## Actually Grew Hair on Bald Spot

Your druggist can show you the original photographs of the case illustrated.

MR. E. BURNHAM, Chicago, Ill.  
Dear Sir—After having used your Hair Grower for about six months, I can truthfully say it is the most wonderful hair tonic that I know of. It has stopped the falling out and the bald spot is entirely covered with a thick, natural growth. I am more than pleased with the results. The enclosed photo shows that it can be, and was restored by your hair grower. My hair measures 4 1/2 inches, and is still growing, has a rich, healthy color, and is admired by all who see it. Am recommending your tonic to all my friends and acquaintances, and I sincerely wish you the success you and your wonderful discovery deserve.  
Yours truly,  
Miss L. Crawford  
417 Bay State Bldg.

These Wonders are Worked by  
E. Burnham's Hair and Scalp Tonic

By treating thousands of heads of hair as we have done for the past 30 years in our Chicago establishment, the largest of its kind in the world, we have been enabled to learn just how to treat diseased hair, and to compound this wonderful hair tonic.  
If your druggist does not keep E. Burnham's, send us his name and address and 10 cents and we will send you a trial bottle free.

### PROSPECTIVE NEW INDUSTRY.

P. N. Swenson Looks Over Lands With Idea of Establishing Brick Yard.

P. N. Swenson, secretary of the Tramway Brick Co., of Menomonie, Wis., is in the city this week looking up a matter which he has had under consideration for many years—the establishment of a brick yard at this point.

Some fourteen years ago Mr. Swenson, who is a brother-in-law of A. Dahl of this city, was here and in company with others secured clay from a proven deposit of thirty feet in depth, which was thoroughly tested and found satisfactory in every particular, but for some other reasons the plan of establishing a yard at that time was abandoned. It is now the intention to pick up the idea and with that end in view additional tests will be made and the land secured.

In conjunction with Mr. Swenson will be others interested in the Tramway company, including W. A. Drowley, a brick-maker of forty years experience, and Henry Sprink, president of the Menomonie company.

The establishment and success of such an enterprise would be a big thing to Virginia, our central location rendering the city the natural distributing point not only for the range but with our railroad connections giving us a field for such material throughout the Canadian northwest, where is to be found an exceptional market.

### Council Has Short Session.

The Tuesday evening session of the city council was devoid of matters of great note, but little business appearing to demand the attention of the body.

A petition from residents along the street asking for an extension of the water mains on Cedar street from Mesaba avenue to Railroad avenue was read and upon motion referred to the Virginia Light and Water Co.

An ordinance providing for a chief engineer for the Virginia Fire Department and providing regulations for the new paid department was presented and upon motion was given its first reading.

A resolution providing for the payment of \$50 to the Virginian for space occupied under contract in the Industrial Edition of that paper was passed by unanimous vote of all aldermen present.

The city clerk was instructed to notify James Sullivan to vacate the old city hall building, the building being desired for other purposes.

The council will probably meet at 7:30 next Tuesday evening and adjourn until the following night, because of the call for the Republican City Convention to be held at the council chambers on Tuesday evening at 8:00 o'clock.

### Find Tin on Vermilion.

A Tower correspondent to the Duluth Evening Herald is a authority for the statement that Fred Hannon, an experienced mining engineer who has been doing an amount of exploratory work on the Vermilion for some months past, has uncovered a big tin lead on the shores of Vermilion lake, the exact location of which is as yet kept secret.

It is stated that several assays made show the ore to be very rich. Whom Mr. Hannon represents is unknown, although he seemingly has ample financial backing in his enterprise. He is at present in Chicago, and it is expected that upon his return active development of the find will be commenced.

### New Passenger Equipment Here.

The handsome new train to be placed on the passenger run of the Duluth, Rainy Lake & Winnipeg between this city and Rainier, arrived in the city the last of the week and will be put in commission on the regular run when the passenger service is extended to the border the latter part of the month. The train comprises three handsome passenger coaches and a baggage car, and is equal to any equipment on any range road or in the northern part of the state.

### Catchy Music.

A delicious morsel in the comedy farce, "The Irish Pawnbrokers," is the introduction of a quaint melodious Irish "crooning" song and lullaby, done by Tony Murphy. The music of this number is said to be extremely catchy and easy to remember, and so popular does it immediately become that it is whistled and hummed by all the small boys, and by many of the big ones wherever the play is produced. At Fay Opera, Saturday, October 12.

### Wedded at Henderson.

At the home of the bride's parents at Henderson, Minn., on Wednesday occurred the marriage of Miss Mathilda Schauer, a former teacher in the Virginia schools, to Dr. T. P. Baldwin, formerly connected with the Lenox Hospital in this city but now in charge of a hospital at Trinidad, Wash., where the young people will make their future home.

