ELECTION DAY.

BE SURE you vete to-day. Polls open at 9 a. m. and close at 7

LET every Democrat do his duty by voting his ticket straight.

IF You are a Democrat, make sure that you vote a straight ticket.

THE Democrats of Ramsey county have the best and cleanest ticket that was ever put in the field.

HARLEM bridge is not a very formidable structure, but it cuts a good deal of figure in political calculations just now. A good many politicians of late have

feasted upon roasted ox. Raw crow will be the diet of some of them to-mor-LITTLE has been heard about Secre-

tary DAN LAMONT of late, but he has not been asleep. He is always alert and on deck. THE rain yesterday dampened Re-

publican enthusiasm. It was feared it might continue to-day and keep some of the men who voted for the grandfather away from the polls. THE managers of the HARRISON

campaign are evidently adepts in the game in which bluff is a conspicuou feature. It is a wonder that they con cede any states to the Democrats. LONG JOHN WENTWORTH WAS SOME

what eccentric in life, and has managed to break the post-mortem record in de vising an estate of a million and a half without an attempt to break the will.

Ir is a magnificent sight, that of twelve million citizens quietly recording their will, involving the control of the government for four years, with none to refuse peaceful acquiescence in the result.

THERE is no excuse for scratching a single name on the Democratic county ticket. It is not, like the Republican ticket, constructed for trading purposes only. It is a winning ticket, and one that deserves to win.

THE Democrats of Dakota county will observe that it was at the urgent request of Mr. MERRIAM that IGNATIUS Donnelly was pushed forward as a legislative candidate. Read TAMS BIX-By's letter on that subject.

THE Ohio Democratic state committee claims to have a poll of all the counties except that containing the city of Cleveland, with a showing of 13,000 plurality for the Democrats. Even smaller figures will be gratefully accepted to morrow.

Two YEARS ago McGILL received but 4.719 votes less than BLAINE had in 1884, while his plurality was 39,137 less. Allowing for the Republican votes thrown for AMES, it will still be seen that the increase of vote is in favor of the Democrats.

THE coal strike threatened in England, should it occur. will be the most formidable event of the kind on record. It is estimated that the number of men and boys to be thrown out will reach 240,000. They demand an increase of 10

per cent in wages. FOUR years ago the presidential election was determined by about a thousand votes. There will be nearly twelve million ballots cast to-day, and it is probable that the determining states

will be carried by a plurality of a few thousand. Possibly five or six thousand votes will turn the election. THE Boston Herald says the arguments in favor of commuting the death

sentence of Mrs. Robinson may be all summed up in the statement that she i a woman, and it is unusual to hang a woman. The date of the event is near, and the appeals to the governous are numerous and fervent.

BISHOP HUNTINGTON puts his support of tariff reform on the "ground of Christian morality rather than on any philosophy or economy in politics." He does not believe it is Christian or politically moral to take money from one part of the people and give it to a few individuals under the pretense of pro-

IN NEW YORK, among the novel features of the campaign just closed, the Prohibitionists went over the state with tents and evangelists, and the Democrats utilized the Erie canal with a campaign boat and a corps of effective speakers. who presented the political gospel to the throngs that came out to hear. Meetings were held at ninety-four places, and a million tariff tracts were distributed.

Mr. BLAINE spoke at Albany about the time the West letter appeared in print, and used this language, which was suppressed in the Associated Press report: "For less offenses than that of Lord SACKVILLE, on three distinct occasions, presidents of the United States have sent foreign ministers their passports. It is now one week before election, but I venture to predict that neitner President CLEVELAND nor Sec-

have the courage to treat Lord SACK-VILLE in this manner." While he was speaking, the action he asserted would not take place was going on. A large portion of the gentleman's declarations prove to be equally baseless in fact or fallacious in discernment.

LOOK TO YOUR TICKETS. Look out for bogus Democratic tick-

The Republicans have spent a good slice of their campaign boodle fund in printing spurious tickets with a Democratic heading and the names of the Republican candidates in the body of the

ticket. Another dodge of the Republican campaign is to flood the polling precincts with straight Democratic tickets, but with the names of the candidates spelled wrong.

