GLOBE TIPS.

For the first race to-day the GLOBE's tip is that Patrocles should be first, with Pericles or Santa Rita second; in the second event, Aniban first, and either Baylight or Recluse second; Maggie Mitchell ought to win the third race, with Flageoletta or Romp well up at the finish. In the fourth race, as Dry Monofinish. In the fourth race, as Dry Monopole is in good condition, he should be first under the wire a scant length in front of Richmond and Wickham. Mammonist is a good tip for first place in the fifth race, hard pushed by Gonfalon and Tomasia.

For the second race the winner should be Ballston, who won the first race he was entered for. Billy Brown shoul be second. In the third race Prodigal and Fitzroy should be first and second. The fourth race did not fill, and another will fourth race did not fill, and another will be substituted to-morrow. In the thirteen hithings looked very blue for the hole club. St. Paul had three men chases and none out when Murphy sent a sky scraper to right field, which was neatly taken by Murphy, who returned the ball in time to put the runner out at the plate. Catcher Brennan then passed the ball to Reilly at third, who caught Dillon, thus completing a beautiful triple play amidst deafening cheers. In the thirteenth each side drew ciphers. In the first half of the fourteenth Quest crossed the plate before Dillon got the ball callim, but the umpire decided him out. Murphy, of Eau Claire, then hit safely and reached second. St. Paul at this juncture began to complain, claiming it was too dark, but they retired Eau Claire without a run. After a monkey and parrot time over the question whether it was too dark, the game was ralled after the fourteenth. It was one of the most exciting contests on record. Sowders, who had on the tenth St. Paul uniform, was fined by the umpire \$10 for sitting in the grand stand with a lady, and Manager Barnes was fined \$10 for talking. St. Paul apparently only had two men out in the last half of the fourteenth, but the umpire called the side out, and the game was so scored. Score:

ANOTHER FOR LA CROSSE. The Milwaukee Lads Again Taken Into Camp.

Pyle dropped off a little in the sixth inning, but not enough to hurt, and the visitors got but five actual hits off his delivery during the game. This is undoubtedly the finest work he has done in La Crosse. The game looked like a shut out for Milwaukee up to the sixth inning, when a base on balls and two passed balls yielded a run. In the next a single, double and Jevne's fumble gave them two more. Moriarity and Rooks took the fielding honors. The fielding of Hull was the feature of the visitors' playing. Hardie showed his

usual indifference, having three passed balls, all costly. There was a good deal of kicking against Umpire Naylor's de-eisions. Score.

Rain at Oshkosh

Special to the Globe. Ознкозн, June 30.—The game here was postponed by rain.

After Two Months. The end of the second month's play in the Northwestern league finds Milwaukee still in first place, with St. Paul second, Oshkosh third, Minneapolis fourth, Des Moines fifth, Duluth sixth, La Crosse seventh and Eau Claire last. The prospects for a general shaking up are quite as good now as a month ago. Seven of the eight teams are still in the race for the pennant, and, though Milwaukee, St, Paul and Oshkosh seem to be the strongest, the victory may go to any one of the other four. Eau Claire at last has a first-rate team, and will beat the best of them much oftener than at the opening of the season. The clubs stand in the following order: the Northwestern league finds Milwau-

How THEY STAND.

The end of the second month's play in the National league finds Detroit with a pretty firm hold on first place, but Boston, New York and Chicago are having a fine fight for the honor of the next position, with the chances somewhat in favor of Chicago. The latter club has more trouble in defeating Washington than any other club, and the Senators

are holding back the White Stockings pretty effectually, having beaten them four games out of five. The record to date is appended:
