### MINNEAPOLIS GLOBULES.

This is the last night of the Midway Plaisance. William Gremer has begun suit against M. J. Linehan for \$5,000 damages, alleging that Linehan abducted his daughter upon the pretense of be-

A man named George Ferguson, of St. Paul, fell in a fit yesterday morn-ing on the corner of Nicollet avenue and Ninth street. He was removed to the city hospital, where it was as-certained that his illness was due to the heat

The entire Milwaukee council and other officials, accompanied by their wives, will arrive in Minneapolls next Friday, the 14th. The Milwaukee gentlemen are on a tour of the Northwest and will spend three days in the

Twin Cities.

The "Order of the World" will convene in this city today at 9:30 o'clock in Washington hall. Delegates will be in attendance from Indiana, Missouri, Nebraska, Kansas and Minnesota. The order has three lodges in this city and ten in St. Paul. Prof. Frank Lewis and A. F. Kasten

house was imposed.

A man giving the name of Edward McDonald was picked up in a badly bruised condition near the Gypsy camp beneath the Franklin avenue bridge yesterday morning. McDonald was too badly hurt to tell a coherent story, but from what he did say it appears that he went to the camp to make a horse trade and became involved in an altercation with two of the men. The case will be investigated by the police.

It looks now as though the present engagement of the Wilbur Opera com-pany at the Grand would be the most pany at the Grand would be the most successful they have ever played in Minneapolis. "Fra Diavolo" was given last night in a highly satisfactory manner and the exhibition of "living pictures," which followed the performance, was applauded to the echo. The most prudish cannot file an objection to the pictures, as they were designed to appeal to the artistic taste and are absolutely untarnished by the suggestiveness connected with some length. The only exciting feature was the contest for the Gale prize, which is and are absolutely untarnished by the suggestiveness connected with some exhibitions of the kind that have been made in the East. Next week, which will mark the end of the Wilbur engagement, will be distinguished by an entire change of repertoire and a new set of pictures. At the 25-cent matinee today and tonight the Wilburs will present "Merry War." Central high school. There were four-teen contestants this year, and the three marked highest had places on the programme. They were marked on delivery by Judge Ell Torrance, Prof. Webster, of the East Side high school, and Mrs. Manning, of the Manning school of oratory. The prize is \$70 in gold, the interest of \$1,000 given in gold, the interest of \$1,000 given in trust to the board of education some

This will be the singers' day at the | won by Daniel Taylor, whose subject the forenoon they will hold their business meeting at the church, every now and then making a pause in the deliberations in order to rehearse a song many questions of import to the singing union will be decided. In the evening the grand concert will take place at the tabernacle. The mixed chorus and the male chorus will be assisted by a goodly array of clever soloists. Furthermost among these stands Prof. Wilhelm Lindbeng, of Chicago, a graduate of the Swedish Royal conservatory and prominent as pianist, harpist and singer. The fair sex is represented on the programme by Miss Frankie Patrick, soprano, and Mrs. Tillie G. Hoyer, of Galesburg, Ill., contralto. Miss Patrick is a graduate of the Northwestern Conservatory of Minneapolis. The fourth one in the quartette of soloists is Rev. J. A. Hultman, of Omaha, who is the possessor of a beautiful baritone.

