Trains Are Abandoned in Every Direction in Two or Three States.

St. Paul and Other Sections of Minnesota Stirred Up by Boreas.

ST. Louis, Mo., Jan. 12 .- About 4:s0 tend to make any dealer its, making a pathway nearly a quarter of a mile wide and leaving death and desolation in its track. There was scarcely any warning of the approach of the storm, owing to the fact that the viz: Selling our remaining sky had been overcast for several hours stock of fine Tailor-Made before the full force of the wind was felt, and it was all over in an incredibly Vinter Clothing at less than brief period of time, those residing in and near the path of the cyclone scarcely realizing what had happened until it was all over in an incredibly brief period of time, those residing in and near the path of the cyclone scarcely realizing what had happened until it was all over. In addition to dozens of dwellings and stores in the southern, central and northern sections of the city, more or chase the very best class of Ready-Made Ciothing for much less than yeu have to pay tor greatly interior goo's elsewhere.

Interior goo's elsewhere.

Interior sections of the city, more or less wrecked, the following buildings were damaged: The Anchor Mills, Goodwin Candle factory, Pullman's shop, Van Brock's furniture factory, Kingsland & Ferguson, farm implement works, Missouri Pacific hospital, Hodg-den school Gorman Franculach, Hodg-den school Gorman Franculach, Hodg-den school Gorman Franculach, Hodg-den school Gorman Franculach, and of the city, more or less wrecked, the following buildings were damaged: The Anchor Mills, Goodwin Candle factory, Pullman's shop, Van Brock's furniture factory, Kingsland & Ferguson, farm implement works, Missouri Pacific hospital, Hodg-den school Gorman Franculach, Hodg-den den school, German Evangelical church, Second Presbyterian church and others yet to hear from. It was also reported that another section of the Academy of Music, which collapsed a few days since, has been leveled by the storm, but this is now denied. Three fatalities are rehave not yet been ascertained. They

> AN ENTIRE FAMILY. father, mother and child, residing on Mound street, near Tenth, and they met their deaths by the falling of a building on their dwelling. The losses on property are roughly estimated at \$100,000, but will likely prove more. The Harmony club, a Jewish organization, suffered a loss of \$3,000 on their club house on the corner of Olive and Eighteenth street. The cyclone seemed to have entered the city in full force at Twenty-third street and Chouteau avenue, passing northeast until it reached Seventeenth and Olive streets, where it swerved, taking a direct easterly course to Fourteenth, and then again turned to the northeast, leaving the city and striking the river just north of Tyler street. The only announcement of the approach and progress of the storm was a dull, sullen sky, quickly followed by a torrent of rain, which in turn was succeeded by sleet, and before the victims could realize what had happened, the storm had swept by and on, leaving wreckage and mangled humanity in its

TREES WERE TORN UP by the roots and broken off and telegraph poles swept down as though mere sticks, while the roofs of buildings were lifted from their moorings like feathers and tossed into the streets.

Mrs. Charles Miller, who resides, with streets, was sitting in a rocking chair with her babe in her arms when the and scattered the roofs, chimneys and roof was lifted from her house. She rushed to th window, and just then the wall gave way, and Mrs. Miller and her ruin prevailed. Following the sleet fabe were buried under the de- and storm of last Tuesday night the fabe were buried under the debris.. The babe miraculously escaped without a scratch, but the mother badly hurt and will not recover. Mr. Miller was in another part of the house, and was unhurt. This is but one of dozens of incidents of the terrible storm. All sorts of reports are now coming in. A telephone message from Venice, Ill., opposite the northern part astrous there, and that several lives were lost, but no details are given. It just reported that a number of passenger cars were blown from the track in the upper part of the Mill Creek valley, the western outlet of the union depot yards. Particulars will be received later. The list of victims received up to this hour, 9:30 p. m., is as follows: Dead: Mrs. Maggie Connors aged forty; Bernard McConnell, aged forty: Joe Weaver, aged nine. Tessa Weaver, aged six, both egs broken, will probably die; Mrs. Charles Miller, badly cut and bruised: serious condition, A nnie K. Connors,

messenger just arrived from the EAST SIDE OF THE RIVER says that the storm in St. Clair county. lilinois, was unusually severe, and that the cry of "Good Lord, save us," was

walls. Brooklyn, a village or about boopeople, seemed to have suffered most.

