Fort by Half a Thousand Indians Bent on Mnrder. OTTAWA, Ont., Aug. 3.-A letter has been received at Victoria from Constable Green at Fort Hazleton on the Skeena river, in which he says: "It is dangerous to stay here. There are but five of us in the fort, against 500 wild Indians, and all on the murder. They have killed five men since we came up, and they say they are going to kill all of us some night. We don't get much sleep, Have to keep a guard on all the time. We do not know when they intend attacking us. We have sent to Victoria for more help, and hope they will come up soon, but the Skeepa giver is so had up soon, but the Skeena river is so bad that it will take three or four weeks to get here. We do not know the moment we will be shot from the brush, and dare not venture from the fort."

It cures nervousness and mental exhaustion at once if not from inflammation. The Moxie Nerve Food plant was first discovered in South America by the late Lieut, Moxie, and first given to the public by Dr. Augustine Thompson, leading physician of Lowell, Mass.

I wish to call the attention of my customers and the public to the above. It has been my intention, for some time, to retire from the Jewelry business. I endeavored to do so in January of this year, but did not succeed in accomplishing my object, owing to the extreme cold and general dull trade; so concluded to wait until the present time. My stock is well assorted in the above-mentioned lines, and my reputation as a dealer in fine goods is well known; and my object in offering them at auction is to afford me a speedy method of disposing of my investment in the jewelry business. I respectfully invite your attention and attendance at the sale. I fully guarantee the quality of any goods sold. Respectfully,
