Lilies are the emblems of peace and good will. They were conspicuous at mocracy at Market hall yesterday morning. The well-known features of Grover Cleveland looked out of a frame on the

platform from a small jungle of nodding Easter lilies, palms and potted plants. There were also many flags and a large and well-selected assortment of various brands of harmony scattered about the hall. But those Easter lilies, waved and nodded above a very lively and amusing forensic contest in the opening hours of the convention. And all of this will ap-

But the row came early. Chairman Campbell and Secretary Smalley performed their ministerial functions and got the temporary organization under way. But in presenting to the body the name of Editor Haven for temporary chairman Mr. Campbell forgot to put the motion to the house. There would have been an unanimous vote in favor of Mr. Haven, but the oversight afforded the opportunity to register the kick which came subsequently. The rumpus came when the appointing of the regi lar committees was the order of busi-

tion was offered providing for the ap-pointment by the chair of the three committees. This had been planned and the members duly selected in advance, as every one knew. But Chris O'Brien was the Ate who threw in the apple of discord. He wanted each district, instead of the chair, to name the committees. W. M. Campbell rather hurt than helped his side of the argument by sayng the committee had already picked which statement gave a handle for the opposition to inaugurate rattling war-fare. Senator Craven, Mayor Durant and others came to the support of the

Finally the astute Ed Stevens, of Hennepin, came to the rescue with a substitute, which provided for the naming of the credentials committee by the chair and other committees as worth. the chair and other committees as sug-gested by the O'Brien plan. Mr. Camp-bell voted no with very great emphasis, but the Stevens oil was poured over the whole convention. Chairman Haven pulled the list from his pocket, read the credentials committee, and the convention took a recess until 2:30 o'clock.

The Whole Trouble grew out of a very simple matter. Some of the delegates got the idea the state central committee wanted to dictate too

much, and an early quietus was put upon it. There was also a little too much talk of a slate, and the independents went early on record as opposing all machine business.

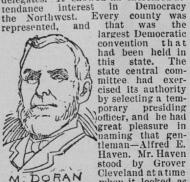

it was at least an hour after the appointed time before the convention was rapped to order. The committee on credentials had meanwhile had a long session, listening to the proxy question, and finally submitted a report, showing every county represented. Assistant Secretary Donnelly had an amusing turn reading the list, his strong Scandinavian accent giving an unfamiliar sound to many a familiar name. The list was agreed to, and the convention then laboriously reported the names of other committees. The proceedings were here slow to monotony, and in striking contrast to the hot scenes of the early session, nor was there any excitement when the temporary organization was made permanent. There was applause, however, when Mr. Campbell explained that he had inadvertently omultted, in first presenting Mr. Haven's name, to put it to a vote of the convention, and he only now recalled it when the body had ratified the choice. The venerable Mart Wilkinson here got the auricle of the hall, and introduced a resolution declaring for Cleveland first, last and all the time. Mr. Camphell, called, for three cheers for Campbell called for three cheers for Campbell called for three cheers for Grover, and they were given and the resolutions adopted by a rising vote. William Rodger, of Ramsey, wanted to add something more binding, but Mr. Campbell said "that was all right," and Rodger sat down.

Down to Business. Now came the business of the convenrion. Dan Lawler opened the way by proposing to proceed to the election of four delegates at large to the Chicago convention and four alternates. Mayor Winston made his maiden speech in a state convention. It was not long and not create but it pominated Hon. not ornate, but it nominated Hon. Michael Doran as one of the delegates. C. D. O'Brien made a graceful second, and by a rising vote the election was made unanimous. Mr. Doran was escorted to the stage by Messrs. Winston and O'Brien, and made a short address. He ended by nominating Mayor Winston. Some one wanted to at once make the election by acclamation, but this would have cut off the flood of oratory. ot ornate, but it nominated Hor would have cut off the flood of oratory,

chance to make his little speech, which he gracefully did. Then Winston was elected and compelled to make a speech, the best of his life, of course, for he is becoming a rattling good talker. W. M. Campbell then nominated Lewis Baker for delegate-at-large and seconds were made by D. W. Lawler and by C. P. Maginnis, of Duluth. The election was made by a rising vote, but Mr. Baker was not present to respond. Joseph Leicht, of Winona, presented Judge Wilson's name, and D. B. Johnson, of Hennepin, made an eloquent sec-ond. Judge Wilson was, of course, elected by acclamation. A Carlton county delegate wanted a committee to bring Messrs. Baker and Winston before the convention, but it was explained that the former was indisposed and the latter absent in Washington. Everything went smoothly along until it came to the ratification of the delegates and alternates chosen or the delegates and alternates chosen by the Third district. It was then developed that a serious split had occurred in this district and the two factions were in hot warfare. Mr. Keeley, of Rice, presented one set of names and Senator Craven, of Carver, had another. Mr. Doran spoke for the former, and several impassioned speeches were several impassioned speeches were made on both sides. A roll of the coun-ties of that district was ordered, and by a vote of 36 to 34, the first report was adopted. Harmony was again restored and the remaining district choices were ratified. There was a wait for the com mittee on resolutions, relieved by a rattling speech by Dan Lawler. Then the platform was read in the dulcet tones of P. J. Smalley and the conventions of P. J. Smalley and T. Smalley

tion was over. CAMPBELL STARTS THE BALL.

