## SURGEONS BATTLE WITH PNEUMONIA

Furloughs to Farmers in Certain Cases. Camp Dodge Men in 12 Camps.

Divisional Headquarters, 88th Division National Army, Camp Dodge, Des Moines, Iowa, April 22, 1918,-While there is nothing alarming on account of the scourge of pneumonia that is prevalent at Camp Dodge, nevertheless a most determined fight is being made to ascertain the source of the disease and to this end the most noted physicians in the United States are battling with the deadly visitor. As stated in a previous letter the large number of cases of pneumonia are attributed to the dusty condition of the camp. No rain of any consequence has fallen since the fertile farms along the Beaver were converted into the abode of thousands of men last fall. The only real wetting the ground has received was from a snow fall in February. That was before the frost was out of the ground and only the surface was thoroughly wet. Grass seed has been sown over all of the loose, bare ground and sprinkling from innumerable hose-nozzles will soon convert the dust centers into beautiful lawns. It is believed that the dust element as far as it may contribute toward the presence of pneumonia has been eliminated.

The Commercial Club has again voted twenty-five dollars for prizes in the home garden contest to be conducted during 1918. Superintendent G. A. Foster. High School Director of Agriculture, H. Hookem, and County Agent E. L. Rodegeb were appointed a committee to formulate rules and conduct the contest.

A few changes were made in the rules of the year before and were adopted as follows:

1. The contest will be open to any boy or girl now enrolled in the 5th, 6th, 7th, 8th, and 9th grades.

2. All work must be done by the contestant except the plowing or spading up the ground.

Base Ball Teams Badly Crippled. Several ball teams have been organized and games were planned with league teams in adjoining states, but the transfer of several thousand men to other cantonments greatly disorganized matters. Captain Griffith is busy gathering up his stranded forces. Base ball players of national renown who were at the camp have been taken elsewhere, but there are a number of good players left and some fast games are expected. The hospital team has arranged games at Sioux City, Omaha and Minneapolis, and will take Mike Gibbons and Earl Caddock along to feature their visit.

Another Call for Men.

Another Call for Men.

Illinois, Minnesota, North Dakota and Iowa have been instructed to send to Camp Dodge during the five days beginning April 26, thirteen and fourtenths of the gross quota from each state. Only white men will be chosen from class one in the sequence of their order numbers. Men who are engaged in the cultivation of crops are to be exempted from this call. This will make a total of about 12,000 men from the four states. Iowa's quota will be 3,412 and Minnesota's will be some larger because that state is still short 500 men on its previous call. Illinois sends 5,579 to four different cantonments. The order that only white men will be sent this time applies to negroes only. Indians are classed as white and another bunch of these men from the Standing Rock Agency in North Dakota will report for duty. The call for men to help Uncle Sam in his fight found ready response among the descendants of Sitting Bull, famous Sioux chief, and as a result, eighteen husky braves now are a part of the Eighty-eighth division at Camp Dodge. These members of the "first families of America" are assigned to Company A of the One Hundred and Sixty-third depot brigade. They are showing wonderful progress too, according to their officers. There's just one thing that's disappointing to the Indians; they all want horses to ride. Thus far Uncle Sam hasn't seen fit to place animals at their disposal. Various organization commanders are scrambling for an opportunity to have one or more of the Indians attached to their respective commands as instructors in riding. Thus far but four are scheduled for transfer. They are: Gray Hull, Gray Hawk, Lean Elk, Herbert Keepseigel and James Murphy who probably will go to the headquarters detachment of the One Hundred Seventy-fifth brigade.

Quartermaster's Depot to Be Establish-All supplies of food, clothing and the like are received from the quarter-master's headquarters in Omaha. The like are received from the quartermaster's headquarters in Omaha. The
war department has decided that a distributing depot will be established at
Camp Dodge. Six large warehouses
are to be erected at once, each having
a storage capacity of 10,000 feet.

Potatoes have been purchased to
supply troops at Camp Dodge contrary to orders issued last November
that "all articles of the ration required
for the supply of troops will be obtained from the camp quartermaster
when on hand." A new order was issued from divisional headquarters forbidding any violation of this order in
the future. This means that no supplies can be bought from local busi-

plies can be bought from local busi ness firms when the camp quarter master has the goods in stock. The civil sanitary zone about Camp Dodge has been enlarged. When the zone was first established in July it comprised the townships of Madison, Jefferson, Webster, Crocker and Saylor, all in Polk county. The board has discovered that the township of Des Moines in Dallas county, which adjoins Madison township on the west, has several mining camps which are in an unsanitary condition. The zone was extended to include that township.

It mean that manure will not be permitted t accumulate around barns and that all such must be treated with chemicals before it is spread upon the farms. Screens must be put upon windows and doors of all outbuildings and all breeding places for files will be eliminated.

Parms Not After Dodge Soldiers. Either the farmers of the country are not greatly in need of help or the soldiers of the Eighty-eighth division do not care to give up the army life for work on the farms. Not a single application has been made for furlough under the recent ruling of the department allowing soldiers passes to return to their homes and help with the rush of spring planting, staff officers declare.

Applications may be made by the parents or relatives of the soldiers through local draft boards. Application parents or relatives of the soldier through local draft boards. Application blanks have been sent to all local boards

More Men Coming.

Blanks have been sent to all local boards.

More Men Coming.

Another draft has been ordered, the selected men to report between May 1 and 10, Minnesota 1,925, North Dakota 541 and that part of Illinois in this cantonment zone 612. The Iowa men will be sent to Jefferson Barracks at St. Louis. Minnesota and North Dakota will come to Camp Dodge and Illinois will send her quota to Jefferson Barracks. The men from the previous draft will begin to arrive at Camp Dodge April 26. There is plenty of room because of the large number of men distributed among other cantonments the past three weeks. The same provision as that in the previous draft, exempting men assidiously and completely engaged in agriculture, is contained in the new call. Wide variance in the percentage of total draft registrants put in class one by draft boards has caused an official inquiry calling for "detailed reasons for such classifications." This inquiry is being made by Adjutant General Logan on instructions received from the provost marshal general. Just why some counties should place such a small percent of its men in class one is what the officials want to find out, although it is recognized that in some districts the percentage of married men and aliens is larger than in others.

SAYS LEMON JUICE WILL REMOVE FRECKLES

Girls! Make this cheap beauty lotion to clear and whiten your skin. Squeeze the juice of two lemons into

bottle containing three ounces of orchard white, shake well, and you have quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any

drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft
