### Preventative Medicine.

The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.

### Boosting Norwood and Wright County

From E. A. Stout Farm Agency, Inc., 150 Nassau St. N. Y. C. Thousands of persons all over the United States and even some in foreign countries are receiving nowadays invitations to come to Wright County and make their home on its profitable farms.

They are being told of the attractions of Norwood—its prosperity and progressiveness, its thriving industries, banks, produce houses, experimental poultry farm, farmers' exchange, farm fairs, fraternal organizations and churches.

These invitations are being sent to selected lists of prospective farm buyers—men who are seeking the comforts, independence and prosperity of farm life here.

The little booklet in which they are contained should be of real value to this and nearby communities for it will set thousands of people who would make desirable citizens thinking about Norwood and Wright County and longing to come here and see for themselves evidences of our prosperity.

This kind of advertising for a city or community is usually the result of an expensive campaign to line up the business or farming interests but this time it cost nothing either to Norwood or the farming section that will profit by it.

The folder is part of a \$1,000,000 campaign undertaken by the E. A. Stout Farm Agency, Inc. to boost the farm selling business and it is being distributed by James E. Hart, local representative of that agency. Mr. Hart intends that Norwood and Wright County should be the result.

## \$525 IN PRIZES FOR THE BEST RHYMES

A new contest is just being started which will interest every man and girl who reads this paper. Any woman or girl can enter this Contest—anyone can win! All it is necessary to do is to write a 4-line rhyme on Dr. Price's Phosphate Baking Powder, using only the words which appear either on the label of the Dr. Price can (front and back) or on the printed slip which is found in each Dr. Price can.

Isn't that easy? Everyone likes to make rhymes and here is a chance to spend a fascinating hour or two writing rhymes on this popular Baking Powder and perhaps winning a substantial prize for your efforts.

For the rhyme selected as best a prize of \$100 will be given; for the second, third and fourth best rhymes prizes of \$75, \$50, and \$25, respectively will be given. And besides these prizes there will be 55 prizes of \$5 each for the next 55 best rhymes. With such a long list of prizes as these, it would be a pity not to try your hand at it!

Here is a 4-line rhyme as an example:  
Two teaspoons of this powder make Biscuits, muffins, pie or cake,  
The Price's Co., guarantee No dum in the cans to be.

As Dr. Price's Phosphate Baking Powder sells for only 35 cents a 12 oz. can at grocery stores, some rhymes could play up the remarkable economy of this pure and wholesome baking powder which contains no alum.

All rhymes must be received by May 1, 1922. Only words appearing either on the label of the Dr. Price can (front and back) or on the printed slip contained inside the can may be used. These words may be used as often as desired, but no other words will be allowed. If you haven't a can of Dr. Price's, a copy of the label and the printed slip will be sent to you free upon request.

Any woman or girl may enter the Contest, but only one rhyme from each person will be considered. In case of ties, the full amount of the prize will be given to each tying contestant. Write plainly on only one side of a sheet of paper and be sure to give your name and address.  
Send your rhyme before May 1st to Price Baking Powder Factory, 1007 Independence Blvd., Chicago, Ill.

Wright County shall get as large a share of the benefits of that campaign as he can divert here.

Its illustrations afford inviting glimpses of a few of the sources of income of Wright County farmers, fields of grain in the harvest season, shocks of corn and a luscious looking strawberry or two.

Accompanying the photographs are carefully written descriptions of selected farm bargains in Wright County and brief but pungent paragraphs answer most of the natural questions a prospective farm buyer would want answered about the opportunities for profit, the crops, markets, soil and climate of this section.

Farm seekers are informed that this is a great fruit country, that the quality of the fruit grown here is unsurpassed and that fortunes are being made from peaches, apples, strawberries and blackberries.

They are assured of a climate rivaling California's, good markets, splendid opportunities for hunting and fishing and figures are given to show that our farmers have derived good incomes from dairying, growing live stock and poultry, corn and alfalfa.

Indeed the booklet is a real compendium of information about this territory and should be of value in promoting its development. It shows that the Stout Agency, Inc. and Mr. Hart are boosting Norwood and the farming country around it, which should increase the business of Norwood merchants and the deposits in our banks.

It shows it is a land where opportunity knocks and prosperity beckons.