And still another trick these Republican ballot manipulators have resorted to is to print and circulate so-called Democratic tickets with the names of the candidates all right, but having them named for offices for which they were not nominated. For instance, the name of WILLIAM A. VAN SLYKE will appear on them as a candidate for sheriff, and not for register of deeds.

Therefore, we urge every Democratic voter to scan his ticket carefully, to see that the names of the candidates are all right, and that they are in the

And when satisfied that your ticket is all right, be sure to vote it straight.

REMEMBER

proper place.

One vote may turn the tide to-day. It may be your vote that will do it. When a great principle is at stake, can you stay at home and feel that you have acted consistently with the duties of citizenship. Go to the polls. Vote the Democratic

ticket, and vote it straight.

TO-DAY'S RESULT.

The campaign work is done. The firing has ceased along the line, the opposing forces have thrown their artillery aside, and have rushed together in the final charge. Ballots will be falling all day like snowflakes, and when they are counted to-night the suspense will be over.

A calm and impartial view of the situation as it appeared last night leaves but little room to onestion the triumph of Democratic principles. In making this statement the GLOBE does not wish to deceive its readers by ignoring the fact that elements of uncertainty exist. which place it beyond finite knowledge to make an absolutely certain prediction as to the result. New York is conceded by impartial observers to be the one pivotal state, and nothing short of infinite knowledge could tell in advance the outcome of the complications which have arisen there by reason of a split in the city Democracy.

But looking at things as they appear on the surface, all rational deductions must lead irresistibly to the conclusion that GROVER CLEVELAND will receive a larger plurality in the Empire state than he did four years ago. The GLOBE has endeavored to divest itself of all partisan influences and to view the situation with unprejudiced vision, and its honest judgment is that the result of to-day's balloting will be the election of CLEVELAND and THURMAN by a larger electoral vote and an immensely larger popular vote than CLEVELAND and HENDRICKS received four years ago.

In giving this opinion we have not

been influenced by the desire to make the wish father to the thought. It is based upon what appears to be the logic of facts and rational deductions to be drawn therefrom. Our faith in the reelection of CLEVELAND has never wavered during the entire canvass, for it rested upon our confidence in the good sense and integrity of the American peo- it up by the thousands for the other ple. Mr. CLEVELAND's administration has been exceptionally pure, and he has shown himself to be a man possessed of courage and the strictest honesty. The very causes which compelled his renomination are the assurances of his re-election. The American people will not, nor can they afford to. ignore those sublime traits of character in a public man which GROVER CLEVELAND has exhibited. It makes but little difference what the politicians may think or say or do regarding CLEVELAND and his administration-the masses of the people applaud the man, they approve his course and will testify their determination to sustain the policy he has mapped out by giving him this day the largest popular vote ever received by a candidate

for the presidency. DON'T FORGET

That a great issue is presented to the voters to-day for determination. It is a question involving the future prosperity of the nation and the preservation of the spirit and form of constitutional government.

Those who believe that this is a government of the people, a government for the people and to be administered by the people, must see the necessity for supporting the platform upon which GROVER CLEVELAND and ALLEN G. THURMAN stand.

Consequently, it behooves every Democratic voter to be at the polls, to vote the Democratic ticket and to vote it straight.

spot them. They will have so-called Democratic tickets with the names of Republican candidates on them.

Democrats should read their tickets carefully before depositing them in the ballot boxes, so as not to be deceived by these disguised Republican heelers. Vote your ticket straight.

THE BETTING FEVER.

The principle of betting under all cirumstances is the taking advantage of the assumed weakness of another. The knowledge of one is pitted against the supposed ignorance of another. Whichever wins does so because of what his opponent lacked. How far the practice night affect an election and how unjustly it might thwart popular sentiment are questions open for discussion. In Minnesota the fever of betting, which has run higher in this campaign than ever before, may easily decide who is to be governor, and perchance contrary to the interests and wishes of a majority of the voters.

