New School Sites and Improvements

During the past year the board came into possession of lots 12, 13, 14 and 15, Bunde's Park addition, which were donated by Albert H. Bunde and wife. The various improvements made during the past year have made it possible to meet the requirements for school room facilities for some time to come and comprise the following: the overcrowded condition of the Cleveland school and will probably meet the demands of the Arlington Hills district. The building is erected on the corner of Edgerton and Jenks street, and is of the most modern style of architecture. To provide school accommodations for the population residing in the vicinity of Lake Phaien, the W. T. Sherman stituted on the corner of Edgerton and Ivy streets, purchased last year. In the Second was fitted up. It is a two-room building strated on the corner of Edgerton and Ivy streets, purchased last year. In the Second ward ample accommodations have been provided by a four-room addition to the Sibley school building and a four-room frame building erected on the site in Bunde's Park addischool building and a four-room frame building erected on the site in Bunde's Park addition—the latter to relieve the Van Buren and S. S. Taylor school districts. In the Fifth ward the overcrowded condition has been relieved by a four-room addition to the Monroe and a four-room addition to the Monroe and a four-room addition to the Adams school buildings. In the Sixth ward similar relief has been given in the Lafayette school district by a four-room frame addition to the building. In the Seventh ward a six-room addition to the Webster and a four-room addition to the Webster and a four-room addition to the Fight ward the Eighth ward the eight-room J. T. Maxieid school building, erected on the corner of St. Anthony avenue and St. Abans street, will fully provide for the needs of this district for some time to come. The building is of modern design and first-class as to material and construction. In the erection of these various buildings and additions the rules of health have received the first consideration, and, while solidity, durability and capacity have received due care, exterior ornamentation has not been aitogether overlooked, and the new buildings are could to any in this tion has not been altogether overlooked, and the new buildings are equal to any in this

Last Chance for Hot Springs.

Saturday evening, April 11, will be the last opportunity to secure a berth in a sleeping car that runs through without change from the Twin Cities to the Hot Springs of Arkansas, and this can only be done via "The Burlington." After that date the through Hot Springs Saturday night sleeper will be discontinued, but "The Burlington" will still be the favorite and only direct route to these famous Springs, and all travelers in that direction should purchase their tickets at the offices of the line, No. 300 Nicollet avenue, Minneapolis; No. 164 East Third street, St. Paul, and Union Depots in both cities.

A CORNER ON HAY.

Prices Jump Upon Demand From the South.

Charles A. Brown and T. A. Bethune, of Omaha, are in St. Paul buying all the hay they can lay their hands on. The secret is they can lay their hands on. The secret is the shortage of last season's hay crop in Iowa, Nebraska and Missouri, and the supply has run so low in the latter state, especially, that any sort of grass folder is worth from \$15 to \$19 a ton in St. Louis. In Kansas City there is also a bay famine, and all sorts of fancy prices are being paid there. The prevailing price in St. Paul for first-class hay is \$7.50 per ton. The foreign buvers have coralled all the hay to be bought in and around the Twin Cities at the above price, and the result will probably be a big jump in prices. It is understood that about 500 tons have been contracted for by the Omaha people.

We've All Seen Him.

The man who goes in shabby, unsuccessful-looking, discouraged, and comes out stylish, prosperous-looking and energetic from the "Plymouth;" so much difference have that spring overcoats and new Derby made, not only in his appearance, but in himself.

CLERKS CELEBRATE.

The Union Grows Great and Re-

joices Accordingly. The retail clerks' union held a most gratifying social at labor headquarters last night. An interesting address was delivered by Rev W. S. Vail, who laid stress upon the point that a new era in economies is being rapidly which is that the voice of the people is the voice of God, and that it is right that the people should be educated to look to the interest of the toilers. President Morrow, of the St. Paul

union spoke of the growth of the clerks union as being very rapid and asked that people be urged to encourage the early closing movement by refraining from evening purchases or dealing at stores that do not close evenings. An interesting feature of the entertainmet was the singing of a number of songs by Miss Mary Griffith a tot of nine years, who played her own accompaniments and was encored more than a dozen times. The Twin City Mandolin and Guitar club rendered several seletions in an artistic manner and was profusely applanded. Lou Walsh declaimed satisfactorily, M. Dellifield, showed good talent on the plano for an amateur. It was nearly 11 o clock when the seats were cleared and dancing began which continued until indnight.

A LYRIC STAR Who May Arise and Claim St. Paul

There is at present residing in Milan a young St. Paulite who is destined to make his mark in operatic circles. Many persons will remember Tony Wagner, the young man who acquired local recognition by his appearance with the Andrews Opera company pearance with the Andrews Opera company some few years ago, Wagner possessed a very fine basso voice, and was determined to make a bid for undying fame as a successful lyric artist. Some months ago he went to Rome and then proceeded to Milan for the purpose of studying under the famous masters located there. Last week his relatives in St. Paul received a letter from Tony, in which he stated that he was making great progress in his vocal studies under Sgr. Castiglione, who has earned a world-wide reputation as a trainer of the vocal organs. Wagner's voice has drawn the attention of the impresario of the greatest opera house in the world, La Scala, ailan, and next season he will make his appearance upon the stage of the opera house, which has witnessed the debut of most of the great lyric stars of the day.

Business men have no time to waste. Drop into the "Plymouth," pick up "Fun and Fashion," ask your wife to read up the spring overcoats. Take elevator to second floor, tell the coat and price, try it on, pay from \$8 to \$35, and there you are.

ANOTHER BRIDGE VICTIM. Mrs. Branovska Jumps From the

Omaha Bridge.

Another suicide was credited to the big Mississippi yesterday. Mrs. Mary Branovska, of 379 Jefferson avenue, is the victim. Her lifeless body was found in the river near the Omaha railroad bridge by her brother-in-law, Frank Resheve, yesterday forenoon. She had left her home between 3 and 4 o'clock in the morning, and as soon as her absence was noticed her relatives and friends instituted search for her. Mr. Resheve looked into the river, because he had heard Mrs. Branovska declare her intention to commit suicide some time ago. She had been severely ill for about eight months, and it is thought her mind was not sound. Coroner Quinn investigated the case and deemed an inquest unnecessary.

Mrs. Branovska was forty-five years old, and leaves a husband and four small children. The remains are at the family residence, 379 Jefferson avenue. Omaha Bridge.
