Rev. T. R. Stroup is another pastor who has many warm friends in this city, and who in his work is doing his best to open the hearts of his hearers. But while we are on the "opening" subject, and while our remarks may seem just a bit out of place, we must say that penitent hearts are not the only thing that he can open. Even the locked doors of steel safes are subject to his will, especially if he has ever had occasion to get intimate with their combination. The Reverend was called to Binghamton, Tenn., yesterday, as he was recently city clerk of that city a short time before coming to this city. While in the capacity of city clerk, he of course held the records and had use of the city vaults, and recently when his successor passed to the four winds with funds of that city, there were none who could open

the vault except the former city clerk, hence their call to him for assistance. And he delivered the goods. Upon his return to this city he was accompanied by Rev. E. B. Crump of Blue Mountain, Miss., being joined at Memphis. Rev. Crump will hold a revival meeting at Bokerton and Shilo.

WOMEN DEMAND WARS SHALL END

Peace League Means More to
Them Than It Can Mean
to Men.

DR. SHAW'S STIRRING PLEA.

(By the Late Dr. Anna Howard Shaw.)

Seven million one hundred thousand men who had laid down their lives in the great war. Think of it! Seven million, one hundred thousand young men had died on the field of battle!

What does that mean to the women of the world? It means that seven million one hundred thousand women walked day by day with their faces toward an open grave that they might give life to a son. It means that seven million one hundred thousand little children lay in the arms of a mother whose love had made them face even the terrors of death that they might become the mothers of men.

It means that year after year these women had put up their lives into the lives of their sons until they had reared them to be men. For what? In the hope that these sons of theirs could give to the world the things for which women dream, the things for which women hope and pray and long. These were the things that the women had in their hearts when they gave birth to their sons.

But who can estimate the value of seven million one hundred thousand dead sons of the women of the world? Who can estimate the price which the women have paid for this war; what it has cost them, not only in the death of their sons, because that is a phase of our war to which we look.

The Courage of Women.

We hear our orators tell us of the

courage of our men. How they went across the sea. Very few of them remember to tell us of the courage of our women, who also went across the sea; of the women who died nursing the sick and wounded; the women who died in the hospitals, where the terrible bombs came and drove them almost to madness. They tell us nothing of the forty thousand English women who went to work back of the trenches in France.

They tell us nothing of the thousands upon thousands of women of women who not only toiled and worked and slaved in order that the war might be successful, but we do not hear of the thousands of women, not alone in Armenia, not alone in Montenegro, not alone in Serbia, but in Flanders, in Belgium, in Rumania, in Russia—the thousands of women who lie in graves today, murdered, so horribly murdered that men dare not speak of it.

And yet we women are asked what we know about the League of Nations; asked what we can understand about a League of Nations. Oh men! the horrible deaths; the horrible lives of thousands upon thousands of women today in all these nations, who must live, and who must look in the faces of children unwelcomed, undesired—of little children—and know that these are the result of war.

And then ask women why they should be interested in a league of peace?

Women Suffer Most From War. If there is any body of citizens in the world who ought to be interested in a league to ultimately bring to the world peace it is the mothers of men, and the women who suffered as only women can suffer in the war and in devastated countries.

And we call upon them, we women of the world call upon the men who have been fighting all these battles of the years, the men who have led armies, and led armies close to their deaths.

We are now calling upon the men of the world to in some way or another find a passage out of the sea of death. We are asking them to form a league which will bring hope to the women of the future. If women are to bear sons only that they may die, if women may not have hope and aspirations for their children, if women may not dream the dreams that have in them the hope of the highest civilizations, the highest moral and spiritual life of the people—if women may not have these in their hearts as the mothers of men, then women will cease to desire to be the mothers of men. And why should they not? Why should they not?

Water-Proof Match.

A new safety match which is claimed to be wind-proof and water-proof will be especially useful in modern warfare. It will burn five seconds in the face of a strong wind, and when it goes out it will not start a fire, no matter where it is thrown.

TO REORGANIZE COMPANY B

We are informed that Dr. G. W. Phipps is in receipt of a letter from Col. A. Linxwiler urging the speeding up of the recruiting and reorganizing of the National Guard unit of this county. Col. Linxwiler states that permission has been received from the War Department to organize two regiments of infantry in this state, and that the work of reorganization is being actively pushed in St. Louis, Cape Girardeau, Sikeston, Poplar Bluff and other cities of Southeast Missouri.

It occurs to us that it is about time that the work of recruiting Company B should begin here in this county. The war record of Company B is one record that everyone feels proud of and we are of the opinion that many former service men and others would be glad and willing to enlist under the liberal terms which the Government now offers.

Under recent provisions of the War Department, any man who has had as much as ninety days service either at home or abroad can enlist for a term of one year without reserve; those who have not had any prior service must enlist for a period of three years. Realizing that men who devote their time to drills in order to be prepared for active service should be compensated for their service, the Government agrees to pay 25 per cent of the regular pay. This will amount to \$7.50 a month to each man who enlists. In addition to this an annual encampment of not less than ten days will be held at Camp Clark, Mo., in which full pay will be received.

Enlistment blanks have been received for those who desire to join and any one who is interested in the matter is requested to see W. B. Hitchcock, R. B. Powell, A. S. Oliver or Dr. Phipps, who will gladly explain the plans in detail.

It is planned to form one platoon in Hayti, one in Steele and two in Caruthersville, a platoon consisting

The forests of western Siberia have been scarcely explored, but they are strided to be 200,000,000 acres in extent, more than half being in an absolute state of nature.
