when you intrust your business to this bank.