Assuming that there are 230 000 votes cast to-day, and that of these voters one in every hundred (a fair estimate) has a wager upon the issue of the election, there will go to the polls this morning 2,300 men who will vote as they have wagered. As the contest between Mr. MERRIAM and Mr. WILSON is close, it. may be within the power of these 2,300 men to decide which of the two shall win. All the betters are not Republicans. and all are not Democrats; neither have all of the Republicans laid their money retary BAYARD will, in the interval, upon MERRIAM, nor all the Democrats

theirs upon Wilson. But all will vote just as they have wagered. Thus Chance, and not the Vox Populi, may Thus

make the decision. Were it possible to ascertain how these 2,300 votes are cast, and in what proportion they will be divided between the two parties, interesting facts might be revealed as to why Minnesota elects a Democratic or Republican governor this year.

OUR NEXT GOVERNOR. What's the matter with EUGENE WILSON?

He is all right. There is no boodle statesmanship

This will be a proud day for Minnesota if he is elected governor.

THE FEAR OF DEATH. In these days of ROBERT ELSMERES, LANGHAMS and other wanderers from the orthodox path, it is somewhat comforting to find a great magazine admitting to its columns an article champion ing the theory that natural humanity does not, and by its own nature can not. fear death. Society has so long been invested with the belief that to one class death shall come as a divine balm, and to another class as a Hadean scourge, that progress from this point toward more rational views is to be hailed with joy. For more than one sensitive mind that finds orthodoxy not all-sufficing, it is uncomfortable, to say the least, to endure life in the face of the assertion of other less sensitive minds that death is to come as a punishment, and not relief; that the weary brain and storm-tossed heart are to be still further tortured, forsooth, because neither could accept what another did. It will be something gained when all men shall recognize death as a physical factor. Then Calvinism may wear a garb of brighter hue, and Toleration have a resting place upon earth.

DO YOUR BEST.

It devolves upon every Democrat to do his duty, and his whole duty, to-day. His duty will not be performed unless he goes to the polls and takes his neighbor with him.

His whole duty will not be performed unless he and his neighbor vote the Democratic ticket, and vote it straight. Let every Democrat do his best for his cause and for his country.

INDIANA.

"Indiana is all right." So says GEORGE WILLIAM HILL, who has just returned from an extended trip through that state. Mr. Hill is not a politician. He has been looking after the American department of the Paris exposition, and his work has recently taken him among the farmers of Indiana and Illinois. He says that THURMAN'S meetings in Indiana surpassed everything in the way of political enthusiasm that has ever been witnessed on this continent. Seeing what he saw and hearing what he heard during his visit among the Indiana grangers, he doesn't think it possible for HARRISON to carry that state.

FUNNY FIGURING. We sympathize with our good friend Mr. CARLE, who must be suffering from nervous exhaustion after his labored efforts to figure out a plurality for HAR-RISON in York state. The writer was with Mr. CARLE at Chicago and remembers his brilliant success there in nominating GRESHAM on paper. The same processes by which the Pioneer Press nominated Gresham, while the convention was nominating another man, are traceable in Mr. CARLE'S New York dispatches. While Mr. CARLE has been figuring out on paper a small plurality for HARRISON, the voters of the Empire state will to-day be rolling candidate.

PROHIBITION has evidently about reached the limit of restrictive ingeunity in Iowa when the state board of health notifies a physician that under the statutes he cannot fill his own preserictions with anything of alcoholic taint, out of even his private stock on hand. The only thing lacking seems to be a smelling official to go about and smell the breath of people. Before the war there was in Massachusetts a com-mission on a little different line, called the smelling committee. An ill odor attended it, and it soon went out of business. Still there are those who doubt that prohibition is an entire success in Iowa.

It seems to be really a fact that the Ohio Republicans have awakened in a scare. They have felt safe with 35,000 or more majority, and put in most of their efforts watching the canvass over the river and going to shake hands with BENJAMIN, while the Democrats have been shaking the bandana all over the state in the liveliest kind of a way. It would be the joke of the campaign if the state where the farmers are supposed to be hot over free wool should

pull out from the Republican traces. AT FORMER elections there have been October contested states that gave something of the popular drift, and often virtually determined the Novemper result. There are none now, and both parties come up to the November test with no very clear forshadowing of the issue. The drift looks strongly Democratic, but the best prophets may, mistake the sex of unhatched poultry.

THE bigoted Massachusetts Senator HOAR declared in a recent speech that when he taught his grandchildren American history he should skip from the end of C. A. ARTHUR's administration to the beginning of Benjamin Harrison's. That might be a longer skip than he or his grandchildren will live to witness.