The damage at East St. Louis and at strong houses, tearing down factories and chimneys, and filling the air with a and telephone poles. Brookyn is about three miles north of East St. Louis. Its population is largely composed of colored people. At 6 p. m. it was reported in East St. Louis that were lost. A number of dwellings are in ruins. The Baptist church is enings were unroofed, but no one reported injured. A late Wabash train arrived at the Relay depot, at East St. Louis, about 8:15 p.m. The engineer and conductor report that during the storm they were afraid their train would be thrown from the track, so terrific was the force of the wind.

MRS. MILLER'S STORY.
Litchfield, Ill., is also reported as having suffered severely by the storm.
Mrs. Charles Miller, of Twentieth and Eugenia streets, who was so badly injured in to-day's storm, tells the following story of how it happened: "The entire roof of our house was blown away, the roof taken off, windows shattered and the rest of the house more or less damaged. When the storm struck the house I was sitting with my baby in my arms. I did not know what had happened at first, but jumped up and ran to the window, throwing my weight against it to keep the wind from blowing it in. In an instant the roof seemed to be lifted off above me, the window came in with a crash, the back gallery and stairs were blown away, and I had time only to see that the air was filled with parts of the wreck that seemed to be whirling around, when I was struck on the head, and fell to the floor. When I recovered consciousness the storm had passed. I was covered with blood, and I thought my baby was dead, but fortunately I was the most hurt." Dr. Nichols, who is attending Mrs. Miller, stated to-night that she is dangerously hurt. The babe is all right. Another death is just reported. Willie Marks, aged six years, whose parents reside in the northern section of the city, was in bed with a fever. The storm blew the roof off the Marks' home, and bricks came crashing into the room, resulting in the death of the

FROM SHEER FREIGHT. The cyclone was of not longer duration than five minutes time, but in that short space it left behind it a track of ruined buildings, unroofed houses, shattered walls, dismantled churches and schools, wrecked factories and mills, streets heaped with debris, telegraph poles blown down by thousands, the wire service of the city temporarily destroyed, and the usual dread accompaniment of loss of life and wide spread injury to human life that left a panic-stricken populace gathering on point designated, and gaining in inten sity as it swept in a diagonal path to wards the river. The usual sudder darkness of the skies at this point where the cyclone burst, the awful de scent of the funnel-shaped cloud and the havoe of ruin following its touching ported, but the names of the victims of terra firma, are all told in the stories of those whose terrifying for tune it was to mark the approach and passage of the hurricane. As is usual in such cases, the weather preceding the cyclone was close, muggy and oppressive, the atmosphere charged with electricity, and all the elements of a disastrous outbreak of the forces of nature being present. During the forenoon the day became DARK AND LOWERING.

the temperature being of a spring-time mildness, almost debilitating in its lan guor. Towards afternoon a heavy and increasing rain began, that was accompanied by fitful, but severe gusts of wind, suggestive of a stormy March day. About 4 o'clock the skies darkened terribly. Shortly after that hour one solitary flash of lightning illuminated the lowering scene, and a severe peal of thunder followed. It was the only thunder clap of the hreatening day, and might fitly be that followed, for hardly had the echoes died away when the cyclone burst city, and a reign of terror and desolation succeeded. When that was passed and people dared to venture out of their dismantled homes, the storm still continued in a modified form, and a severe wind prevailed throughout the evening and night with the temperature steadily falling. Swaying and threatening walls marked every corner along th track of the cyclone, and streets looked if an earthquake had rocked the city upon its treacherous bosom church spires down into the broad thoroughfares until an aspect of general

effect of to-day's cyclone on the telegraph and telephone service was dis astrous, and a network of TANGLED AND SWAYING WIRES festoons every street crossed by the swift sweep of the wind. The effect of the storm, perceptible at every foot of its progress, indicates, however, that it gained in intensity as it passed through of the city, says the storm was very dis- the city and wreaked its fullest force of fury in the northeastern portion of St. Louis as it approached river. An estimate loss caused by cyclone is rendered impossible at the present moment, but there is no boubt the total will swell into a magnitude that will cause the day to be a memorable one, while the loss of life and in that atmosphere of tragedy to the elemental outbreak that stamps that atmosphere of the cyclone on Sunday, Jan. 12, 1890, indelibly upon the public recollection. As evidence of the cy-cionic nature of the storm, the testimony of an eye witness to the scenes that marked its course will be found significant. Frank Wilkins, living at

