Thos. H. Ince  
Associated Producers Inc.

Director Genius of the Industry next picture "The Cup of Life" here Tuesday.  
The people of Pueblo know why they call Thomas Ince a genius, for many directors have made one good picture and never made any more real big ones. Whereas Mr. Ince has contributed many exceptional productions. Let us recall "Mother O' Mine," "Hail the Woman" both of these recognized by the critics of the world as a step and an accomplished advancement for fewer and better pictures. "The Cup of Life" is a more stirring thrilling picture than the others. Struggles such as come to one in this life of today. A desperate battle with man and a "killer" shark taking place beneath the ocean's surface is another thrilling moment of this big picture. A distinguished cast featuring Hobart Bosworth, Madge Bellamy, Tully Marshall, Niles Welsh, will appear on the Palm screen starting Tuesday.

**Comrades in Arms**