Greatest Democratic Convention The delegates were nearly all present by 12 o'clock, the hour fixed in the call for the convention, but it was not until nearly 12:30 that the great gathering was called to order by W. M. Campbell, chairman of the state central committee. The call was read by Secretary Smalley, and Chairman Campbell proceeded to congratulate the Democracy of the state on the representative attendance of delegates. It showed an increased attendance of the state of t

when it looked as if the politicians and manipulators of the country-the men who were in poli ties for power and spoils—were going to shelve the ex-president. He called upon Mr. Haven to take the chair. Mr. Haven was cordially greeted. He and others came to the support of the position of O'Brien, and demanded that the convention have some voice in distood by Campbell, and there was a very neat and ornate debate in fiery of their opinions. They must not forvery neat and ornate debate in fiery of their opinions. They must not for-language and worse grammar, which get to speak in behalf of an honest dol-

TEMPEST IN A TEAPOT.

Lively Discussion Created Over the Selection of Committees. E. C. Stringer (Ramsey) moved that the chairman appoint committees on credentials, resolutions and permanent organization. The committees were to consist of one member at large and two from each congressional district.

C. D. O'Brien (Ramsey) was opposed to this. He wanted the roll of counties called, and each county to select a member of each committee.

W. M. Campbell stoutly objected to the amendment. It was usual for the temporary chairman to select these committees, and prior to the convention he had assisted Mr. Haven to prepare a list of delegates who were fitted to conlist of delegates who were fitted to constitute the committees. Every district would be properly represented. Mr. Campbell questioned if the delegations

would be prepared, on the call of counties, to present representative names.

Mr. O'Brien explained the reason for his motion was to have the committees thoroughly representative. That was a Democratic convention, and he supposed the delegates had the capacity of thinking. [Applause]. If there was a delegation present unable to instantaneously select a member for any committee that delegation ought to withdraw. [Applause]. Let them have a free expression of the Democracy of Minnesota.

A Free Expression. Mr. Campbell disliked to disagree with Mr. O'Brien, but he maintained that they would have just as free an expression of Democratic opinion if the selection of committees was left to the chairman. The delegations were liable to take some man and pat him on the pack for benefits to be secured at some back for benefits to be secured at some Could not the convention trust the chairman to give them a fair

E. Durant (Washington) asked the new historical question: "What are we here for?" and gave the reply: "To serve the best interests of the Democratic party." Mr. O'Brien's motion was the correct one.

Senator Craven—My position is this: The delegates here have traveled hundreds of children cardiolectic in this convention. We delegates here have traveled hundreds of miles to participate in this convention. We do not want the state central committee to do the work before us. We are capable of doing all that there is to do, and for that reason I am heartily in favor of the motion made by Mr. O'Brien. I also hope the amendment will prevail, and that we shall have a voice in this convention. [Loud applanse.]

There were repeated cries of "Question," but this did not deter a score of delegates from taking the floor.

E. A. Stevens (Hennephn) threw oil on the troubled waters. He moved, as a substitute motion, that the chairman at once appoint a committee on credentials, and while they were out the other committees be selected by the delegations, as proposed by Mr. O'Brien.

Mr. O'Brien accepted the substitute.

Mr. Keeley maintained that his deleand truly represented the people of the Third district.

Senator Craven denied this. He claimed that his nominees were indorsed

They were Democrats, Republicans, Independents and Prohibitionists. Some are quite prominent in their party. While differing on other questions, they were a unit against submitting the prohibition clause in the state constitution, and agreed to do anything possible to check any sentiment favoring resubmission. Plans were outlined looking to a more rigid enforcement of the prohibition law. None favored fusing in the coming campaign, but preferred to leave the question with each party for action at the convention, if deemed advisable. He Will Stand for Delegate on the Tariff Issue. Mass., March 31 .-- Ex-Go didate for delegate at large before the Republican convention. He says: "I understand that my name was considered by the central state committee, but was rejected because, in the opinion of the committee I was not sound on the tariff question. As that statement has gone forth I am willing to go before the state convention as a candidate that I may ascertain how large a prothat I may ascertain how large a proportion of the delegates agree with me in my views on the tariff. Many prominent Republicans have assured ne that they agree with me, and many of those who left the Republican party on the tariff issue have said to me that if the party should inderse my stand on if the party should indorse my stand on the question they would be pleased to leave their Democratic associates and return to the Republican party. I do not believe in making the party any smaller than it is. It a man is to be read out of the party because he does not believe in every line of the McKinley bill; because he believes in free iron ore and ample duties on pig iron, and is opposed to prohibitive duties, then the Republican party will be small enough."

There is plenty of disaffection, and if there were any candidate on whom the opposition could unite Mr. Harrison wouldn't find it plain sailing at Minneapolis. Such men as Tom Platt, Ex-Senator Farwell, Senator Wolcott and Sen-ator Washburn, who don't like Harrison and don't want him to get the nomination, have not united upon and gone to work for any

united upon and gone to work for any opposition candidate, but I think there may be some friction at the convention, just the same. There will be a good mony uninstructed delegates, and they may not fall into the Harrison column so easily. The whole trouble with Harrison is in his cold manners. Now, when Chester A. Arthur was president he could kick a man out of the White house and across Lafayette park and then give him a bottle of arnica to cure him and make it all right; but Harrison is different. If Cleveland is nominated he will get a big Republican vote. Harrison will have the fight of his life on his hands. Our stock in trade before Cleveland was elected was that if a Democrat were elected president rebels would be pensioned and the country turned over to the Seath but Carrison end. sioned and the country turned over to the South, but Grover Cleveland made a good president, the rebels were not pensioned and no revolution occurred, and that is why Cleveland will get a great many Republican votes if nom-inated, but owing to the lack of unity islature provided for an additional judge in this district to be appointed by the
