fenor, Eli and Lillian Beattrice Win Good Money At Latonia.

NEW YORK. Sept. 3. - George E. smith, the well-known plunger, who is known throughout the country as "Pittsburg Phil," gave the ring at Sheepshead Bay to-day a "scoop" that will long be remembered by the book-makers, as it was the heaviest blow dealt that fraternity in many a day. "Pittsburg Phil" had his colt King Cadmus entered in the Sapphire stakes. which was the second event on the card, and was for two-year-olds, with twelve starters. In the betting Lew Weir, from the stable of Ed Corrigan, was the popular selection, while King Cadmus, who had opened at 20 to 1, receded to 30 to 1. Then it was that Mr. Smith's commissioners got in their fine work. Every one of the ninety-seven bookmakers on the line were handed sums ranging from \$25 to \$200, and so much was the colt despised that many of the "book ies" whose limit is known to be but \$50

took hundreds. So well was the money put on by the almost ubiquitous commissioners that very few people had their suspicions very tew people had their suspicions aroused, and even these smart ones thought that "Phil" was shooting at the moon, as they expressed it. Within a few jumps from the wire Taral by almost superhuman effort got the King's head in front, and accordingly got the decision. It was a close shave, and with a less superior jockey up the result would have been different. Right after the race the scene in the ring was after the race the scene in the ring was all commotion, the only person perhaps in the whole gathering to retain their senses being "Pittsburg Phil" and his gallant lieutenants. To them the race was no surprise, and they set about to collect their winnings in a manner that was exceedingly cool. It is estimated was exceedingly cool. It is estimated that Smith is from \$75,000 to \$90,000 winner by his colt's victory. He backed him in the West as well as at the track and got a good price throughout. Taral got \$1,000 fer his riding.

Stallion Record Broken.

A large crowd, the largest of the meeting, saw some of the best races ever seen in the West. Every heat was hotly contested, and the 2:15 pace was one of the best races seen this year. The starters were Guy, Telegram, Maj. Wonder and Northwest. Maj. Wonder took the first heat in 2:17. Guy, who was

pressing him close, went up in the stretch and could not recover in time. Telegram took the next heat in 2:15, Guy going off his feet again. Then Guy took the next one, closely pressed by Maj. Wonder. Northwest found the company too fast for him and was drawn. Guy aud Telegram got off together in the next heat and raced around like a team all the way. At the stretch began one of the most exciting contests ever'seen on a track. It was nose and nose all the way, and they landed under the wire on a line, a dead heat in 2:15½. The next heat looked as if it was going to be a duplicate of the last one, but by magnificent driving John Dickinson managed to put the game little gray horse under the wire a short head before Telegram in 2:18½. Gny took the next heat easily, Telegram breaking badly in the stretch.

Andrew Allison took the first two heats of the 2:26 race, then lay back a couple of heats that Bonnie Mack took, and won the deciding heat, beating Bonnie Mack out in 2:26. The 2:30 class trotting was, a walkaway for Snowden, who won in straight heats. The track

The Umpire Held Responsible for a Defeat. CLEVELAND, O., Sept. 3.—The New Yorks batted the ball hard and Cleveland about as hard, but without as much luck. An incorrect decision of the umpire lost Cleveland three runs. McKean made a beautiful hit to right field with

two on bases and no one out, which was called foul. The infield work of both teams was good. Score: CLEVE'LD |R.|B.|P.|A.|E.|N. YORK.|R.|B.|P.|A.|E. Burkett,r 1 1 1 0 0 Gore, cf. . Bobleter, the organizer of the Capital Bowling club, was not present last night, but, as a penalty for his dereliction, he sent the members a dozen prairie chickens from down in the southwestern part of the state. Neither southwestern part of the state. Neither was Sam Iverson nor Matt Jenson in their accustomed places, and the few that did attend the sport last night felt lonely and dispirited. Their playing was far below the average. For illustration, Philip Heck captured the badge with the score of only 208 points, and the "booby" badge fell to one of the strongest players in the club. PRISON SENTENCES.

The South and West Severe on Criminals.

WASHINGTON, Sept. 3.-The census office has issued a bulletin which furnishes statistics as to sentences imposed by the courts upon prisoners in penitentiaries, Of 45,233 prisoners in penitentiaries, 53 were not sentenced. penitentiaries, 53 were not sentenced, 2,488 were serving sentences of less than one year, 39,757 had been sentenced to imprisonment for a definite term of years, 2,638 for life, 12 during their minority, and 62 were under sentence of death awaiting execution. A tendency to greater severity of sentence is apparent in the South and West.