MASS OF BRICKS

and timber. The tin roof of a residence torn off by the cyclone, was twisted into an almost compact mass, being dropped finally in the street, not covering a the little village had been swept off the face of the earth. It proves not quite so bad as that, though | ad enough, and though several were injured, no lives | west. I saw a sudden drop of west. I saw a sudden drop of clouds several blocks away in that direction, and in a moment could disdirection, and in a moment could distingly demolished and the M. E. church, a frame building, unroofed and turned clear around on its foundation. At Belleville, Ill., a host of public buildings were unroofed but the air seemed white with the debris of roofs, chimneys, mortar, brick dust and roofs, chimneys, mortar, brick dust and other materials. It struck only a corner of the house, tearing off a portion of the roof, and passed down towards the corner of Twentieth and Eugenia. Buildings were damaged and wrecked on all sides, and the entire neighborhood was panicstricken for several minutes. The cy-clone struck that quarter of the city just at 4:30 o'clock and lasted fully five min-utes, during which time the terrified shrieks of women and children re-sounded on all sides." Among the long list of damages entailed by the cyclone, the following has been reported as to the most disastrous: The Hodgsen school, on California avenue, near La-fayette; Missouri Pacific hospital, California and Eads avenues; German Lutheran church, Fourteenth and Morgan street. Second Presbyterichurch, Seventeenth street and Lucas place; Good-win's candle factory at Twentieth and Poplar, Anchor mills, at Twenty-first and Randolph; Pullman car shops, at

Twenty-first and Scott avenue; House

at 2009 Eugenia street. At Twenty-third

and Gratiot streets the entire corner of

an unoccupied brick house was cut away AS WITH AN AXE. A man named John Charles was hurled from a wagon, which was overturned and thrown across the street and against the steps of a house. Charles received severe injuries about the head. Mrs. Cahmann, a lady living at 2614 Caroline street, had her arm injured by being struck by a heavy piece of flying timber. The house was badly damaged by the wind. A residence on Papin street, just east of Jefferson avenue, had the entire roof blown away and the side wall dashed in. Mr. Breen's residence, on the north-east corner of Twenty-first and Randolph, lost it's roof and had other damages. 2,608 Rutger street, occupied by William Bernd, had the roof blown off. The George Elmans Hop and Malt company's plant at Twentysecond and Scott avenue have the elevator walls and part of the elevator roof totally destroyed. House 2222 Gratiot street is badly wrecked. Houses 2212 to 2220 Gratiot street, owned by the Walters estate, one of them occu-pied by John Walters, chimneys, fire walls and roofs blown away. Resi dence 2300 Papy street, roof taken off; entire block with the debris.

KANSAS CATCHES IT.

The Great Storm Blocks Railways in the West. KANSAS CITY, Mo., Jan. 12 .- A severe blizzard rages to-day in Kansas, Missouri and Nebraska. Dispatches from points in Kansas says that the storm is by far the worst of the season, and some points report that it is the most severe ever experienced. The storm last night, and continued throughout the day and most of to-night. Far western points Kansas report that the ceased and the weather Kansas storm cleared about 11 o'clock. The results of this storm there have been disastrous. On the average the snow fell about eight inches on the level, but the strong wind drifted it badly, and many trains on the railroads have been abandoned or greatly delayed. At Hiawatha, Kan., correspondents report that the snow has drifted in places as high as the onestory houses, completely blocking the highways and wires. At Wichita, Kan. the snow is reported at lifteen inches deep and badly drifted. All trains on the Santa Fe, Wichita & Western; Rock Island and Missouri Pacific railcalled the siginal for the dread outburst roads in the neighborhood of Wichita

> drifted throughout the city and surrounding country, and railroad traffic is entirely suspended. At Abilene, Kan., the storm raged for

