Entered at the Brunswick, Ga.,  
postoffice, as second-class mail mat-  
ter.Hon. Emory Speer has designated  
the Brunswick Daily News as the  
official organ of the United States  
Court, in bankruptcy proceedings, for  
this county.

## PUBLISHERS NOTICE.

The News Publishing Company de-  
sires it to be distinctly understood that  
all legal advertisements must be paid  
for in advance. We cannot afford to  
"vote our space" to such advertise-  
ments and wait on the courts for the  
money.

## WE BID YOU WELCOME.

Friendship and acquaintance are at  
all times the best principles upon  
which true business conditions can  
be based.It is meet and proper that those who  
are interested in a common cause  
should know and understand each other.  
We all have little grievances; we  
all have small causes that can best  
be determined by a thorough acquaint-  
ance with each other.With the above statement as a fun-  
damental proposition we cordially ex-  
tend a hearty welcome to our visitors  
tomorrow. They come from a section  
which, through the many avenues of a  
progressive people, have become closer  
linked with industrial Brunswick.When the first spike was driven that  
marked the beginning of construction  
of the Brunswick and Birmingham  
railroad few of our people and prob-  
ably none of those in adjacent terri-  
tory indulged the hope that solid trains  
would be operating on what seemed to  
be an imaginary railroad line. How-  
ever, determination, perseverance and  
that spirit of everlastingly sticking to  
it has won, and today the Brunswick  
and Birmingham is a strong, powerful  
and practical enterprise, connecting, as  
it were, the wiregrass with the sea-  
board; our interests are identical.  
What benefits Brunswick must neces-  
sarily benefit the Brunswick and Bir-  
mingham and those of our citizenry  
who live in the territory which it  
traverses.Tomorrow is an epoch in our his-  
tory. It opens up a new traffic line; it  
brings in closer contact a people who,  
heretofore, have been divided because  
of the monster steel rail. It makes  
possible a closer and a better relation-  
ship between the greatest seaport city  
on the south Atlantic coast and a star-  
dy citizenship of the choicest section  
in all choicest sections of the grandest  
and most glorious state in all Dixie.

We bid you welcome.

Not in the spirit of commercialism,  
not wanting or desiring that you  
spend dollars in our midst but upon  
the higher principles and loftier plane  
that your coming brings us to the very  
threshold of a more thoroughly linked  
friendship. We feel that you who live  
tributary to Brunswick, along the line  
of the B. & B. railroad and we who  
dwell here, the grandest and most glo-  
rious little seaport in all the south,  
are very near to each other.We want you to feel at home in our  
midst; to come and go at your own  
sweet will, and we assure you that the  
hitchhiking is on the outside and you  
have but to pull it and gain admit-

tance.

Brunswick has many points of inter-  
est that would certainly attract your  
attention if you are among the casual  
observers.In the first place we are the largest  
lumber port in the world and likewise  
rank second in the handling of naval  
stores. Our harbor is landlocked and  
astronomers of note have predicted  
that real severe storm is a matter of  
impossibility.Our annual shipments for this year  
will aggregate twenty-seven million  
dollars an amount that would almost  
stagger the ordinary layman to think  
of.The taxable values of Glynn county  
(in which Brunswick is located) show  
ed a marvellous increase this year  
and in fact the county ranked in the  
third place in increases in the reports  
received at the comptroller's office in  
Atlanta.We have, within the past few years,  
established the most magnificent sewer-  
age system in the United States, cost-  
ing almost a half million dollars and  
through this medium our mortuary  
statistic show that Brunswick is the  
healthiest seaport city on the coast.We have some ten miles of paved  
streets, magnificent drives, a four  
mile boulevard and many other drive-  
ways among the best in the country.To make a long story short, we  
think Brunswick is an Eldorado, mag-  
nificent in the present, full of prom-  
ise for the future and we simply invite  
you, who lately have become close to  
us, to investigate for yourselves.As we have said before, our inter-  
ests are kindred and it seems to us  
that we should put our shoulders to  
the wheel and roll relentlessly for that  
industrial goal that seems so near to  
us all.For this specific occasion we give  
you the glad hand. Come and, for a  
day or two, be one of us. The city is  
yours and you have carte blanche to  
come and go just where you will. On  
all sides you will receive a warm and  
cordial welcome and we trust that this  
visit may serve to more securely cement  
that feeling of good fellowship  
that should exist between those who  
live on the line of the Brunswick and  
Birmingham and the people of Brun-  
swick.

AGAIN WE BID YOU WELCOME.