### Explore Near Iron Junction.

John Chesser has this week commenced exploratory work on lands belonging to T. C. Young in section 15, 57-18, near Iron Junction. This is the first work ever done in this section, and the outcome of the work will be awaited with interest by many. Mr. Chesser has one drill at work and will likely place another drill on the lands shortly.

### Larkin Shipping Stockpile.

The Larkin, the local property of the New York State Steel Co., has this week commenced shipments from its stockpile, a trial order of 5,000 tons being the first shipment from the property. The mine has a stockpile of some 27,000 or 28,000 tons, and it is likely the entire lot will be cleaned up before the close of the season.

Under the direction of Supt. Kendall and Capt. Polglase, mining captain at the property, a new two compartment shaft has been sunk on the property the present season and a considerable amount of development work done, proving the ore body in a satisfactory manner. The Larkin has employed a good force in this work and more men are being added.

### Look for a Greater Sparta.

With the prospective moving of the town of Sparta the hustling citizens of the enterprising village are up and doing, planning great improvements for the new place. Among these is a double store building of solid brick by Saari, Campbell & Kraker, a brick livery by McHale & Hogan, a First National Bank by George A. Whitman. The new plat will also, it is said, be provided with sewer and water and will be replete with all modern improvements.

### Mine Valuations Stand.

By a vote of 9 to 16 the state board of equalization on Wednesday decided to let the mines assessment of \$191,000,000, as returned by the state tax commission, stand. Those six voted for a ten per cent increase in valuations, while a proposition to reduce the valuations from the figure named to \$150,000,000 found support of only two members of the board.

### Building Steel Bridge.

A. Y. Bane & Co., who have had the contract for the construction of a steel bridge across the narrow between Silver and Virginia lakes for several months past but who have been delayed because of their inability to get material, have a crew at work on the structure this week and will push same to completion as quickly as possible.

### Three Drills at Work.

The Hanna interests now have three drills at work on the land known as the Virginia Sliver on which they recently secured an option. The existence of ore on the property is known beyond reasonable doubt, and additional drills will be put on shortly to assist in proving the extent of the deposit.

### Masquerade Ball.

At the last meeting of Virginia Grove No. 46, U. A. O. D., it was decided to hold the first masquerade ball of the season on election night, November 5th. Watch for further announcements, and bear the date in mind if you would enjoy a good time.

## Wrinkles and What Causes Them

CHICAGO, March 27, 1907.  
E. Burnham, Chicago, Ill.  
Dear Sir—I desire to fulfill my promise to you, which was made last October, namely, that if you would improve my complexion by removing crow's-feet, wrinkles and discolored complexion, I would give you my photograph and testimonial.  
The enclosed picture, which was taken last Fall, shows my condition at that time. The enclosed picture, taken February 25th, shows my condition at the present time. I desire to state that you have not only removed the wrinkles and crow's-feet, but have put my skin in a first-class youthful condition, of which I am very proud. The fact is that my complexion is the envy of my friends, and I cannot say too much for your course of treatment for beautifying women. You certainly do all you claim and your remedies are perfection. I recommend them to my friends.  
Trusting this letter will fulfill my promise to you and be all that you require, I remain,  
Yours very truly,  
Mrs. Orr When She Commenced Treatment.  
Mrs. Orr After Course Treatment.

Mrs. Thekla Orr.  
Hotel Wychmere, 18th and Indiana Avenue.

"Wrinkles," the little word that causes a shudder to every woman and most men, are caused more by carelessness and neglect than by years. We all know the young person who makes creases by lifting the eyebrows and by smiling so continuously, also the person who frowns and squints, and the one who from ill health and poorly nourished skin shows the lines crossing the face in every direction. Such people may all take heart, because by the use of E. Burnham's wonderful skin food such lines may and surely will be obliterated.

It is unnecessary to-day for any one to carry these telltale marks. A course of treatment as arranged by E. Burnham will positively remove wrinkles, fill out the sunken cheeks, remove pimples and blackheads, and restore any face to its youthful contour and complexion. These treatments with the different articles are illustrated and explained in a little booklet which is published by E. BURNHAM, which makes it so plain that any lady can use these toilet articles with equally good success in the privacy of her own home as if she had visited Burnham's Beautifying Parlors and taken a course of treatments in this great establishment.

Any first-class dealer can supply you.  
Free sample Hair Tonic, Cucumber Cream, including booklet, "How to Become Beautiful," by calling, or mailed upon receipt of 10c to

The business of Blank, by some strange prank, Was beginning to go wrong. His business grew less, till, I must confess, He would have sold it for a song. But now, with smiling face and cheerful look, Blank surveys his large cash book. The remedy found was simple, I own; He had installed a Mesaba phone.