THIRTY-SIX HOURS. roads are blocked with the snow. At Topeka, six inches of snow has fallen. and much interruption to railway traffic has resulted. At Garden City, in the western portion of the state, the storm was not so severe as nearer the center. The snow is only four inches deep there, and this storm did not partake of the character of a blizzard. Special dispatches from points in Missouri indicate that the storm has been less severe there than in Kansas. Snow be gan falling at about noon to-day, but not to any very great depth. It is still snowing. A dispatch from Lincoln. Neb., states that reports received there are to the effect that a storm of great severity is raging throughout the state A peculiar feature of the storm is its occurrence on the jury to limb inflicted by the storm add anniversary of the terrible blizzard two years ago, when so many people perished from the cold. Reports of the present storm indicate it is no less severe than that of which it is the anniversary. In Kansas City the storm bealing rain. Early this morning the weather turned cold, and the rain, significant. Frank Wilkins, living at 2016 Eugenia street, said: "The wind was a genuine cyclone. I have seen cyclones in Kansas, and know what came an impossibility. The telegraph, heard frequently outside of the church I am talking about. It was a telephone and electric light wires were writing.

walls. Brooklyn, a village of about 500 revolving wind storm, lasting about borne almost to the ground, and teleprople, seemed to have suffered most. five minutes, twisting off the corners of phonic and telegraphic communication phonic and telegraphic communication interrupted. Telegraphic communica tion between here and Olathe, Kan., was entirely suspended, and the wires extending to Independence, Mo., were broken down. At noon the rain turned north and the blizzard set in, and at midnight continues with some severity, although street car service has not been interrupted. There are signs of clearing within six hours.

NEBRASKA AND IOWA.

Traffic Impeded by the Rapidly Drifting Snow. OMAHA, Neb., Jan. 12 .- A heavy snow began falling this morning, and has tinued without interruption up to 1 o'clock. About eighteen inches now now covers the ground, and a high north wind is blowing. Reports from interior points in the state say that the storm is very severe, say that the storm is very severe, and that the snow is fast drifting. Railroad travel is badly impeded, and is likely that a blockade will result. The electric and horse ear lines in Omaha are at a standstill, and communication

at Council Bluffs is cut off. DES MOINES, Io., Jan. 12.-Six inches of snow has fallen here since this morning. The wind is blowing hard and the ow drifting badly and is still falling.

WIND, RAIN AND HAIL.

Two Churches and a Livery Stable

Blown Down. MEMPHIS, Tenn., Jan. 12 .- A heavy ind storm, accompanied by rain, struck Memphis at about 5 o'clock this afteron, but beyond a general prostration noon, but beyond a general prostration of wires no 'amage was done in this immediate vicinity. The Western Union is badly crippled to-night, every wire, except two to New Orleans and one to Kansas City, being down within a radius of thirty-five miles. A special to the Appeal from Sardis, Miss., sixty miles south of here, reports a heavy storm of wind, rain and hall. The Episcopal and Presbyterian churches and Balentine's livery stable were blown down. Benderson Bros.' store and the Reporter office were unroofed and several stores and residences damaged. No fatalities are reported.

ATTRIBUTED TO LIGHTNING. The Monarch Distillery, Peoria,

Burned Down. PEORIA, Ill., Jan. 12 .- Fire started this afternoon in the tower of the Mon-arch distillery, and before it was gotten under control damage to the extent of \$165,000 had been done. Seven r stills, the tower and house, engines valued at meal house, engines valued at \$115,000, grain worth \$10,000, malt kins valued at \$2,500, machinery valued at \$5,000 and 100,000 callons of untaxed high-proof spirits valued at \$15,000 were destroyed. The loss is fully covered by insurance. At the time the fire started a vitolent storm was in progress, and the origin of the fire is attributed to lightning.

ON THE ROCKS. The Steamer City of Worcester in

about a third of a mile northwest of Bartlett's Reef lightship. She struck a rock this morning during a dense fog. The captain and other officers of the boat say that they did not hear the light ship's bell, and, losing their reckoning in the thick fog, struck the rock. The steamer rests on round boulders and

lies easily. There are from five to seven feet of water in the second, third and fourth compartments. The other two watertight compartments are not injured.

After striking the rocks the steamer's fire went out and she began sounding signals of distress. Failing to receive a response, a boat's crew rowed to this port and reported the disaster to the comport and reported the disaster to the company's agent. Before the crew arrived, however, Agent Prentice had received the following from Stonington: "Steamer City of Worresser is ashore or disabled inside of Bartlett's reef," signed captain of the steamer Narraganset. This would make it appear that the City of Worcester's signals were heard by the Narraganset, but she proceeded on way to Stonington without answeron way to Stonington without answering them. Luckily there was no danger
of loss of life. The fifty or
more passengers were safely conveyed
by tugs to this city and proceeded to
their destinations. The steamer is in their destinations. The steamer is in charge of the company's agents. The cargo was lightened at 1 o'clock this morning. The extent of the damage to the vessel is not yet known. There is a marine insurance of \$40,000 on the steamer. The Territ Wrecking company of New York will undertake the work of floating the vessel in the morning. Various causes are assigned for the grounding, but perhaps the most reasonable is that causes are assigned for the grounding, but perhaps the most reasonable is that the bells could not be heard. The steamer was under half-speed when she struck. She was evidently off her course a quarter point and drifted inside the lightship with the strong flood tide. Much indignation is expressed at the Narraganset,'s apparent refusal to render assistance to the distressed vessel.

STRUCK A BROKEN RAIL. A Northern Pacific Train Derailed in Washington.

A foot of snow has fallen there, and the drifts are mountain high. The rail- 2 on the Northern Pacific railroad was wrecked near Hot Springs to-day. The wrecked train left here this morning for St. Paul, and when three of Hot Springs station struck a broken rail, and the engine and five cars were thrown from the track and overturned The five cars consisted of the baggage, express and mail cars and the two forward passenger coaches. No one was reported injured. A wrecking train was at once sent out from this city, as was also a relief train, consisting of four coaches, to bring the passengers back to Tacoma. Railway officials state that the track will be cleared and repaired in time for the east-bound train to-morrow to get through without

A Business Chance.

Anxious Mamma of Six Daughters (to eldest)-Ethel, you really must exert yourself more. Here it is the midert yourseit more. Here it is the mid-dle of your second season and you haven't have a single offer yet. You know I must bring Clara out next sea-son, and Maud the next. and there are three to come after them. Ethel—Yes, mamma, I have been con-sidering the matter, and I think the only way is for you to persuade papa to buy us a machine and let us learn type-writing.

FIFTY.

The Iowa House of Representatives Has a Bad Case of Deadlock.

Republicans Find the Independents Will Vote With the Democrats.

All the Latter Have Their Certificates Secure in Their Inside Pockets.

The Deadlock Will Postpone the Inauguration of Gov.-Elect Boies.

DES MOINES, Jan. 12.—The Republicans have had to bow to the inevitable, and to-night acknowledged what hey ought to have known before, that they cannot organize the house. They have been claiming all along that when the time came they could get one of the five Independents to vote with them. and would listen to nothing short of a complete control of the lower branch of the legislature. One by one, however, their hopes have been blasted, and to-day the last one fled when an embassador, who had been sent down to Adain county to interview Representative Mc Dermid, returned with the information that the legislator intended to act with the Democrats, and it was useles to talk to him. So it happened that the Republican members of the house, being brought face to face with the fact that the body stood fifty and fifty and a deadlock was on, held a secret caucus to determine on some plan of action. Albert Head, of Greene county, presided, and forty-five members were present. The only matter discussed was the question of organization, and the subject of can-aidates was not mentioned. It was so evidently a case of first

CATCH YOUR RABBIT that no one cared to talk about candidates when there was no certainty that those selected would be elected, and all discussion was as to the best or any method of capturing the organization. It was finally decided to appoint a steer-ing committee, and after Representative Blythe, of Cerro Gordo county, had been named as its chairman, and Shipley, of Guthrie, and Walden, of Appa-noose, as the other two members, the caucus adjourned until Monday. This steering committee was instructed to examine all the credentials of Democratic members and see if it could not discover some scheme by which one of them could be prevented from taking his seat. It was also empowered to begin a contest against Representative Roe as soon as possible, and devise and carry out any other plan by which it might be possible to deprive a Democrat of the right to vote when his ballot New London, Conn., Jan. 12.—The steamer City of Worcester, of the Norwich line, for this port, is on the rocks about a third of a nill was nost needed. A poll of the Democratic members, however, discovered the fact that each one of them had his certificate of election tightly have up in his inside pocket except Woods, of Fort Dodge, who had left it at home. He, however, immediately telegraphed for it, and will have it in his hand when

