There can be no doubt that the con-Bolidation of the ownership of the Min-neapolis water power in the hands of one company will be advantageous in the work of proserving and utilizing the power to its full capacity, but it will not be a pleasing fact with which to confront the new owners that an outlay of about \$1,000,000 for the purpose of preserving what has already been done at the falls is a pressing necessity. It seems that the work will have to be done, and as the Britishers have the reputation of doing well what they under the seems of the seems

ertake it is, perhaps, a good thing that he job has fallen into their hands. The proposition advocated by some that the city should assume the cost of preserving the falls is so ridiculous as to be scarcely worthy of notice. The water power generated by the falls is private property. Mayor Babb saw fit to call the attention of the city council to the matter in his first message, but that body never paid any attention to the matter.

As Hon. C. A. Pillsbury is to deliver nprovements should be charged to the Improvements should be charged to the property to be benefited, he might use the case of the water power to illustrate and give force to his argument, for, if his position with regard to public improvements is true, it serves to give force to the idea that in no case should public money be used to benefit property, the ownership of which is vested in private parties.

Speaking of the claim made by the discharged convicts that they cannot get employment when the fact is known that they have been in the penitentiary, and that when they do get work where they are unknown, but are discharged when they employers become possessed they are unknown, but are discharged when their employers become possessed of the knowledge that they are ex-convicts, a Minneapolis judge says that there is nothing in it. He says that the natural disposition of people is to help such persons, if they show by their conduct that they are worthy of it. He gave an instance of a young man whom he had known in the East who came West, got a place of responsibility, abused the confidence of his employers, robbed them of a large amount, and West, got a place of responsibility, abused the confidence of his employers, robbed them of a large amount, and went to the penitentiary. When he came out he resolved to enter upon a different course of life, went to work at anything which he found to do, and is to-day a respected commercial traveler in receipt of a large salary. He is a frequent visitor in this city, and makes no secret of the fact that he is an excentile.

A man who committed one of the most unprovoked and cold-blooded murders ever known in this state, and who was sentenced to Stillwater for life, but was pardoned after serving some fifteen years, had charge of an exhibit at the exposition two years ago. After the exposition closed he disappeared from Minneapolis, and it is not known what has become of him. Now, if Mrs. Walker is prepared to follow the party in this respect, and even go farther and say that, in her opinion, high license and a careful restriction of the liquor and a careful restriction of the liquor traffic is the shortest and safest road to prohibition, there would be a consistency in her views which nobody could justly question. But the Prohibitionists do not admit or claim anything of this kind. As a matter of fact, if they had their way and were compelled to choose between high license and free whisky, they would unhesitatingly choose the latter, because they claim that the state has no right, even by im-

There have been some unusual court scenes during the past week, and one of them was a judge overruling his own question to a witness. Judge Emery, of the municipal court, is in the habit quite frequently of acting both as judge and city attorney. The other day at the Byrnes case he was proceeding to cross question a witness with his usual severity. "I object to that question," roared the counsel for the defense, as the witness was about to answer one of the witness was about to answer one of Fmery's queries. "Objection sus-

It does not believe in pronibition as a feasible and practicable means of promoting the cause of temperance and it says so in its platforms, and in the legislative action of its members. On the other hand, the Republican party plays fast and loose with the question, having in view the object of defeating prohibition and retaining in its ranks the voters who believe that prohibition is the great issue on which political campaigns should be conducted; that the sale of intoxicating liquors is the one greatevil which menaces the weltare of the country.

Col. F. W. Parker, of Chicago, lectured at Plymouth church on Friday evening, his subject being "The Child," in which he highly eulogized that mysterious product. Among other things, he said that "the child is a born worker." It is a good bet that the lecturer is a headeler or the the Chicago low is is a backelor, or else the Chicago boy is was owned by Sawyer, and Comptroller built on a different model from that Calderwood was brought into court to

The Chicago Herald tells the follow-The Chicago Heraid tells the following good story on Manager Litt, of the Bijou opera house: "William Shafer, the immaculate day clerk at the Tremont house, appeared on the east side of State street the other day with a cheap umbrella in his hand. With those who know him this flaw in his usually perfect tout enembla created this recheap umbrella in his hand. With those who know him this flaw in his usually perfect tout ensemble created this remark: Where was the natty, silverheaded mash-room' which he always carried? Stolen! Not exactly, but taken away by 'mistake.' At least that is what Manager Jake Litt, of Milwaukee and Minneapolis claims. Manager Litt, who always puts up at the 'Tremont when in Chicago, was here last week, and, simultaneously with his departure, Mr. Shafer missed bis pet umbrella. He thought the matter over, put the two events together, and then telegraphed Manager Litt, at Milwaukee, as follows: 'Can you give me dates in Milwaukee for new play, 'The Lost Umbrella,' which is now on the road?' When this telegram reached the Pilsener City Manager Litt was in Minneapolis looking after his theater there, but when he returned to Milwaukee he answered Mr. Shafer's telegram by wire as follows: "Telegram received. New play, 'The Lost Umbrella,' just returned from successful tour of the northwest. Will play Milwaukee this week and close with me in Chicago next week. If tough weather creeps up will have several good openings for it.' And this is why the immaculate Mr. Shafer's tout ensemble was marred the other afternoon by the introduction of Shafer's tout ensemble was marred the other afternoon by the introduction of a cheap umbrella. When Manager Litt again visits Chicago Mr. Shafer will open with "The Lost Umbrella" on State street—if it rains.

IN THE POLICE COURT.

A Few of the Sensations Brought Out During the Trials.

