### WAR BREAD RECIPES.

(Furnished for publication by the local branch of the Women's Auxiliary to the Minnesota Public Safety Commission.)

**Oatmeal Bread.** For each loaf of bread use 1 cup liquid (milk and water) 1 cup rolled oats, 2-2 cups wheat flour, 1 teaspoon fat, 1 teaspoon salt, 1 scant tablespoon sugar, scald liquid and pour white hot over the oats, fat, salt and sugar. When lukewarm, add yeast. For 4 or 5 loaves, use 1 cake compressed yeast or 1 cup home made yeast or 1 cake yeast foam made into soft, or potato yeast.

Knead, let rise until double the bulk, knead again, put into loaves. When light bake about 1 hour in moderate oven. If potato or soft yeast is used and the dough seems sticky, add a little more wheat flour. This bread is being used by many families in this county, and it is excellent. If yeast foam is used, knead the bread in the evening and let rise over night.

**Yeast Cornmeal Bread.** For each loaf of bread, use 1 1/4 cups liquid (milk and water) 2-3 cups corn meal, 2-3 cups wheat flour, 1 tablespoon sugar, 1 heaping teaspoon salt, 1 teaspoon fat, add salt, sugar and fat to liquid and bring to boiling point, add cornmeal very slowly, stirring constantly until all the meal is added, bring to boiling point, remove from fire and cool. Add yeast and white flour, using all the flour, it can all be kneaded in. For 4 or 5 loaves use 1 cake compressed yeast or one cup home made yeast.

Use yeast foam, knead at night and let rise till morning, bake at least 1 hour in moderate oven. This bread is used by many Willmar families and is good.

Along the lines of the military encampments, mince pie proves to be prime fare for the boys in khaki—from the noble little private straight up to the commanding officer all affirm it "great eat." They want the kind they used to get at home.

Now such mince pie is made just as the best housewife makes the best mince meat in her own kitchen. The package recipes are good for pies, cakes, puddings, and cookies.

Bake a Now Such War Pie—no top crust. Saves flour, shortening, labor, money—half the cost. Good, too. In this way you help the U. S. Food Administration.

For economy Now Such is the leader, for it comes in a paraffin-lined package which prevents waste, and is cheaper than bulk mince meat bought by the pound.

The package weight increases three times its weight when the necessary moisture is added. It costs only a few cents—is absolutely clean and keeps like fruit cake.