The average sentence of a native white convict of native parents is five years and 208 days; of a foreign born convict five years and 198 days; and of a colored convict six years and 188 days.

convict five years and 198 days; and of a colored convict six years and 188 days. The average sentence of a male convict is five years and 285 days, and of a fe-male convict four years and 215 days. The differences between the average sentences in different states, the bulle-tin says, are a surprise. They range from two years and 355 days in Rhode Island to twelve years and 116 days in Mississippi, and seem to be governed by no discoverable law.

ON THE CONDELLA. Balmaceda Said to Be Heading for San Francisco.

CITY OF MEXICO, Sept. 3.- The Anglo-American says a prominent gentleman of this city, who is well known in the Anglo-American colony, has received the following dispatch in cipher: Valparaiso, Sept. 1.—President Balmaceda is aboard the Condella and expects to disembark in San Francisco. However, if he be pushed by the insurgent war ships, he may land in Mexico. If he does, extend all possible courtestes Here is the first definite news regard-

ing the whereabouts of Balmaceda. The imperial torpedo boat and the Condell have sailed north, and are to be pursued have sailed north, and are to be pursued by the cruisers of the Congressional army. Whatever port the fleeing president may make he will be protected. No warship will attempt his capture within a marine league of Mexico or the United States. Until a new government is formed, Balmaceda is the recognized head of Chill. If Balmaceda lands in Mexico, he will receive the hospitality that the constitution grants to all refugees. The timely arrival of the members of the Chilian legation here, if the president lands, insures more hospitality. The race of the Condell and Imperial against the first cruisers in the hands of the Congressionalists will be the theme that will unquestionably attract public atwill unquestionably attract public atention for the next two weeks.

TWO MORE TRIBUTARIES. The Glazier Expedition Claims te Be Making Discoveries. To the Editor of the Globe.

CAMP TROST, on shore of Glazier lake, Aug. 31, 1891.—The Glazier expedition left Park Rapids early on the morning of the 22d inst. Guides and boats had been secured at that place and supplies of all kinds. All the camp equippage and personal baggage were loaded on three wagons previous to the hour of starting. Our trail led over the shell prairies on to something we knew not what. We very soon found out that we had entered on a journey over a road that pen would almost fall to describe. The route lies mostly through a wooded country, dark 

tents standing like white specter's against the green trees. At morn on the 24th a view was taken by Mr. Fro stand camp struck and removed to our present camping place. Our party has traced the so-called Nicollet's stream, has visited the lakes en route to what is called the Natural Bridge, and from there has visited the lakes on the way to what has lately been named De Soto lake. The gentlemen of the party have also visited all the feeders of Glazier's lake and traced them to their sources.

lake. The gentlemen of the party have also visited all the feeders of Glazier's lake and traced them to their sources. During their investigations an additional tributary, and I might as well say two, have been found. A beautiful cascade has been found on the cast side of the lake, which has its source in a small spring highly impregnated with iron. The velocity of the Nicollet stream, as well as its width and depth at various points, has been noticed by practical surveyors. The same has also been done with the stream entering Itasca from the lake of Glazier.

E. M. Horton, Esq., of Park Rapids, clerk of courts of Hubbard county, Minnesota, with Oliver Keay, deputy surveyor of the same county, have had charge of the measurements. I would also like to say at this point that the public may rest assurred that whatever our party find as facts will be given to the world pure and unadulterated.

The members of the expedition each feel they have some reputation of their own to sustain, and their conclusions will be founded on what appears to them to be the truth.

Our camp abounds with pike and pickerel in the fish line and partridges, grouse, spruce hens and ducks of all kinds keep up the reputation of our boys as hunters. Mr. Harrison, of Davenport, Io., has got in one shot at a bear and is watching for him yet. Two pickerel were brought into camp on Friday by Messrs. Frost and Giles, which weighed together twenty-five pounds. The largest, caught by the latter gentleman, weighed about thirteen pounds and was over three feet in length. Mr. Giles is seventy-five years

THE LOTTERY SINCHED.

Inspector Maynard Explains the Situation. WASHINGTON, Sept. 3 .- John S. Maynard, the postoffice inspector in charge of the New Orleans district, has re-turned to Washington from New Orleans, where he has completed the work in some twenty-five cases against the president of the Louisiana Lottery company for violation of the law which company for violation of the law which prohibits the sending of lottery matter through the mails. Mr. Maynard says the chain of evidence in these cases is complete, and that the lottery company will hardly dispute the facts. He thinks the power of the company is broken, and says the business is reduced to such a point that, although it advertises a prize of \$300,000, yet it does not now sell more than the half of any ticket, so that it is unpossible for the prize to be
