OBITUARY

On the eighteenth day of December, 1912, the death angel came for sister Bertha Frith and took her into the presence of God. Sister Frith was born Feb. 1851, hence would have been 62 years old her next birthday. She was converted in 1868 and joined Fellowship Missionary Baptist Church. She was married to Bro. J. W. Frith Dec. 1871.

Sister Frith with her family came to Arkansas about 1893, and united with Union Missionary Baptist Church, by letter in 1894 there lived a consistent member until death. Having been a faithful Christian ever attending the house of God, this Union loses a dear member. She was a faithful, consecrated wife and mother, and loved her church like her own home. The life she lived shall never die, the influence and advice thrown around children and friends will continue to grow. She is gone but not forgotten. "though dead yet she liveth." She passed away quietly to join the heavenly host. She leaves a husband and four children, her church, pastor, and friends who sympathize with them, but our loss is her gain. 'Tis sweet to think of living together, again in a house not made with hands eternal in the heavens. Her natural body was laid to rest in the Union Cemetery to await the resurrection.

I. A. Fincher, Hussel Taylor, Delimer Bailey, Committee.

If Wisdom's ways you wisely seek,
Five things observe with care—
With whom you advertise,
Of what you advertise,
And how and when and where.

TRADE MORAL—Trying to win a girl's love by taking her aunt buggy riding is like an attempt to do business without advertising. The aunt enjoys the buggy ride, but it doesn't help your cause with the girl. The merchant who wants to win the home folks' trade will win if he plugs persistently through these columns.

Telephone Batteries

Not all of our customers know that we carry in stock the strongest and best telephone batteries to be had. In the first place, we have to buy a battery that is good enough for use in automobiles and gasoline engines. We carry only this one grade and we furnish them for use in telephones as well. They are not run down a bit when you get them, for we buy a barrel of them direct from the factory every month, and they are fresh. If you are having the least bit of trouble with the batteries you are using, come in and ask us for a pair of "RED SEAL." They cost us about three cents apiece more than the ordinary kind would cost, but we sell them at the same price as the others:---
