MINNEAPOLIS MARKETS.

Wheat Goes to a Higher Point Than in the Chicago Pit.

Than in the Chicago Pit.

Drouth, bugs, frost, light supplies in hand, big demand for milling purposes and a continuance of the bullish sentiment; foreign excitement improved export demand; a good buying of futures at New York by Liverpool houses gave bulls a new hold-yesterday. After an excited close at 78c for July Tuesday, it was not long before the curb was quoted at 79%c. In the morning the market opened at 80c, but traders were careful. Chicago opened at 80% 8lc for the same option, excited, and sales made at 80%c. This gave the local traders more confidence, but it was some minutes before this market could be brought to a point above Chicago. The advance to 82%c was gradual, fluctuations being wide and each gain stoutly contested. There was a good deal of realizing at every advance, but the buying side held prices up so well that selling each time was checked, and sellers became holders.

There was a good demand for spot wheat at 320c over July. Receipts were 134 cars, with 36 shipped, and most of these went on sales to arrive, leaving only a few cars of spot to offer. There is a good call for No. 1 northern to arrive at spot price and a good deal offered. Sales were made on the curb Wednesday at 80c, but yesterday prices ranged from 80% to 82%c. Sales of cash wheat are on the basis of delivered unless specified. Cash sales yesterday by sample and otherwise included the following. Wheat to go out brings 3c premium because that amount is saved in switching: One car No. 1 hard, 81%c; 1 cars No. 1 northern, to arrive, 81%c; 26 cars No. 1 northern, to arrive, 81%c; 10 cars No. 1 northern, to arrive, 81%c; 1 cars No. 1 northern, so arrive, so arrive so arrive so arrive so arrive so arrive so arr Oats—The market is steady; No. 3 white is quoted at 31½c; No. 3, 30%

CHICAGO LIVE STOCK

Cattle Siow, Hogs Lower-Sheep in Good Demand.

Cattle Siow, Hogs Lower—Sheep in Good Demand.

CHICAGO, May 23.—Nearly as many cattle are now being received at this and other Western markets as a year ago, the arrivals here today being estimated at 11,500. Trade was again slow, prices ruling steady at the decline of yesterday. Once in a while a few carloads of fancy cattle are sold at high prices, such as those yesterday sold at \$606.05, but the call for such is exceedingly limited. The \$5.05 cattle averaged 1,470 lbs, and the \$6.05 cattle averaged 1,470 lbs, and the \$6.05 cattle averaging 1,850 lbs. Sales of dressed beef and shipping steers today were on a basis of \$4.2505.80 for common to choice lots weighing \$50 to 1,550 pounds, the bulk being at \$4.900 5.60. The stocker and feeder trade is just fair, choice feeders selling around \$4.5004.55. There is a good demand for butchers' and canners' stuff at current prices, or at \$1.7504.75 for cows; \$2.5005 for heifers and \$2.2504.25 for bulls. Calves are still arriving in large numbers and sell actively at \$300 5. About 1,500 Texas cattle were received today, and trade was fairly active at unchanged prices. Today's hogs arrivals were greatly in excess of expectations, amounting to 42,000 head, and enough was left over from yesterday to supply \$4,000. Of course, such a large number meant a lower market, and buyers managed to force a further break of 5c per 100 lbs, the best lots fetching \$4.75. The average quality of hogs was very superior, and while heavy hogs sold at an extreme range of \$4.3504.75, a large share went at \$4.4004.70. Light and mixed sold at \$4.3504.65. largely at \$4.5504.60. At the decline buyers took hold freely, and the bulk of the supply was taken before the close. With receipts of sheep about 12,000 and a lively local demand, prices had another rise in fancy flocks, some very fine heavy shorn wethers fetching \$6. From that price down to \$3 for common sheep, trade was active, the supply being all sold without any trouble. Texas sheep were plentier, and most of them were consigned to Swift. Sh

Iron Trade Promises Well. NEW YORK, May 23.—The Iron Age today says: The improvement has now spread to practically every section of the country and to every department, with very few exceptions. The consumption is growing, and the demand is certainly very much better, buyers having eigen up resistance. Unless having given up resistance. Unless some fatality throws back the iron trade, the balance of this year prom-ises to be quite good.
