

FORD RETAIL SALES GO OVER MILLION CARS AND TRUCKS

DETROIT, Mich., Jan. 25.—Retail sales of Ford cars, trucks and Fordson tractors have again exceeded the million mark for the year 1921, according to a statement given out today by the Ford Motor company.

The Ford factory and assembly plant production figures reached a total of 1,667,440 cars, trucks and Fordson tractors for the year 1921, according to a statement given out today by the Ford Motor company.

A. B. HEPBURN

(Continued from Page One.)

the National City Bank and president of the Chase National Bank.

Mr. Hepburn was a trustee of the Rockefeller Foundation and a member of the New York City Chamber of Commerce, the Pilgrims, the Academy of Political Science, the Japan Society, the National Geographic Society, Metropolitan Museum of Art and a member of the Museum of Natural History.

He always maintained an active interest in international affairs, especially in American-Japanese relations and in 1915 gave funds to the University of Tokyo to establish a chair for the study of the history and constitution of the United States. He was made an officer of the Legion of Honor by the French government in 1915 for his share in a reception in New York to French official visitors. In the year following the world war he was appointed chairman of a committee to aid German children.

Mr. Hepburn was author of many magazine and review essays on economic and finance and published two books, "The History of Coinage and Currency," and "Artificial Waterways and Commercial Development."

Chairman of the currency committee of the American Bankers' association from the time of its organization. He was a member of many leading clubs.

In 1873 he married Miss Hattie Fisher of St. Albans, Vt. who died several years later. In 1887 he remarried, taking for his wife, Miss Emily H. Eaton, of Montpelier, Vt. They made their home in New York City for many years and had a country house at Ridgefield, Conn.

ODD AND INTERESTING

(Continued from Page One.)

to check the flames were futile.

CHICAGO, Jan. 25.—The pre-war dollar now is worth 72 cents when spent for meat, and 68 cents when spent for other food stuffs, according to a statement made public today by J. T. Russell, president of the National Association of Meat Canners.

Eighteen months ago, Mr. Russell said, the pre-war dollar was worth 82 cents in the retail meat market and a year ago, 82 cents.

NEW YORK, Jan. 25.—"Izzy" Elmsden New York's most spectacular prohibition agent, today disguised himself in David Harum garb, assumed an authentic "big city" dialect, hired a creaking survey, drove into the country north of Monticello, N. Y., and returned ten hours later with three whisky stills, several hundred gallons of mash ready for distillation and several cases of "moonshine," incidentally he had served three summons on upstate farmers calling for explanations in federal court.

PHILADELPHIA, Penn., Jan. 25.—Kneeling beside the coffin, which lay the body of her husband, whom with his stenographer, she had slain, Mrs. Oscar Rosier today pleaded for forgiveness. As the tears streamed down her cheeks and fell upon the face of the man she had killed and with her 3-months-old baby son clasped tightly to her breast, she repeated over and over self-reproaches for her act. After twenty minutes with the dead, before the court, hysterical that her guards were compelled to lead her from the room.

LEON, Spain, Jan. 25.—(By The Associated Press.)—Owing to the heavy snowfall in the mountain regions, many wolves have made their way down the slopes into the plain districts. The villagers of Comero and Sopena are unable to leave their houses after dark, owing to the wolves.

GENOA PARLEY

(Continued from Page One.)

nite policy in our conduct of foreign affairs that the German reparations must first be fixed before anything practicable can be done as to other aspects of stabilizing the world economically and politically.

In short, if the Genoa conference is to meet and talk and end with the German reparations unsolved, there is little use of our participating in it. To do so would be like attempting to build the walls of a house before the foundation stones are made secure.

Finally, the mere presence of the Russian government at the Genoa conference will constitute a kind of indirect recognition of the soviet. On this subject our government has had a definite policy different from that of some European governments. Whether or not we are to recognize the present Russian regime might better be considered directly and singly as a principal subject either by ourselves alone or in conference with other nations.

(Copyright 1922 by the New York Evening Post Inc.)

parison of production figures for the past two years shows that Ford enclosed cars are gaining in popularity, as 23 per cent of the 1921 production were Sedans and Coupes as against a total of 13 per cent for the year previous.

Recent reductions in Ford car and truck prices brought them to new level. The Touring car now sells for \$345, the Runabout for \$319, the Coupe for \$380, the Sedan for \$445, the Chassis for \$285, and the truck for \$430, all F. O. B. Detroit.

This is the fourth price cut in the past 18 months. During that time the price of the touring car alone has been cut from \$575 to \$345, a reduction of 40 per cent. Reductions on some of the other types have been even greater.

The Ford Company believes that this reduction, while not a large one, is especially important at this time as it should go a long way toward stabilizing market conditions.

Ford is giving employment at present to approximately 40,000 men in his main plant at Detroit, the importance of which is emphasized when consideration is given to the fact that nearly 20 per cent of the city's population is directly dependent upon the Ford Motor Company.

SHOUP ADDRESSES HARDWARE MEN

DENVER, Jan. 25.—The farmer and the man who is a producer must be restored to the point where they "are able to sell their products at a profit," declared Gov. Shoup in an address today at the annual convention of the Mountain States Hardware and Implement association.

"The products of our soil are most important. When the farmer is prosperous, the merchants and bankers are prosperous and every one is prosperous. It is our chief duty as citizens to restore the farmer," he declared.

Referring to a speech made by Earl D. Holmes of Casper, Wyo., president of the association, concerning the tendency of some hardware dealers to leave the smaller towns for the cities Governor Shoup urged that every effort be made to "encourage them to remain in the country districts."

"We in America must encourage by extension of credits and more opportunities men to stay in country districts," he said.

Governor Shoup was one of three governors scheduled to address the hardware delegates to speak today. Governor Carey of Wyoming and Mechem of New Mexico, were called to Washington, it was announced.

Low Soule editor of the Hardware Age, expressed an opinion that business for the hardware men will be better during 1922 than it was in 1921.

"One thing is certain," he said, "business will be better in proportion to what we do to help make it better."

President Holmes of the Association, predicted a gradual improvement in industrial conditions in his annual address.

Secretary-Treasurer W. W. McAllister of Boulder, made his annual report to the association. It showed the membership had tripled in three years.

HARDING TAKES

(Continued from Page One.)

committee of fifteen but no changes were made. It now is regarded as probable by some delegates that no word regarding the fortifications proposal will come from Tokio before next week.

Today's meeting of the Far Eastern committee was equally inconclusive, the delegates debating without final action the situation of wireless facilities in China. It was voted to reconsider a resolution adopted December 7 to restrict use of wireless plants and after Elihu Root had presented a substitute for his proposal of yesterday, the subject was referred to a subcommittee. At a meeting later the subcommittee likewise discussed the proposed resolutions without action.

MAID SERVANT IS CONVICTED OF ROBBERY

DENVER, Jan. 25.—Mrs. Mary Kirby was found guilty today before the district court of stealing \$3,000 worth of wearing apparel and jewels from Mrs. Herbert S. De Sollar, society matron, in whose home she was employed as a maid. The jury acquitted her husband, James Kirby who was prosecuted with her. Counsel for the defendant obtained a stay of execution pending appeal for a new trial.

Immediately after the jury brought in its verdict, District Attorney Vance ordered Kirby held on a charge filed in New York.

MADE NUMEROUS HAULS

CHICAGO, Ill., Jan. 25.—Mrs. Lucille Hoff Hanley arrested in connection with a forgery confessed today according to the police that she committed several robberies single handed, two of them after she had drugged her victims. Her thefts during the last sixteen months mostly jewelry and clothing, totalling more than \$50,000 police said.

According to the police, Mrs. Hanley usually obtained employment as a maid, then robbed her employers at the first opportunity.

