> than making the subject howl with increased pain whenever a specially vigorous nostrum was introduced. There was nothing to do but go to the dentist's, and, after screwing up his courage a notch or two, Mason went. The dentist decided at once that his visitor was suffering from periostitis of the most acute nature, and that all the teeth were likely to be involved. He therefore concluded to extract one of the largest and most affected molars, and to mitigate the pain gave Mason a liberal supply of gas. Its effect was peculiar. Mason did not become unconscious, but, on the other hand, he suffered no pain. He became highly exhilarated, and waxed poetic, and talked of sentimental things with great abandon. In short, he gave every appearance of undergoing highly sensitive

> intoxication, with the customary reac-tion into a sodden and despondent con-The next day Mason again complained of the pains in his teeth, and this time he went to the operating chair with less reluctance. The gas was administered with the same result as before. His visits to the dentist now became regular in spite of the vigorous protests of Mrs. Mason. The dentist held that Mason knew his own business, and had an undoubted right to part with every grinder in his head if he chose. It soon actually did come about that there was nothing more left to pull, and the dentist made a set of false teeth for his customer and thought he had seen the last of him. But pretty soon Mason discovered that he had something the matter with his upper jaw. He demanded gas, and got it. But the manipulator of teeth was satisfied that the jaw trouble was

> imaginary, if not leighed, and when Mason next appeared and asked for the subtle oxide it was refused. Mason now began to go about to the other dentists in the city, asking, even begging for gas. In some cases he was successful, but in general, as he could offer no valid reason for wanting it, he garded as crazy, and members of the dental profession discussed his case with interest at their monthly meetings. His fame spread beyond the limits of quiet Everett, for in his quest for his intoxicant he would go about to various dentists in the adjacent towns, all of whom finally came to know him as the "gas drunkard," and naturally declined to furnish debauches for him even at

Being deprived of what had now beappetite, a great physical need, Mason's life became a miserable one. Mrs. Mason says that her best-cooked meals aroused no interest in her nusband, and the hitherto favorite dishes she now prepared for him remained untouched i in the table. His sleep was broken, little tree, and and Mrs. Mason was often waked by his mutterings and exceeding restless

The poor wife tried all sorts of advertised cures for drunkenness, and her husband's coffee was persistently tinctured with alleged secret remedies, which, of course, had no effect whatever. Meanwhile Mason was growing emaciated in face and despondent in nind, when an event of great importance took place. One of Everett's dentists had de-

parted this life, and his widow decided to sell his entire professional outfit at auction. Mason attended the sale. Finely upholstered chairs, cuspidors, forceps, drills, gold leaf, rubber moulds and all the other gruesome paraphernalia went off without arousing any special interest in him. But when Auctioneer Chase drew back a curtain and exposed to view a big retort with its numerous tubes and

stopcocks, and asked for bids upon the same, there was a change. In a voice trembling with excitement, Mason bid \$10 for the apparatus, and raised his figures every time anybody else made a oid. At \$35 the gas machine became the property of the eager Cornelius, and he had it carted to his house and set up in an unfinished room in the attic.

Mrs. Mason says that her unhappiest of my life.

great regularity. He gave very little of his society to his wife, and when he did utterly neglectful of the management

go so far as to lock the gas room with an immense padlock and throw the key where he could never find it again. But as soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the soon as the old longing came the park is the park upon him with its irresistible force, he would smash the lock with furious blows and enter once more his paradise of ethereal intoxication, there to remain for another long period of debauchery. Mrs. Mason wearied of consulting doctors some time ago. The medical gentlemen had plenty of theories as to Cornelius' strange appetite, but as the oxide drunkard positively refused to see any physician, their visits became a needless expense. One young and enhis facts from personal observation, was met at the door by a stream of hot

water that discouraged any further attempts in that direction. The disgusted wife recently came to the conclusion that a legal separation was about the only remedy left open to her, and accordingly she hired Lawyer J. H. Ackerman to present her petition for divorce on the ground already stated. It is understood that Mason that spirituous liquors have nothing at thing resolves itself into the question whether the judge will grant the wo-man's plea for such cause.

for divorce in Massachusetts, and a great deal of expert medical testimony will be brought forward to try to determine just what this means. An important precedent will be set, and the interest already taken in the suit bids fair to be increased when it comes to