WHILE the Republican candidate for president has spent all the campaign making speeches and shaking the hands of voters, President CLEVELAND has remained at the post of duty, attending to the affairs of the government. just as if there were no election at hand. The public debt was reduced \$4,000,000 last month.

THERE is a practical feature to the canvass of BELVA Lockwood that leaves no occasion for appeals for boodle. She charges an admission fee to her meetings, and has no torchlight processions to buy oil for.

PEOPLE OF NOTE.

The story comes from Paris of a certain baron, a man of society, unmarried, gay. He discovered one day that he was growing de-cidedly bald. The discovery worried him; but much thought on the subject resulted but much thought on the subject resulted happily. He went to a wigmaker and ordered eight wigs, each made of hair just the color of his own, and just the quality, and each dressed just as he arranged his own each dressed just as he arranged his own locks. The wigs differed only in the length of their hair. In one it was quite short; in the second it was a little longer; in the third longer still; and so on, until No. 8, which, was of quite long hair. The baron put on his short-haired wig first, and wore it a week; then he put on No. 2, and wore that a week; and so until he was wearing No. 8, when some one was pretty sure to say: "Good gracious, baron, why don't you get your hair cut?" Then the baron would put on No. 1

happy at the thought that he had successfully solved the great wig problem.

SIZED UP IN SECRET. The Sackville Incident Considered at a Cabinet Meeting. Special Cable to the Globe

London, Nov. 5.-It is undeniably fact that the cabinet to-day devoted the most of the time consumed by its meeting to discussion of the Sackville incident, despite the persistent denials of the attaches of the foreign office that the affair was not even mentioned, Previous to the meeting, it is learned. Previous to the meeting, it is learned.
Lord Salisbury conferred with prominent officials and experts in the various departments with a view of obtaining data of the most important precedents touching the case of the dismissal, and he also received dispatches by special messenger from the minister in attendance upon the queen at Balmoral with reference to the matter. Later in the afternoon there were persistent rumors in the there were persistent rumors in the neighborhood of the foreign office that the cabinet had decided to leave the Washington legation in the hands of Washington legation in the hands of a charge d'affaires for at least a year, but none of the reports could be traced to a reliable authority. It is more than likely, however, that a new minister will be appointed shortly after the reassembling of parliament. Mr. Gladstone's references to the Sackville affair in his speech at Birmingham, today, were wholly unexpected, and although they were notably colorless, his friends would have preferred that he should not have made them. His remarks will possibly be misrepresented or misinterpreted in America, and will certainly enable the Tories to complain that the ex-premier has endeavored to embarrass the government in foreign embarrass the government in foreign negotiations of the most delicate nature,

FAINT-HEARTED.

I stand where two roads part;
Lord! art Thou with me in the shadows
here?
I cannot lift my eyes to see.
Speak to me if Thou art!
I tremble, and my heart is cold with fear;
Dark is the way Thou hast appointed me. From the bright face of day
It winds far down a valley dark as death,
And shards and thorns await my shrink-

An icy mist and gray
Comes to me, chilling me with awful breath; How canst Thou say Thy yoke is light

Nay, these are pale who go
Down the gray shadows; each one, tired
and worn,
Bearing a cross that galleth him full sore;
And blood of this doth flow,
And that one's pallid brows are scarred
with thorn,
And eyes are blind with weeping evermore.

Still they press onward fast, And the shades compass them; now, far away, I see a great hill shaped like Calvary; Will they come here at last? A reflex from some far, fair perfect day Touches the high, clear faces goldenly.

Ah! yonder path is fair,
And musical with many singing birds,

Mormon Family Gin Mills Salt Lake Tribune. There is one feature about Mormon-ism in Salt Lake that might furnish food for ethnological study. Every Mor-mon saloon has a family entrance, which has more women patrons in the course of a week than any one of the ward meetings on Sunday. At times it seems as though there was a steady stream of women and girls going in these for their daily gin and revelation. Sometimes a woman hesitates about going inside, so the barkeeper kindly brings out to her whatever she may want. The amount of liquor carried off home from these re-sorts of Holiness to the Lord is astonishing, and all that Apostles Grant and Taylor can do does not seem to lessen the evil.