he takes his seat Monday. THE DEMOCRATIC MEMBERS also held a short chucus, at which a committee, composed of Holbrook, of lowa, as chairman, and Representatives Dayton, of Allamakee; Dent, of Plymouth: Hamilton, of Linn, and Hotehkiss, of Davis, was appointed to take charge of the work of temporary organization. Another caucus of the Democratic and Independent members of the house was held. All of the Independents now in the city-that is to say, Mc-Dermid, Ewart, Monk and Roe-wer present, and agreed to vote with the Democrats. Smith, of Boone, has not yet arrived, but he sent word that he ould be counted in with the rest. This settled the question of the Republicans obtaining the an Independent, so the lower house stands 50 and 50 and a deadlock is assured. A commistee, con sisting of Beem, of Keokuk county; Dayton, of Allamakee, and Woods, o Webster, was appointed to look after the credentials of Democratic members and also confer with the Republicans as to the question of temporary organization. Pending that conference it was decided to postpone the question of candidates for the temporary organization and the caucus adjourned until Monday morning. As the case now stands there is every prospect that the deadlock in the house may extend over some days, and possibly some weeks. The deadlock will, of course.

POSTPONE THE INAUGURATION of Gov. Boies and the election of a United States senator until it is broken, but he Democrats, while sorry to have the inauguration delayed, are only too glad to put off the election of a senator, as every day's delay now hurts the Allison chances badly. Although there has een as yet no counting of noses, it is quite apparent now that Holbrook, of lowa county, will receive the Democratic nomination for speaker of the nouse. There are several other candidates, but Holbrook is in the lead, and will in all propability capture the prize. On the Republican side Luke. Franklin county, was the leader until to-day. His pre-eminence, however, was due to the fact that he had contracted to furnish an independent vote, and when it was found that that would not be forthcoming, Wilson, of Cass county, began to loom up as a formidable rival Head, of Greene, is also making a show of strength. The strength of the Wilson movement is somewhat significant, as he is a Larralee Republican, and on anything but friendly terms with Allison, and while the Dubuque statesman does not care to openly fight him for fear of getting INTO MORE TROUBLE

than he can well shoulder, yet the vic-tory of Wilson in the caucus could hardly be regarded as the best thing in the world for Mr. Allison. The sen-atorial fight took a vacation to-day, as the question of organizing the house was uppermost in people's thoughts. The situation is about as it was yester-day. The anti-Allison yeast is workday. The anti-Allison yeast is working, and there is no telling when the thing will end it the election is delayed a couple of weeks. Were it to be held Monday Allison would undoubtedly be alonged as the apparent of the billion of the proposition to him the light of the elected, as the opposition to him, strong | The bill will probably pass.

as it is, has not yet taken any shape, but the longer it is put off the worse for the Dubuque politician. It was determined to-day that Allison will get one independent vote. McDermid, of Adair, agreed to vote for him at a time when no one supposed there would be any doubt as to the result, and feels that he ought to keep his promise. "In all other things, however, I will act and vote with the Democrats." he declared to-night when he arrived in town, and there is no question but that the Republicans made a mistake when they counted on his vote for organization. Senator Meservey is going around looking wise and saying nothing. He is openly

ANTAGONISTIC TO ALLISON, but will not say whether he will bolt the caucus or not. From present appearances it does not seem probable that the Republicans can get more than seventy-four members into their senatorial caucus. They need seventy-six votes to elect on joint ballot. Senator Allison is still keeping away and now is not expected before Monday. The reason for his delay in coming is that he is afraid of a protracted deadlock. Should he be here at such a time he could not help becoming involved in some of the many complications among candidates for minor offices that would be sure to arise, and he would be a sufferer in consequence. So he has been waiting for his lightenance to take was the many to the property of the p be sure to arise, and he would be a sufferer in consequence. So he has been waiting for his lieutenants to telegraph him that the organization of the house had been all arranged for. As they have been unable to do this Mr. Allison is still is Dubuque. Gov. Boles is also still in Waterloo. He has found that his business is not as easily closed up as he thought it could be, and has been delayed in consequence. There is, however, no reason for his presence here until Monday, when he and his daughter will arrive.

UNIVERSAL INSURANCE.

