He called some to be apostles, others disciples, and so on, but they were all men—nary a woman among them. I must say that most women think themselves born reformers. Whether this delusion is the outcome of too vivid an imagination, or of pure good-heartedness, I am unable to say. Suppose we give them the benefit of the doubt.

But, none the less, they are with us. A woman should remember that her husband, although a man, is decidedly human. She mustn't, in her leisure moments (after the honeymoon, of course), dissect her husband's character bit by bit, till the conclusion is reached—he is naughty: well, rather. So she plans and schemes for his possible reformation, and the first false step is taken out of the "line" by the woman. That is not keeping the man in line. This is one line in the law of our Father, God. How do we keep it? Simply in this way: We depend on God for nothing, when we should know and understand that He is a present help in all times of trouble: do we trust Him entirely at these times? I think not. We run to man for help, and only turn to God when all man-made means tail, and you get out of line simply by soling in that line. You say "Not so, I keep that

# One of the largest and most enjoyable entertainments ever given on the brief took place on Saturday evening at the Aleayde hall on East Seventh street. The Humor Bowling club gave a reception to its many friends in order to celebrate the tenth anniversary of its organization. The fore part of the evening was taken up in the rendering of an excellent musical and literary programme, after which a very dainty lunch was served on the first floor by the ladies. The decorations, consisting of flowers and potted plants, were greatly admired by all. The remainder of the evening was spent in danching. Those present were Mr. and Mrs. William Von Deyn. Mr. and Mrs. Trubshaw. Mr. and Mrs. J. Seeger, Mr. and Mrs. Roeers and Mrs. Holl, Mr. and Mrs. Goldsmith. Mr. and Mrs. Glausen, Mr. and Mrs. Goldsmith. I think we canno: do better than quote from Solomou, the wisest of men: 'Her husband is known in the gates, when he sitteth among the elders of the land. Strength and honor are her clothing, and she shall rejoice in time to come. She openeth her mouth with wisdom, and in her tongue is the law of kindness. She looketh well to the ways of her household, and eateth not the bread of idleness. Favor is deceitful, and beauty is vain; but a woman that teareth the Lord, she shall be praised.'"

terests and to uphold his honor.

In the married relation husband and wife become as one. Separate interests and separate paths in life are no longer possible. Things which were lawful before become unlawful now. It should be a union of mind, and heart and hand, one and indivisible. The first thing to be considered then, is how to mould one's self to suit a husband's surmould one's self to suit a husband's sur-

roundings.
. After the exuberance of the honeymoon has passed, most married couples feel the reaction very keenly. There is a change in their relative attitudes, the husband demands more, the wife re-ceives less. This is an inevitable con-

ceives less. This is an inevitable condition when we consider the stress of business, and, as the years pass, the probable increase in family.

But it is not wise in a young wife to allow her husband to grow inattentive.

A young wife said to me not long since:
"I let my husband see that I expect certain small courtesies from him. I do not allow him to give them up." Would that all wives were as exacting. So much depends upon the little things of life.

life.

Men marry for companionship as well as for the comfort of a home. One should aim to be an agreeable and intelligent companion. Keep abreast of the times, take an interest in his fads. Avoid exposing his faults in public. Above all else, study your husband's disposition! Men differ widely in this respect; one man is quick-tempered, a second morose, a third vindicative, etc. Men like a little judicious flattery. Few are above the stimulus of praise. It is far easier to persuade than to insist upon any desired course of action. A man likes to appear the head of his own man likes to appear the head of his own household, and a sensible woman will not dispute this position, even if it is only nominal.

Of course I do not omit good house Of course I do not omit good house-keeping, a comfortable home, and well serva I meals, and attention to all the accessories of a man's wardrobe. Try andedve within his income. Respect your husband if it be possible. Give his friends a welcome to your board. Do not act in opposition to his expressed wish, unless it involves a moral wrong. He not work how with acceptance for the possible work works have with acceptance for the possible work. wish, unless it involves a moral wrong. Do not worry him with continual fretting. Go to him in any great trouble; keep the little worries to yourself. Be cheerful and brave and patient, and you will be repaid for this self-control.

The man is the bread-winner of the family, and meets with daily worries in his avocations—be it that or physician

his avocations—be it that of physician, lawyer, preacher, merchant, farmer or mechanic—which a sensible wife should take into account. Remember there are exceptions to every rule, and you may have a husband whom none of these maxims fit. Rely upon common sense; do not be dismayed after one or two. perhaps 1 should add, repeated failures to keep him in line.

THE GOLDEN RULE.

Keep to the Line You Want the Man to Follow.

"How to keep a man in line," depends very much upon the disposition of the man with whom you have to deal. There are men (and women too) to keep whom near the line would be an utter impossibility; but let me meekly suggest that every woman see to it that she herself is squarely on the line at all times and strictly observe the "golden rule" toward the man she calls-husband, and the average man will keep himself "in line." An exceedingly entertaining programme was rendered at the Concordia society s con-

Prof. Lund's zither solos, as on all preceding occasions, brought forth a most determined encore. Miss Augusta Ohrstrom's rendition of Schubert's "Angel's Serenade" was highly appreciated, and the encore accorded was very flattering. Prof. Troutvetter's violin solo and Prof. Tonning's piano numbers were very finely rendered. The choruses by the Concordia society were of unusual interest.