Millers and Michiganders Today. The Millers and Michiganders will exposition directors will make an ascross bats today at Athletic Park, the game being called at 4 o'clock. Fraser and Wilson will be in the points for Minneapolis, and Gayle and Twineham for Detroit. Sunday, Minneapolis and erty, might prove effective, has pulled Indianapolis will meet for the first out, and the assignment is now inevitime on the home ground. The game table. STRONG CASE FOR MERRITTS. extension of our manufacturing enter-Letter Produced Which Gives prises is far more favorable than that of the New England states. We are Rockefeller a Stunning Blow. in the center of the continent instead of on its rim. Instead of the waste of water upon which they face in one di-DULUTH, Minn., June 7 .- Rockefeller's attorney made a big mistake yesterday in showing Lon Merritt a letter written by Lon to Gates in 1893, rection, we look out here in Minnesota over a vast expanse of fertile prairies, almost as level as the sea, but aboundin which Lon referred to the scheme outlined in his interview with Rocke-feller. This denies John D.'s deposiing in resources for the support of human life. These prairie regions altion that he talked but ten minutes with Merritt, and then only about the ready support a large population, and are destined to maintain on farms and in farm villages five or six times as many people as now inhabit them. Prairie countries do not take to manufacturing. They are the natural manufacturing. weather. Andrus R. Merritt testified as to his visit to New York to see about the deal; how he objected to Rocke-feller getting bonds and the Merritts only stock: that Rockefeller was plackets for the fabrics, implements and wares produced in the regions nearest at hand where nature has provided ing too low a valuation on the Merritt properties; that they didn't know the valuation of Rockefeller's properties; timber, iron, coal and other raw materials and water power for turning the wheels of factories. We need not expect to crowd New England or the other Eastern states out of their presand were opposed to Rockefeller having a first mortgage on their property. Gates replied that their fears were groundless, and that Rockefeller's properties were gilt edge. So Andrus ent industrial pursuits. OUR FIELD IS WIDE ENOUGH and his two brothers prepared a let-ter stating what they thought a fair here at home, and if we do no more than to furnish the increase of our valuation of their properties. This was in accord with Gates' suggestion as to

own population in the Northwestern states with what they will need in the way of clothing, shoes, agricultural machinery and implements, structural iron and steel, vehicles, furniture, lum-ber, paper, and a thousand articles of daily use, we shall have ample opportunity for a very great extension of our present manufacturing enterprises. The purpose of this pleasant gathering is to bring into friendly acquaintance with each other the newspapers of Minnesota and the manufacturers of Minnesota. We wish to see if these two powerful and beneficent factors in our civilization cannot be of greater service to each other than they have been in the past. Others who will fol-low me will point out ways in which it is thought that the gathering this evening may produce good and lasting results in stimulating the industries of our beloved state and increasing its prosperity. It is my agreeable duty to give you all a cordial welcome, and

to congratulate you upon the successful beginning of this new movement. Frequent applause was bestowed dur-ing Mr. Smalley's address, and its sentiments appeared to find a responsive chord in the breast of every man

Turkey now is his chance to get it; the only question is whether he prefers HOME GOODS, HOME BENEFITS. the dark meat or the white.-Omaha E. Yanish was introduced very happily by the toastmaster to respond to the sentiment "Why Northwestern People Should Buy Northwestern Goods." He alluded to the largeness of the subject, but made an early hit by the statement that, all things else being equal, Northwestern people should buy and use home-made goods. He asserted there is a fundamental principle that will justify the practice of being loyal to home products. Every man in the Northwest should be loyal to the Northwest because it his home. It is every man's duty to build up the city, the state and the section where he makes his home. We should buy in the Northwest to develop our resources, diversify our industries and add to the general prosperity. The speaker into stanced the boot and shoe industry, and pointed out that only 40 per cent manufactured leather used in the Northwest is put up and finished here. Foldolowing out this line of thought, Mr. Yanish developed a very strong argument for adherence to home industries, on the basis that encouragement of one industry would naturally make a field for and build up others. Throughout all lines of trade this holds good, said he, and those present were widently of the same opinion, for they.

At the Ryan—S. G. Comstock, Moornead; A. W. Lounsberry, Cedar Raptics, William H. Dalley, Philadelphia; M. R. Swift, Ne. B. Cole, Cleveland; Joseph Baer, Cincinnati; W. C. Yankey, W. H. Yankey, Detroit; John T. Dee and wife, S. F. Maguire, Chicago; G. Harrower, New York.