FORD SIGNS CONTRACT

DETROIT, Mich., Jan. 25.—The contract covering the proposed lease and purchase of the government's nitrate and waxpower projects at Shoals, Alabama, was signed by Henry Ford and returned to the war department tonight a few hours after it had been received it was announced.

To Cure a Cold in One Day Take Laxative BROMO QUININE tablets. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 30c.

NOTICE

LON L. SILLIS has moved his real estate office to 205 W. 4th street in the OPERA HOUSE BLOCK.

WITNESSES ADD LITTLE LIGHT

None of 16 Are Able to Present Direct Testimony of Hanging

WASHINGTON, D. C., Jan. 25.—None of the sixteen or more witnesses appearing today before the senate investigating committee was able to present direct testimony relating to charges that American soldiers had been hanged without trial in France. Henry Gentry, a negro of Lawrence, Kansas, who served in the regular army prior to the war declared he saw a negro officer Major George H. Phillips of East Orange, N. J., shoot William Patterson a negro private, but he could not say positively whether the soldier died or whether Phillips was tried by court martial.

The shooting, he said, followed the soldier's refusal to help an army cook slice bread.

Three medical officers attached to base hospital No. 9, near Chateau Roux, testified there was no truth in charges by former service men that the bodies of nine men, killed by the military police had been sent to the hospital. Then half a dozen former soldiers declared only two men were hanged at Is-Sur-Tille, the number listed on the war department's hanging report. Previous testimony was that "about a dozen" soldiers had been put to death there.

Speeches made by Julius Rosenwald president of Sears, Roebuck and company of Chicago to troops in France while there as representative of the secretary of war were mentioned by two witnesses who asserted Mr. Rosenwald had assured negro soldiers they would receive better treatment at home after the war, and that this had created some bitterness in camp. One of the witnesses, said some of the white soldiers felt like lynching the speaker. All agreed, however, that in whatever rows resulted among the men, nobody was killed.

CHILDREN POISONED

DES MOINES, Ia., Jan. 25.—Sheriff W. E. Robb is investigating the illness of Conrad Wooley, aged 12 and Orville Porter, aged 16, who are said to have been ill after having eaten of food at the latter's stepfather's home near here last Saturday. An analysis of the food is said to have shown that the food was poisoned.

The case was first called to the authorities attention by M. A. Fisher, the stepfather who brought samples of the food to the sheriff's office charging that attempt had been made to poison him. This led the sheriff to investigate and it was learned the boys had been ill from poisoning. The sheriff is investigating reports that the boys have been poisoned as the outgrowth of family differences.

They will recover.

DENVER MEN DIRECTORS

NASHVILLE, Tenn., Jan. 25.—H. W. Stanley, receiver of the Tennessee Central railroad since 1917 was today announced as president of its successor, the reorganized Tennessee Central railway, with Claude K. Boettcher and George G. Morse, both of Denver, as vice-presidents.

Purchasers of the Tennessee Central were said today to be considering favorably the possibility of extending the western division of the road from Hopkinsville, Ky., to Paducah, a distance of seventy miles to connect with the Burlington.

WOULD GIVE THE VETERANS ADVANTAGE

WASHINGTON, Jan. 25.—Oscar E. Carlstrom, commander in chief of the United States Spanish War Veterans, and a committee from that organization called at the White House today to request President Harding to extend to Spanish war veterans the executive order following a five point preference to veterans of the world war in civil service examinations for postmasterships.

The committee also requested an increase of the pension allowance to disabled Spanish War veterans and the widows and dependents who are now getting, it was said, only \$12 a month. Inclusion of disabled Spanish War veterans among these eligible for hospital treatment also was asked.

Considers Rereading

DENVER, Jan. 25.—City Attorney James A. Marsh announced today he is considering the advisability filing a petition for a rehearing in the tramway fare case before the United States circuit court of appeals at St. Louis. The court upheld the decision of United States Judge Robert E. Lewis in granting the tramway the right to charge an 8-cent fare. The city was given 60 days in which to file a petition for a new trial.

