Chicago Grain and Provisions. Special to the Globe.

CHICAGO, Jan. 23.—The situation in the wheat market probably presents a better showing than at any time for several Prices have got down to somewhere near the proper figure and an advance may be looked for, not a large or in values. This view of the case is based on the consumptive demand which may reasonably be expected from the American people, and leaves the export feature out of the question entirely. The stock of wheat and flour in the country at the present time, it is only reasonable to suppose, will be pretty well used up before the next crop can be made available, taking it for granted that the next crop will be a complete success when it comes. When the export feature is taken into consideration it is only fair to presume sudden advance, but a steady, healthy rise into consideration it is only fair to presume there will be some portion of our present supply taken by foreign countries. Australian and Indian wheat is well enough in its way; and, allowing that there is a large exportable surplus in those countries, the february, \$5. fact still remains that American wheat will hogs, \$4.75. still be taken, as the wheat from those countries will not stand the ocean voyage and be fit for use as flour

WITHOUT BEING MIXED with the good hard and reliable American article. If the stuff does not go to export in the form of wheat it will in the form of flour, for the fact remains that they must have it, Belgian legislation to the contrary notwithstanding. Again, it is not certain the next crop will be a success, and though that time is still far in the distance, it is safe to say that, with several months of winter weather ahead, the crop is liable to some risks. At any rate this feature will cut some figure in the manipulation of the next few months, and prices will at times probably

at the market. The crowd very generally looked for higher prices, but the sight of a head stuck up conspicuously was too great a temptation, and with Donnybrook stinct the traders went at it. Schwartz & Dupee led off with tremendous offerings and others followed. The scalpers, who had been following the market up, closed out their trades and went the other way and these professionals who were naturally bearish joined in and sold. The buyers were brought to a standstill and the screws were put on with redoubled pressing the market down from 861/c to 851/4c for May. A reaction carried the price back to 85%c, but it subsequently dropped to 85% e and closed at 85%@85% e. Public market cables were quoted as steady and dull. Some private advices quoted an formation that the advance had stopped business. The very latest news from across the water was that Liverpool had softened on the early break here, but these "latest" morsels from abroad do not weigh sixteen ounces to the pound quite. Corn eased off to-day in sympathy with wheat, 36c under heavy selling of May by A. M. Wright & Co. and David Dows.

and higher early, but the advance was subsequently lost. All hog product was lower. Pork sold off 10@121/2c and lard and ribs 5c, as compared with yesterday. The mar-ket was weaker to-day than it has been for some time past. It had little solid support from any quarter apparently. Speculators about the provision pit would like to beable to settle whether to-day's drop in pork was simply a little easing upon the invite more selling, or a sort of collapse of a deal which has always been in the hands of outsiders and was started by outsiders. There were no new developments to-day. The bulls be-lieve that Plankinton is at the head of the bulls; that he has cleverly spread around his orders so as all the time to give the impression that it was an outsiders' bull move-The facts wont be known to a dead certainty, of course, until the price is a good deal higher or a good deal lower than they are now. The market acts peculiarly at times seems to bear out one times to bear out the other assumption.

New York: Special to the Globe. New York, Jan. 23 .- The stock market was dull again to-day, with the interest cen-tering principally in St. Paul and Union Pacific. The opening throughout the entire list was at a sharp decline from last night's closing. St. Paul opened with a drop of 1 point. The talk was that something unfavorable to the stock would be done before the directors adjourned. People in Chicago who claim to have inside information were very bearish and predicted a drop to 85. The stock sold down to 92, and was heavily traded in around that figure. It was rumored that insulable proposed in Union Paper 19 and 19 a a big bull pool had been formed in Union Pacific. It was said that purchases of 50,000 to 100.000 shares would be made, but the stock sold off in the face of all this bull talk. It was said that an attempt would be made in for ongress to compel the Pacific Mail company refund to the government the amount of to refund to the government the amount of the subsidy paid by the Union and Central Pacific, on the ground that these roads, being indebted to the government, had no right to make such disposition of their earnings. The stock sold ex-dividend and was decidedly weak. Lake Shore and the rest of the Vanderbilts sold off with the general market. east bound shipments were light, but the deficiency in this regard, it was said, was more than made up by the increased local business. On the whole the market could be best described as inactive and heavy. Western Union was particularly heavy late in the day. Other securities exhibited little change, though the tendency was unmistakably down-ward. The failure of the managers of the Southwestern roads to accomplish anything and the adjournment of the St. Paul directors until next week without doing anything we construed as unfavorable to the market. close was very weak, particularly in St. Paul, which recorded a decline of about 1½ points

Special to the Globe.

Сысладо, Jan. 23.—Business at the stock yards were somewhat interfered with on acof the stock trains. On the Wabash, stock that was due yesterday had not been heard from at a late hour this morning. The Northwestern roads are reported snowed in through Wisconsin and parts of Iowa, hence a light run is expected for Monday. The estimated receipts of cattle for the day were 1,500. Certain tidy cattle that suited the shipping trade sold equally as high as any day this week, but all other grades were slow, with the turn in prices rather downward. The bog market was active to the extent of the supply, with the best heavy making \$4.35 @4.40 The estimated receipts for the day were 7,000; for the week, 167,860; for next week, 150,000, if there are no more blizzards. The receipts of cattle for the week were 40,-678, against 46,948 last week.