Milk cows for sale by C. S. Tait.

Ain't it a pity Atlanta couldn't have  
fire at the union depot.The little ones are now counting the  
days before the arrival of Santa Claus.The national congress is getting to  
be worse than the Florida legislature.The Griffin News wants to know  
"will the third house meet in the  
summer under the new law."The Macon News thinks that Stand-  
ard oil has gone up a few cents just  
to show up what it can do.Governor Terrell vetoed that sum-  
mer session bill, but he did not object  
to the legislature turning down his  
veto.The free excursion over the B. & B.  
from points along the line of the road,  
will come down tomorrow. Give our  
visitors a good time.The excursionists who come to  
Brunswick tomorrow should patronize  
the merchants who subscribed to the  
subscription list. They are the people  
who are giving the excursion.Read the advertisements in the News  
today and see which of our merchants  
invite you to patronize them. They  
are the ones that should receive your  
trade.Governor Terrell is of the opinion  
that he will only have to borrow \$75,  
000 for the state next year in order to  
meet the current expenses of the gov-  
ernment and the appropriations, de-  
spite the increase in the appropriations  
and the reduction of the tax rate to  
5 mills. He further thinks that the  
tax rate can be lowered from 5 mills  
to about 4.75 mills.

## FALL HATS.

I have them in  
all varieties. See  
my Xmas goods  
now arriving. The  
VERY LATEST  
MILLINERY LINE.

MISS KATE SLATER.

WOULD  
THIS  
INTEREST  
YOU?WE WONDER  
? ? ? ?THE DISAGREEABLE  
THINGAbout advertising is that we have to  
talk about ourselves—it is impossible  
to talk about our drug store without  
talking about ourselves.We are not trying to sell you any-  
thing that you will not be glad after-  
wards that you bought it.

## THE PLEASING PART

We want you to feel that everything  
in our store is of such a character that  
there will be no cause for dissatisfac-  
tion with it after the money is paid for  
it.That is the fact.  
It is the pleasant part of our doing  
business that so many of our custom-  
ers come in and say "Well, I always  
feel safe in buying anything here."It has been our constant aim for  
years, to establish such a reputation,  
and you can appreciate our gratifica-  
tion at the accomplishing of our long  
cherished aim.

## MANY LOW PRICES

Understand, please, that we do not  
pretend to handle nothing but "high  
priced goods." That is not the case.  
But we insist on handling only such  
goods as we can thoroughly recom-  
mend at the price. A 25c hairbrush  
can never be a 75c hairbrush, except  
in the hands of an unscrupulous mer-  
chant. In fact, we have seen many so-  
called bargains that were sold for the  
identical goods. We try to avoid plac-  
ing fictitious values on any of our  
goods in order to appear to cut the  
price and make the "Special" seem  
very low.That is just plain cheating, and we  
will not do business that way.

## FULL VALUE

We try, rather, to buy close the  
most desirable drug store goods.  
Then we offer these goods to intelli-  
gent purchasers and rely on their  
knowledge of values to carry on our  
business.Our business has grown. It was  
never so big as now. Never so steady  
as now—nor showing such signs of  
healthy growth as now.The older you grow, the more clear-  
ly you will realize that twenty-five  
cents does not buy a fifty cent article.Twenty-five cents buys more of the  
necessities and luxuries of life today  
than ever before, but the relative  
value of 25c and 50c is the same now  
as ever. It's well to remember that.We try to crowd in all the value  
possible at each price, and our facili-  
ties are such that we know of none,without exception, who surpass us in  
this respect. But we want you to feel  
that at 5c we are giving you full 5c  
worth—no more—but that you are  
really getting the 5c worth.We have learned that people are  
willing to pay what anything is actual-  
ly worth, but they hate to be cheated.  
"Something for Nothing" is a delu-  
sion.

## ALL THIS TALK

Has been for the purpose of having  
you know us better.We are not afraid to have you know  
us.We take pleasure in having physi-  
cians and thoughtful people come in  
and inspect our store behind the coun-  
ters, and down stairs. Everything is  
open and above board. There is noth-  
ing to cover up and keep out of sight.Many physicians know this, and  
that is why they often tell you to take  
difficult prescriptions, especially, here  
to be filled.Genuine, sincere confidence in a  
druggist's honesty is the real making  
of his success. You would be sur-  
prised at the extent to which old cus-  
tomers trust us.They have never had cause to do oth-  
erwise.If you would like to trade at a drug  
store, where you could be confident  
that the honest truth were told you,  
in all respects, we invite you to come  
here and become a regular customer.
