NORTHERN PACIFIC RAILROAD LANDS.

OVER 1,000,000 ACRES IN MINNESOTA; 5,000,000 ACRES IN NORTH DAKOTA; 1,750,000 ACRES IN MONTANA; 1,750,000 ACRES IN IDAHO, AND 12,000,000 ACRES IN WASHINGTON AND OREGON. These fertile lands are for sale on easy terms at prices ranging chiefly

FROM \$3 TO \$5 PER ACRE.

The Northern Pacific country is the newest region open for settlement, but the richest in natural resources. Its exceptionally fertile soil, well watered surface, fine wheat and farming lands, best of cattle grounds, large bodies of timber, rich mining districts, healthful climate, great navigable waters, and grand commercial opportunities are the chief attractions which invite a large population.

NOTE: 10,815,433 acres, or more than HALF of all the Public Lands disposed of in 1883 were taken up in the prosperous Northern Pacific country.

480 Acres of government Land Free to Settlers under the United States Land Laws.

MAPS and publications descriptive of the railroad and government lands sent on application.

Apply to or address R. J. WEMYSS, General Land Agent;

The Ward Murder Trial.

[Special Telegram to the Globe.]

GRAND FORKS, D. T., July 12.—The defence put Carpenter, McQueeney and Cole, co-defendants, on the stand who corroborated Belle in some respects and in others not. They were mainly used for the purpose of discrediting Turpin, who they claim did all the shooting, not done by Chas. Ward. All are certain the party had neither guns nor pistols but there was a good deal of shooting. Carpenter located Lafr near him nearly all the time, describes the kicking and beating of Elliott and admits that he and Uline said, "Don't shoot that man." Carpenter also varies his statement before the coroner materially and explains by saying it wasn't correctly written down and was not read to him. McQueeney exhibited his arm to the jury, to show a mark of a wound he said Charles Ward inflicted, it being the fifth shot fired while he was dodging the flashes. In rebuttal the testimony before the coroner was read and admitted under exceptions. An officer of the territory was made to show the declaration of Fred Ward after the first removal of his stock by the Ceres party. He consulted with Anderson, receiver of the land office, as to his proper course to preserve his right to the claim, ruled out by the court. This was a surprise to the district attorney (Ball) after the admission last evening of Charlie Ward's declaration, which Wellington managed to get in. Evidence closed. Argument on requests for instruction will be made on Monday.

After the Battle.

CHICAGO, July 12.—There were very few remaining evidences this forenoon of the Democratic convention. The delegates very generally have taken their departure. The club and headquarters banners have been furled, and hotel corridors have resumed their wonted appearance. On the streets are to be seen a more than usual number of white hats, a number of which are surmounted with small feathered roosters, the wearing of which has become a sort of rage among the Democracy. Members of the national committee and other officers of the party who are still in the city express confidence as to the strength of the ticket. The delegates generally expect great success for the ticket. It is reported that the hands of the local committee in providing for their comfort. Now that the great convention has come and gone, it is due to the officers and committee of arrangements that the press should acknowledge their obligations. The remodeling of the hall made an admirable audience room, and the facilities granted for making, printing and telegraphing the extensive reports were ample. Special thanks are due to Judge Wm. C. Goudy, in the preliminary arrangement of the details, and Hon. Austin H. Brown and Col. Richard J. Bright, the efficient sergeant-at-arms, for the intelligent aid rendered, and just appreciation of the requirements of the press.

Cholera Still Raging.

PARIS, July 12.—Thirty deaths from cholera here last evening. Eight between nine and noon to-day. There were no deaths at the stations are crowded this morning with fugitives, who fought for tickets which the agents could not issue fast enough.

PARIS, July 12.—The newspapers declare the cases of cholera reported yesterday are sporadic.

TORONTO, July 12.—17 deaths from cholera last evening.

BASE BALL.

Corn was fairly active but prices were generally lower than yesterday afternoon. The opening was apparently firm and sales were at some advance over yesterday's closing, but the demand soon fell off, the shorts having apparently pretty well cornered during the past few days and bought sparingly to-day. The reported failures in New York and the consequent weakening in wheat brought corn down to 1 1/4 c. and 1 1/2 c. from the highest point, then rallied some again, eased off and closed quiet easy at 52 c. for August and 51 1/2 c. for September.

Oats were more quiet and easier, prices ruling steady for the day with speculative trade slow and few willing to operate.

The pork market was quiet but strong, July and August closing at \$22.50@23.00, or 10 c. higher than yesterday's quotations. September and October were unchanged, the former being quoted at \$21.50 bid and the latter at \$19.50. Year pork ranged at \$12.00@12.25.

Lard was less active; trading was in fact only moderate, and a good share of the day's business consisted of transferring outstanding trades from August to September. August closed at \$7.17 1/2 and September at \$7.32 1/2.

Short ribs were in fair request for cash and future delivery, and closed at \$7.80 August and \$7.87 1/2 September.

There was a brisk demand for all the good droves of native fat cattle and they sold quick at equally high prices as for any day this week and perhaps in some instances higher. For really good corn fed cattle the market closes strong for the week and fully as high as last Saturday.

Grass cattle is also a shade stronger than last week, yet fat stock is hard to sell at any time.

There has been a large increase of Texans and they have gradually declined, dropping 10c to day, making the decline on the ordinary run of canners 15@20c for the week. There is a fair business in stockers and feeders, but lean, little things are selling at low prices. Old cows, common bulls and the lower grade hogs and butchers' stock went again lower, making the decline for the week equal to 20@30c. Canners and butchers prefer the Texans that are now so plenty and comparatively cheap.

Receipts of hogs for the day rather heavy, for the last in the week, and for the week show a large increase over last week. Owing to the continued difference between the market and the commission men as to the manner of buying and selling, business is not running along as smoothly as formerly and to-day's trade was rather slow, prices uneven and the general market unsatisfactory to all concerned.

Hannibal & Brine say: Continued favorable conditions for the winter wheat harvest are now in progress here had a depressing effect on this grain market, and local operators have, for the most part, been disposed to reduce their trading to a minimum. Conservative dealers recognize in the current value of wheat a price much lower than has been reached at any similar season for the past twenty years, and with freight to the seaboard considered, a very much lower price than has ever been known in this or any other primary grain market in the country. The most important wheat crops of the world being as yet unsecured, they feel that any time a very sudden and radical change might occur in favor of