Educator Travels

DENVER, Jan. 25.—William Herbert Perry Faunce president of Brown University of Providence, R. I., arrived in Denver today with his secretary, Thos. B. Appleget, on a tour of the country in educational interest. At noon today Mr. Faunce addressed the Kiwanis club on "the meaning of America." Tonight he will speak at an alumni banquet at the University club. "Brown University" will be his subject.

TAPPED THE WIRES

New York, Jan. 25.—When workmen attempted to take down the telephone switchboard in prohibition director Ralph A. Day's office, evidences were found that outsiders had for an undetermined period been "tapping" the wires and listening in on telephonic conversations to and from prohibition headquarters.

IRISH PEACE TREATY SIGNED IN ROOM WHERE BRITISH- U. S. TREATY WAS MADE

Council chamber in Lloyd George's official residence in Downing street London.

The treaty which made Ireland a Free State was signed in the council chamber in the official residence of Premier David Lloyd George at 10 Downing street, London. It was in this room that the peace treaty between Great Britain and America, which marked the end of America's fight for freedom, was signed.

DIPLOMA DID NOT WORK; COPS BUSY

WEBSTER, Mass., Jan. 25.—Arthur Arsenault was back at a bench in Oxford today, a correspondence school detective discredited by contact with courts and with the state constabulary.

He wrote under an assumed name to Niles Peterson, postmaster at Dodge, that he was a detective who "always got his man and worked in secret" and would turn up the men who robbed the postmaster three months ago when he was advanced carfare and money enough to buy a revolver and a pair of handcuffs.

Peterson informed the state constabulary and the mechanic detective was locked up.

Convicted of impersonating an officer Arsenault paid a small fine, then took out of his pocket a diploma with seals of red and gold which attested his qualifications as a graduate detective. He tore it in small pieces.

ANTI-URIC RHEUMATISM

Rheumatism must be treated internally. The blood should be purified and the kidneys made to do their work properly. ANTI-URIC will do this. You can get everything necessary in the complete Anti-Uric outfit. Sold by Metropolitan Drug Co.

WHEN HAIR THINS, FADES OR FALLS, USE "DANDERINE"

35 cents buys a bottle of "Danderine." With it ten minutes after the first application you can not find a single trace of dandruff or falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping your hair to grow long, thick and luxuriant.

Girls! Girls! Don't let your hair stay lifeless, colorless, thin, scraggy. A single application of delightful Danderine will double the beauty and radiance of your hair and make it look twice as abundant.

A Stubborn Cough Loosens Right Up

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction, or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Automobile Men Re-Elect Officers

The Pueblo Auto Trades association held the annual meeting at the Commerce club Wednesday night, with optimism and enthusiasm as the keynote of the meeting. From reports it was evident that there is an increased movement in business in all lines represented.

The 1921 directors were unanimously re-elected as follows: E. V. Fagerstrom, E. C. Gilman, Jack Fairbanks, E. J. Beatty, E. C. Mattes, F. E. Tedford and A. E. Hoskins.

Lectures to be held in the future, were discussed and the San Isabel forest also received much discussion. Ways of making a bigger and better Pueblo as well as a bigger and better automobile business were taken up at the meeting.

SUMMER BEAUTY HINT

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of canthrox (which you can get at any druggist's), in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also. Duffiness which makes it seem much heavier than it is. After canthrox shampoo, arranging the hair is a pleasure.

The first and last original dramas of Shakespeare are "Two Gentlemen of Verona," written in 1570, and "The Tempest," written in 1611.

Thirteen thousand women hold membership in the American Association of University Women, which aims as far as it is possible to help women who cannot afford it, to a university education.

One of the first women constables in Ohio is Miss Lena Buckley, of Toledo. Officer Buckley, a demure little miss with bobbed hair and goldfish, declares that it is great fun to be a constable.