The charge against George W. Sawyer, the well-known saloonkeeper at 48 Third street south, and who is also the proprietor of the recently-opened saloon on Nicollet avenue, of keeping a place resorted to by persons of ill-fame, which was on trial in the municipal court yesterday, furnished a sensation out of the ordinary run of events which happen daily in the municipal court. Before the case was called for trial, Assistant City Attorney Hall, who represented the state, agreed with the counsel for the defense to accpt a plea of guilty and to recommend to the court that the defendant should be heavily fined. Both the counsel for the state and the defense admitted that on a technicality the defendant might be acquitted and so represented the case to Judge Mahoney who was on the criminal bench. The court, however, would not allow the city attorney to settle the proprietor of the recently-opened saloon and bench. The court, nowever, would not allow the city attorney to settle the case and said that if a plea of guilty was entered not only a fine would be inflicted, but if the defendant was guilty of the offense charged he was not a proper person to hold a license to sell liquor. This was a ruling the attorneys had not expected and the plea of guilty was

drink, and as she was going out she met two men who made an inproper proposal to her. She refused to comply with their requests, but went back into one of the wine rooms with them to get another drink. She drank two glasses of liquor, and the next thing she knew she was locked up in the central station. She had been to Sawyer's place several times and knew that men and women went there, and she had overheard conversations in the wine rooms which was unfit for publication.

Jessie tes-tified that she lived in a sporting house and had frequently gone to Sawyer's

place with other woman. place with other woman.

"By a sporting house you mean a house of prostitution, don't you?" inquired the attorney for the defense.

"Hold on." exclaimed Mr. Lane. "I want to protect this witness. If she answers yes to that question she convicts herself of a crime. I want the court to explain her rights to her."

"I want you to say what you mean by a sporting house, and I will give you just about one minute to answer," exclaimed the court. Jessie made no reply and the judge continued: "For the reason that the witness has refused to answer a proper question put to her by

Jake Murtz says that the Veterans' Union league will adhere to the Republican party as long as the party gives the offices to the old soldiers, or words to that effect. In case the narty should go back on the soldiers and leave Jake in his warm berth in the postoffice, probably Jake would resign and cast his fortunes with the veterans, and norobably he wouldn't; most likely the latter.

Perhaps it's just as well that Minneapolis is not to have a purchasing agent. The police commission can furnish all the scandal necessary.

Col. F. W. Parker, of Chicago, lectured at Plymouth church on Friday evening, his subject being "The Child," in which he highly eulogized that mysterious product. Among other things, were common prostitutes. The court then ordered her released from custody. Fred May, the waiter employed in the wine rooms, testified that the place was owned by Sawyer, and Comptroller

show that the license was issued to Sawyer. Counsel for the defense moved for a dismissal of the case on the technicality that the license granted to Saw-yer did not include the rooms on the second floor, and the only thing he might be convicted of was selling liquor without a license. Judge Emery de-nied the motion, and read a decision of the Wisconsin surrome court covering a without a license. Judge Emery denied the motion, and read a decision of
the Wisconsin supreme court covering a
similar case, in which it was held that
the whole of the premises in which the
saloon was situated was amenable to
the law when violated, and was considered a part of the saloon. Mr. Lane
made a strong plea for time to present
a printed brief. Judge Emery
said that if he had any testimony to present he would hear it, but that the case
must be settled at once. No testimony was offered for the defense, and the court, in passing sentence, said: "If there
was ever a case brought before the court
where a license should be revoked it is
in this case. It is a disgrace to decent
saloonkeepers to allow such a man to
have a license. The court finds the defendant guilty of the offense charged,
and imposes a fine of \$100, in default of
which he will be committed to the workhouse for a period not exceeding ninety
days. It is further ordered that the house for a period not exceeding ninety days. It is further ordered that the license issued to George W. Sawyer to sell intoxicating liquor at 480 Third street be and hereby is declared forfeited, and is null and void." To allow an appeal to the supreme court a stay of executton was granted until Thursday next, but the saloon was ordered closed at once. The order was complied with.

Assistant County Attorney Briggs appeared before Judge Mahoney in the municipal court yesterday and asked that the charge against Fred May of stealing a gold watch and \$20 in money from Frankie May, the woman who is alleged to have been robbed in Sawyer's wine rooms, be dismissed. He stated that he had investigated the case and could find nothing to connect the defendant with the alleged robbery. The case was dismissed.

Mrs. Minnie Potter, the young woman who raised a disturbance at the Collins boarding house Friday night, was arraigned on a charge of disorderly conduct, and pleaded guilty.

"What was the trouble?" asked Judge

Mahoney.
"I quarreled with my husband," said "I quarteled with my husband, said the woman, as she began sobbing. "Did you shoot at him?"

"No, sir; we senfiled, and the pistol was accidentally discharged."

"Were you drunk?"
The woman looked indignant at the question, and replied:
"I do not drink, sir."

"Why did you buy the pistol?"
"I got it to scare him with. I did not mean to shoot."

It was ascertained that the revolver was loaded with blank cartridges. The court imposed a fine of \$25, which was paid by her friends.

Judge Mahoney delivered a lecture on temperance yesterday which Otto Sun-blatt will not forget for some time to come. He was arraigned on the charge of being drunk and abusing his family. His wife appeared in his behalf, and, through her intervention, he was al-lowed to go home. lowed to go home.
"Do you get drunk frequently?"
asked Judge Mahoney.
Otto said "No," but his wife insisted

that he did. "A man that gets drunk and goes home and beats his wife is worse than a man that robs a bank. A man that abuses his wife and children ought to be sent to state prison, and you will get there if you go on in your present course. Stop drinking, stop off short, and never touch it again."

Otto was crestfallen when the lecture
