In our efforts to show the many resources of Billings county, we were disappointed in not receiving a few of our cuts. Among them was one of a coal mine in the Bad Lands, where subterranean burning coal, joined to action of air and water, has worn the clay into fantastic shapes and the heat has given the iron in the soil most brilliant colorings. Our county includes a portion of these picturesque lands which are underlaid with lignite coal of the finest quality, the veins being so near the surface that they are easily worked. Thus fuel is plentiful and cheap and the residents of Billings Co. need never fear a coal famine.

Kansas Comedy of Errors. Ben Hook, who has been spending the winter in California for his health decided to come home this week and surprise his good wife by returning unannounced. So he left Los Angeles Monday and arrived here today.

His wife had also planned a surprise for her husband. She and her nephew, Sam Hook, left Monday for California to join her husband without informing him of their plan. They have passed on the way and now he is at the end of the line and she is out in California.

He Was Cured. "They tell me that you have cured yourself of chronic insanity." "Yes, I'm completely cured." "It must be a great relief." "Right! I should think it was. Why, I've awake half the night thinking how good it is after from it!"

The above represents the "Rose Farm" owned by Simon Schmidt who has been here but one year making all of the above improvements in that time. This is not an exceptional farm home. It is but one of many such in the Valley.

Psalm from Farm Life. By Frank M. Glade. Tell me not in broken measures Modern farming does not pay. For a farm produces chickens, And the hens—do they not lay?

Eggs are high and going higher. And the price is soaring fast. Every time we get to market It is higher than the last.

Get a coop but it produces every day an egg or two. So each farmer gains his millions. Even though his hens be few.

Every egg is very precious. And the hens are held in awe. When a hen begins to cackle Then the farmer goes "Heav, how!"

In the broad and busy farmyard Struts a rooster now and then. But the shrewd, bewhiskered farmer Only notices the hen.

Trust no rooster, however showy Be the feathers in his tail. Pay attention to the biddies. And your wealth will never fail.

Lives of farmers all remind us We may roll in wealth some day If we hustle to the market With the eggs our pullets lay.

A Reliable Remedy for Croup. With the dry, cold weather of the early winter months, parents of croupy children should be on the alert for ominous symptoms. There is no cause for anxiety, however, when Chamberlain's Cough Remedy is kept in the home. If this medicine is given as soon as the child becomes hoarse or even after the croupy cough has appeared, the attack may be warded off. Mrs. S. Rosenthal, of Turner, Michigan, says: "We have used Chamberlain's Cough medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all dealers.

Belgians Cute as Yankees. Artificial nutmegs are made in Belgium in so clever a manner that they can hardly be distinguished from the genuine ones, especially if mixed with the latter. A chemical analysis has shown them to consist of a mixture of finely powdered nutmeg (from extracted or injured kernels) and about 20 per cent of mineral substances.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy. "Last winter I caught a severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This Remedy is for sale by all dealers.

Not an Epistle. Oliver Herford, who is equally famous as poet, humorist and brilliant wit, was entertaining four magazine editors at luncheon when the bell rang, and a maid entered with the mail. "Ah," said the editor, "an epistle." "No," said Mr. Herford, tearing open the envelope—"not an epistle, a collect."
