The Grand Forks Herald of Sunday had a write up of the North Dakota University basketball team, of which Lynn Sinclair, of Stephen, is a member. The Herald speaks of Sinclair's work as follows: "Lynn Sinclair, dubbed the 'sensational kid' by classmates, after an unusually fine exhibition of basketball in a game this season, has played a spectacular and sensational game at a guard position throughout the entire season. Without hesitation he can be named as the best guard in the state. His work in all departments of the basketball game is consistent and thorough. He plays with a world of endurance, and his passing and dribbling cannot be surpassed by any man playing a similar position. He was an important factor in the university defense, and his spilling of plays and handling of the ball were praiseworthy. Sinclair comes forth in the individual scoring record, with 35 points to his credit."

TWIN CITY

12-20 Kerosene Tractor with 16-valve engine

Dependable as the locomotive

First in six out of eight competitive tractor contests. Read the following, on fuel costs:

Average of all tractors in contests, 56.34 cents per acre; average of TWIN CITY in contests, 37.6 cents per acre.

First of its type, the 16-valve-in-the-head TWIN CITY Tractor Engine carries much of the responsibility for this remarkable showing. Because this construction gives greater power, due to complete combustion, quick clearance of burned gases and rapid recharging of cylinders. Because of the economy obtained by perfect kerosene burning, without water injection.

Absence of vibration, hence longer life, is due to the counterbalanced crankshaft.

These features, recognized for years by engineers, produce the most powerful, economical and long-lived power unit.

Never before has the farmer had the benefit of these features in a tractor, on account of the extra high grade material necessary, the new manufacturing equipment required and the additional machine work involved.

In the TWIN CITY 12-20 you get them all—because it is built to do the work, not to meet a price. Write for full information on this most efficient tractor and the official proof from eight contests.

We have a carload of tractors, complete with plows in stock.—Come in and see them.