A Baltimore Company Which Will

Insure Anything. BALTIMORE, Jan. 12.—The American Casualty Insurance and Security company was incorporated yesterday with John Gill, Judge William A. Fisher, W. W. Spence, Charles D. Fisher and James A. Gary, of Maryland, and Robert Sewell and John A. Hodge, of New York, as incorporators. The capital stock is \$1,000,000. The concern is novel in the great ramification of its business, as it will insure almost everything against loss from almost everything against loss from almost every cause under the sun. It will insure all kinds of buildings, all kinds of property, including credits, profits and choses in action. It insures cattle and live stock, steamships, steam boilers and engines, electric plants, plate glass against breakage, etc. It insures against liability of employers for injury to employes. It covers losses or damage from the action of the elements, air, wind, lightning, storm, water, cold, frost, etc., gases, fire, electricity, rust, mildew, poisons, decay, insects, animals, etc.; or by accident, negligence, trespass, theft, embegzlement, breach of trust, breach of contract, etc. It guarantees the payment, performance and collection of promisory notes, contracts. James A. Gary, of Maryland, and Robthe payment, performance and collection of promissory notes, contracts, bonds, rents, accounts, etc.

GARFIELD MEMORIAL.

It Is More Like a Building Than a Monument. CLEVELAND, O., Jan. 12.—The Gar-field statue is in the New York custom house. There is a law permitting the entry free of duty of monuments and works of art for government buildings, but Sculptor Doyle wishes to establish a precedent if possible by having it admitted purely as a work of art by an opposition to the views of the American artist without regard to the designs for its use. The committee in charge of the work have decided to change the name from Garfield monument to Garfield memorial, the original name being misleading, the structure being more like a building than popu-larly conceived idea of a monument. The body will be privately moved from the vault to the crypt of the momorial before long, and the dedicatory services will be on memorial day. The statue, which is eight feet tall, besides the pedestal, will be placed in the rotunda of the memorial.

IT WAS JUSTIFIABLE.

'Big Mac' Shot Dead by a Spo kane Falls Gambler. SPOKANE FALLS. Wash., Jan. 12 .- H. McCrosser, better known as to the sporting fraternity as "Big Mac," was shot and killed by Harry Baer, one of the proprietors of one of the largest gamproprietors of one of the largest gambling houses in the Northwest yesterday. Baer was in the act of ejecting a man from his house for stealing chips, when he was assaulted by "Big Mac." After bearing up under the assault as long as possible. Baer drew a revolver and shot his assailant. The latter died fifteen minutes later. Baer is well known all over the coast as a mining operator and proprietor of a leave gar. known all over the coast as a mining operator and proprietor of a large gambling house. Before the great fire he owned the largest and finest brick block in the city. The sentiment is that the shooting was justifiable.

TWO BIG FORGERIES.

A Pair of Notes Which a Business Man Disowns.

CLEVELAND, O., Jan. 12 .- Richard Brown, the well known Youngstown iron manufacturer and member of the firm of Cleveland, Brown & Co., iron brokers of this city, has just discovered the existence of two forged notes bearing his signature. One is for \$5,000 and ing his signature. One is for \$5,000 and the other for \$30,000, the former being made payable to Flinda G. Blythe and the latter to Joseph Lamb. Both notes were sent from Toledo to a bank in this city for collection. Mr. Brown says he knows of no such persons as Blythe and Jones, and he cannot imaging where the forgeries originated or who committed them.

THE DARK RIVER.

Death of the Family Physician of Clinton and Burr. MANHATTAN, Kan., Jan. 12 .- Hon. Nehelmas Greer, ex-governor of Kansas, died at 11 o'clock this morning. He had suffered from hemorrhages of the lungs for a number of years, and his death was not unexpected. He was leeeted lieutenant governor in 1876, and when Gov. Crawford resigned he served

when Gov. Crawford resigned he served the remainder of the term.

KANSAS CITY, Mo., Jan. 12.—Rev. D. Gotwald, pastor of the Memorial Lutheran church of this city and secretary of Midland college and Lutheran synod of Kansas, died this eyening.

MILWAUKEE, Wis., Jan. 12.—Dr. W. L. Candee died to-night, aged ninetynine. He was the family physician of De Witt Clinton and Aaron Burr.

An Educational Qualification. JACKSON, Miss., Jan. 12.-Senator Williamson offered a bill in the senate yesterday to amend the charter of this city. It proposes to restrict the right to vote for mayor and other officers to those who can read and write, or who own \$500 worth of taxable property.

