LIGHT begins to dawn before the troubled vision of ten members of the G. A. R. committee on finance. A meeting was held at the chamber of commerce vesterday afternoon at which the members of that body, the board of trade and the citizens generally evinced the livliest interest. Committees were appointed to aid the finance committee in the canvass for funds, and the members of these committees are requested to meet at the chamber of commerce at 2 o'clock this afternoon to organize their work. Let the attendance be prompt. The work must be done at once, as there is little more than a a week before the encampment begins. The character and extent of the preparations to e made depend upon the amount of money, so there is no time to lose. Our citizens un til now have not had the matter brought before them properly, and now there is a full understanding there cannot be the slightest doubt but that the response will be at once hearty and liberal.
