WASHINGTOE, Nov. 30-Adjutant-General Drum received the following telegram from General Crook: Sanchez brought into Fort Apache last evening the head of one of the hostiles, named Ogale Quelah. He also 3.40. reported the hostiles are killing all the White Mountain Indians they can find on the reservation. It seems that up to this time they have killed eleven women, four children and five men. The White Mountain Indians propose to retaliate on the Chiracahuas remaining on the reservation, but these are close to Fort Apache, and are carefully guarded. The Indians on the reservation are aroused, and several parties of scouts and the troops are hunting the hostiles.

## CAMELLINE

PRESERVING AND BEAUTIFYING THE COMPLEXION.

Originally a California discovery, CAMELLINE has, wherever known, rapidly superseded the "Creams," "Baims," "Blooms" and Powders, for the reason that in place of the unnatural hue thus obtained, it imparts to the complexion that youthful and glowing appearance so much sought and admired; and, unlike them, when properly used, the closest inspection fails to reveal any application; yet all traces of sallowness and other cutaneous defects are removed, and the skin regains that softness and purity of color so rarely possessed by adults, but so valued by every lady, and so quickly missed by observers of sterner mind.

It is an evidence of the increasing intelligence of the times, that the popularity of CAMELLINE is not due solely to its elegance and efficiency, but in part to the fact that it is the only preparation for the complexion which is harmless, and commands scientific approval from physicians.

It is now generally known that cosmetics usually contain lead, mercury and other poisons, which in time RUIN THE COMPLEXION, and, being absorbed through the skin, frequently produce parawsis, etc., while the medical journals report many serious and several fatal cases of poisoning from hese sources. No lady, therefore, can safely continue the use of any cosmetic without the sanction of the medical profession; we therefore publish the following certificate from a large number of prominent physicians:

"The professional description of the medical profession; we therefore publish the following certificate from a large number of prominent physicians:

"The undersigned physicisms of San Francisco are familiar with the composition of the principal articles used for the complexion, and certify that CAMELLINE is harmless and free from all injurious or poisonous substances: injurious or poisonous substances:

"H. H. Toland, M. D., Dean Toland Medical College; George F. Cooper, M. D., Medical Director U. S. A.; J. C. Shorb, M. D., Member Board of Health; Isaac S. Titus, M. D., Thomas Boyson, M. D., C. G. Kenyon, M. D., Thomas Price, M. D., H. Gibbons, M. D.

It being our policy to be always watchful for any improvement which may be of value to our patrons, we now take pleasure in adding our testimory to the merits of CAMELLINE for Preserving and Beautifying the complexion. CAMELLINE, as prepared by WAKELEE & ACO., the principal Chemists of San Francisco, was observed by our senior partner while recently in California. It is the only liquid for the complexion, having the sanction of the medical profession as harmless, while it is surprisingly effective for the purpose intended.

Faithfully yours,

GALE & BLOCKS,

New York. Caswell, Massaw & Co., Chemists and Druggists. Newport, R. I.

111), Sroadway, 578 Fifth Avenue.

16 is well known that many who consider the liquid preparations for the complexion to be more suitable than the powders, are deterred from using the forcer by the fear that all contain lead, mercury or some other poison.

CAMELLINE, for the complexion, prepared by Messra. Wakeles & Co., the leading Chemists of San Francisco, is the only article for the complexion which is at once efficacions, and is certified by high medical and chemical authority to be harmless and free from poison.

We therefore take pleasure in stating that we now keep the CAMELLINE in stock, convinced that it merits the favor it has obtained wherever known.

Caswell, Massaw & Co.

While we consider this high scientific testimony to be of the first importance, yet did space permit, we would add the mames of many distinguished ladies in the dramatic profession who testify to the superiority of CAMELLINE.

Mary Anderson, Fanny Janaushek, Mrs. Scott Siddons, Allco Ontes, Clara Louise Kellogg, Sarah Jowett, And Others. Fanny Davenport, Jessie Vekes, MESSES. WARRLER & Co.—Gentlemen: Madame Pattl desires to transmit her warmest thanks for your present of CAMELLINE, of which she had heard from many lady friends. She will now have to repeat the praise of your CAMELLINE heard from all sides.

Madame Pattl also desires to send you her best compliments.

ADMINE PATTL

We have, in addition, in our possession, many letters from well known nocisty indies, all of hom agree in testifying to the merits of CAMELLINE; but these may well be emitted, as a nigle trial is only necessary to convince.

DIRECTIONS. FOR THE COMPLEXION.—Select either the fiesh colored or white Camelline, as preferred, and after well shaking the bottle, apply it uniformly to the skin with a self place of lines or a small sponge, gently rubbing it till dry.

FOR STREEFINE.—Apply twice a day until relieved.