MONTANA SENATORS.

They Will Appear in Washington With Their Credentials This Week.

The Legality of the Legisla ture to Be Looked Into Carefully.

Bills for the Admission of Idaho and Wyoming to Be 4 Reported Favorably.

The Two Parties Preparing for the Conflict on Rules in the House.

WASHINGTON, Jan. 12 .- The most important as well as the most perceptible progress in the work of legislation in congress is still shown in the committees stage. Senator Morgan's bill for the disposal of public mineral lands in Alabama is the only measure upon the calendar of unfinished business before the senate, and it awaits the senator's return to be called up for final action. According to notice given last Thursday, Senator Plumb will address the senate to-morrow upon the resolution introduced by him last week, requesting the secretary of the treasury to postpone the re-leasing of the Alaska seal fisheries until further relief by con-gress, or until the latest period made nees essary by existing laws, and that meanwhile he make full report to the sen-ate of the manner in which the Alaska Commercial company has discharged its duties and obligations under the present lease, and also what additional legislation, if any, is necessary, in order that the interests of the government of the natives and citizens of Alaska may be more fully protected. Senator But-ler has indicated his intention to speak this week on his bill providing for the emigration of negroes from the South, at public expense, under the direction of the quartermaster general of the army. Should he address the senate on this subject. Senator Ingalls and other Republican senators will reply. The credentials of THE FOUR SENATORS

elected by the rival legislatures of Montana are expected to be laid before the senate this week. Objection will be made to seating either the Republican or Democratic contestants pending an investigation and report upon their claims by the committee on privileges and elections. In the absence of Sena-Hoar, chairman of that committee, no one is authorized to speak concerning the probable scope of the investigation that will be made. A member of the committee, however, said to-day tha the was in favor of going fully into the question of the legality of the organization of the Montana legislature. He had always held that the senate should opposition to the views of majority on that subject. Senators Platt and Teller will, it is understood make an attempt this week to have the senate take up the resolution providing for the consideration of all executive nominations in open session. The committee on territories to-morrow morning will hear representatives of Idaho Mord mons who oppose the bill to admit that territory as a state because the proposed constitution excludes Mormons from citizenship. Delegate Dubois, of, Idaho, will appear before the committee and answer the Mormons' complaints. If the committee decides that the obctions of the Mormons are not wellfounded, the bills for the admission of IDAHO AND WYOMING

will be reported favorably at once. An effort will be made this week also to hasten progress on the bill to give Oklahoma a territorial form of government. At present there are no formally constituted authorities in the country, and, owing to the fear of outbreak resulting from this condition of things, a proposed municipal election in Guthrie has been postponed until a form of government shall have been provided, und der which the results of the election can be peacefully established. The regular house committees have generally completed their organization, but none of them have so far progressed in their work as to be able to present any legislative material for the action of the house this week. The special committee on the Silcott defalcation, however, has completed its labors, and expects to present its report and a bill to the house to-morrow. Within a day or two thereafter, Chairman Adams will call for the consideration of this bill and report, and a long debate is likely to follow. The indications are that the long. expected code of new rules will be reported from the committee on rules this, week. The members of the minority are generally conversant with the changes in the old code that are in contemplation, and are preparing themselves for a vigorous attack upon the committee's report, which, they understand, to seriously curtail their to affect legislation. The parliamentarians on the Republican side are in turn fortifying themselves to meet the attack, so that, if present indications are borne out, this week will probably witness the first decisive conflict of the op-posing parties in the new house. The committee on ways and means will hold the last of the public hearings on the tariff bill Tuesday, but Chairman Me-Kinley says the committee expects to have before it in the private session from time to time, until the bill is completed, persons who are desirous of influencing the judgment of m upon the several schedules included in

Buildings Pulled Down. INDIANAPOLIS, Ind., Jan. 12.-The own of Greenwood, ten miles south of Indianapolis, was partly destroyed by indianapolis, was partly destroyed by fire yesterday. After a flouring mill, owned by Henderson & Bricker, and several buildings had been destroyed, a call for assistance was sent to this city, but in the meantime the citizens had pulled down several buildings in the path of the fire and stopped the spread of the flames. About a dozen buildings were destroyed, and it is estimated that the loss will be \$25,000.
