The Chicago Mandolin, Banjo and Guitar Club gave a concert at Turner Hall Thursday evening. The audience was small, the building unusually cold, and this perhaps accounts for the inferior quality of the entertainment. Under other circumstances the quartette would have undoubtedly given better satisfaction.

Gustav Fischer in a letter to the writer from Philadelphia says that he often runs across signs above the business places which remind him of New Ulm. For instance, he mentions two as follows: "Drink Burg and Pfander's Celebrated Lager Beer" and "Buy Your Jewelry of the Spoehase Brothers," both of which sound very familiar.

The Washburn forces late last Tuesday night offered to transfer their strength to John Lind, but that gentleman promptly refused, stating that he had never had any idea of becoming a candidate and was only on the field in the interests of his friend, Mr. Washburn. Had Mr. Lind consented, the fight would undoubtedly have been prolonged and the issue rendered uncertain.

The jury system was the subject of debate at the Literary meeting at Turner Hall Sunday afternoon and the great majority were opposed to the system as it is found in practice to-day and in favor of modifications requiring an educational qualification or competency to pass upon legal questions. At the next meeting, some phase of the labor problem will be discussed.

The ice-men in the employ of Behnke and Reinhart, about twenty-five in number, having finished their harvest on Saturday, all piled into bob-sleighs drawn by two span of horses and enjoyed a lively ride up and down the principal streets of the city. Children, or young men and ladies, couldn't have looked happier, and the sight was a novel one that attracted attention from every window.

Mayor Koch is overwhelmed these days with petitions from the poor of the city for relief. Often he is imposed upon, and has therefore made it a practice to personally investigate every case brought to his notice, granting relief where it is actually needed and refusing it in cases where there is plainly an effort being made to work the city. It is to be regretted that there should be any such cases, but the mayor meets with plenty of them.

The birth and death record for Nicollet county for the past year shows that in Courtland township there were 21 births and 7 deaths, in Lafayette 18 births and 11 deaths, in West Newton 22 births and 3 deaths and in Ridgely 12 births and no deaths.

The piano recital given by Miss Alpha Hirsch at the Congregational Church Friday evening was accorded a liberal attendance and in return gave these present an enjoyable treat. The various selections showed remarkable proficiency on the part of the pupils and reflected much credit upon the instructor.

During the progress of the case against Jos. A. Eckstein in the United States Courts last summer, which was purely a case of spite-work, the Review urged the abolishment of the present method of paying district attorneys—that of feeing them and thus placing a premium upon uncalled-for prosecution. A bill is now before congress to remedy this evil and a strong fight is being made for its passage by the judiciary committee.

In conversation with A. H. Lienhard on Monday, we learned that he has a photograph in his possession of Jos. Smith, the founder of Mormonism back in Illinois, presented to him by members of the Smith family. It will be remembered that Smith had but one wife, not being a believer in polygamy, and Lienhard says that, when a little chap, he often sat on her lap and was many a time the recipient of a slice of bread and butter at her hands. His parents and the Smith family were neighbors and intimate friends.

Dr. Weiser received some unusually sad news from his old home in Pennsylvania on Monday. The Owl Club, of which he had been a member, had arranged for their annual sleigh-ride from Selins Grove to Middleburgh, and when the members started out with their ladies, they formed a jolly party and little dreamt of the calamity that was soon to befall them. Near Middleburgh they were compelled to cross a railroad track near a curve, and their singing drowned the noise of an approaching train, which struck the sleigh and killed two of the party outright. Several others were badly maimed and only three escaped injury. Miss Minnie Schoch, who is well known here, was to have been one of the party, but was fortunately detained at home.