> said, absolutely no reason why the people of this section should not manufacture for their own consumption. We are a highly civilized pople, and therefore we manufacture very largely, for ourselves and for others. greatest manufacturing nations are the greatest in commerce, in wealth and in nower: and the greatest period of the development of such nations has been the time when manufactures were ard made some apt comparisons between Great Britain and Spain and Italy; between China and Japan. rying the idea further, he emphasized the development of manufacturing and the vast increase of wealth in New England. The Northwest should manufacture especially those lines for which we have the raw materials in abundance. Think, said Mr. Willard. cents a pound and coming back as cloth at \$1 a pound. Iron ore is being shipped to the East at a low price and comes back to us in a highly wrought form at a greatly enhanced price. There is no reason at all why Northwest enterprise and capital should not manufacture these raw ma terials and reap the benefits that would accrue. We should manufacture for our own consumption in the Northwest more especially to give employment to our urban population. It is impossi-ble to force city-bred boys and girls onto the farms; and the day of our greatest prosperity—the time when the Northwest will be the peerless section of our country-will be when we can provide plenty of employment for them through the establishment of great manufacturing industries in the North-

H. M. Knox opened his remarks with the statement that "To advertise or not to advertise" is the question of to be or not to be with the Northwestern manufacturens. He said that the Northwest was a republic in itself, that ve can manufacture almost everything we need for ourselves. He advocated keeping our money here and building up our own industries instead of sending it to the East to purchase manufactured articles and then borrow the same money at a high rate of interest. He also called attention to the fact that manufacturers should not ask for free write-ups every time they start a new plant. That is advertising and should be paid for. Advertising is the only income of the newspapers and their generosity in booming our new industries is the cause of their poverty.

Advertising is a far better investment than insurance and should not be look ed on in the shape of a needless expense. Its returns are quicker and larger than the best of insurance and the prosperity of the Northwestern manufacturers and newspapers will mutually increase when the business men come to recognize advertising as

Mr. Knox was followed by Cok Plummer, of Dakota, who, although not on the programme, made a very able speech in praise of the true American spirit which built up and still controls the Northwest.

George N. Lamphere, of the Moor

head News, was next called on. His subject was, "What Can the Press Do for the Northwestern Manufacturers?" He said that more friendly relati should exist between the manufacturers and the newspapers. The form er should patronize the latter more than they have been in the habit of doing. His remarks were mostly on the mutual benefit to be derived by judi-cious advertising, both by the press and manufacturing industries. He also spoke of the organization just effected by Minnesota publishers, and

gave a slight outline of their inten-

Mr. Paradis, of the Midway News, closed the programme with a few short remarks, after which H. E. Hand, of the Montevideo Leader, offered the following resolution:

lowing resolution:
Resolved, That the thanks of the newspaper men of the Northwest and of the Commercial club are due and are most cordially extended to the manufacturers of St. Paul and of the Northwest who have so generously and munificently provided the refreshments which have so materially added to the enjoyment and pleasure of the evening. The resolution was unanimously

passed.
The tditors also passed the following resolution:

Resolved, That the sincere thanks of this association are due and the same are hereby tendered E. A. Paradir, of the Midway News; H. G. Day, of the Albert Lea Standard; G. N. Lamphier. of the Moorhead News; H. E. Hond, Montivedeo Leader, and H. P. Hall, late of the Morning Call of St. Paul, for their untiring efforts to bring about the perfecting of the Northwestern Publishers' association.

### Children Cry for Pitcher's Castoria. WAS SQUARE,

And Would Apologize When He Got Home. Detroit Free Press.

The other day as I was taking it easy across the Brooklyn bridge, I met a genuine specimen of the old New Hampshire homespun, who was in town for a day or two and of course took in the bridge as one of the sights "Say!" he began after we had passed a few remarks. "I've got to do the squar' thing when I get back hum, even if it does humble me. That's me— I allus do the squar' thing in beggin' a man's pardin' if I've set down on him wrongfully."

"Is it about the bridge?" I asked. 'Yes, sir-that's why I'm down here Don't happen to know Steve Hockett of my town do you?"

"I don't remember to have met him." "Mebbe not, though he was down here last winter and stayed four days, and thought he shook hands with about everybody in town. When he got back he had some whoppers to tell. One day I heard him tellin' about this bridge. He said it was longer than from my "And it is?"

"She is, but I called Steve a liar. Yes, sir, she's a lot longer, and I've got to take it back. He also said she was wider'n my dooryard. That's true, too, though I called him a blowhard. I called him another liar and dared him out doors. What was the cost? "About \$15,000,000, I believe." "Wall, Steve only put it at \$7,000,000, and yit four of us called him a liar in chorus. What's the hoss power pullin

"Over 20,000." yit nobody would swaller the figgers. How many folk a day cross over?" "In the cars, on foot and by tean over 206,000 per day. How did Steve

"He only out it £0,000, and yik we al him a chaw of terbacker. Instead o bein' a blowhard and a liar Steve Hock ett didn't put the figgers half big 'nuff.

"I've bin right here. I've walked eross twice, measured with a tape line and axed a lot of questions, and Mr. Day, of the Albert Lea Standard, Steve was right. When I git hum I

followed with a very strong speech on the relation of the newspapers to the business interests of the Northwest. Steve Hockett, you went down to business interests of the Northwest. In conclusion he remarked that the meeting and good fellowship exhibited were very pleasant, but unless a practure and was reached it amounted to little of lit were very pleasant, but unless a practical end was reached it amounted to nothing. He asked that a committee of the Commercial club should meet the new organization of publishers at their meeting today and consider plans for mutual henefit.

All about it. Most everybody said you was a liar. Put it thar', Steve! I've bin down thar' and I know you cut the figgers down instead of boostin' 'em up—shake! You are no liar, and that bridge is the gaul-durndest, all firedest, clam-hangest thing on top of this airth slam-bangest thing on top of this airtl at the present minit, and I stand ready to lick the varmint who disputes

### SHE WAS TIRED,

and She Knew How to Get a Seat in the Car.

Philadelphia Telegraph. Every seat was occupied and several persons were hanging to the straps in the usual picturesque attitudes that mode of travel necessitates when the car was boarded by a couple of young ladies, stylishly dressed and demurelooking.

No one moved to offer them seats. The men seemed more deeply interested than ever in their papers or in working out abstruse mental calculations with a delightful air of oblivion that overlooked the small things of life. The women—the New Woman wonted a rather embryotic state

of course did not.

"I'm not going to stand, Minnie,"
remarked one to the other. "I'm too
tired, and I'm going to have a seat."

"But how on earth will you get one?" inquired the other member of this interesting pair, for interesting they were by the time the conversa-tion had reached this stage. "Watch and wait, and perhaps you may learn something of human na-ture," was the reply of the fair one, whose glance had been roving over the

various occupants of the seats.
Suddenly her face brightened perceptibly, and she began edging to-ward the front of the car. "What is it, Lil?" inquired the one addressed as Minnie, who had noted

the change of expression. "There's my victim," was the reply, indicating by a nod of her pretty head a surly-looking little man occupying room sufficient for two persons, and whose only apparent aim in life at the time seemed to be to secure comfort for himself, however much at the expense of his neighbors.
Gradually pushing forward, a posi-

tion was finally secured immediately in his front. A sudden jar of the car, and down in his lap sat Miss Lil, and down in his lap sat Miss Lil, crushing in his paper, dragging his eyeglasses from his nose, and knocking his tile over to a rakish tilt that would have made a political heeler green with envy.

"A thousand pardons," said the young woman, with a smile that should have melted the heart of an iceberg, as she quickly rose. "I' sorry. I hope I have not hurt you?" And then, as the victim began sep-arating himself from the ruins, he uttered something about "no harm lone," he guessed. Hardly had everything been righted

when again the car made a sudden start, and with a little scream of dis-may down sat this young schemer with results even more disastrous than before to the little man.

The shock sent his head crashing against the window, and away went his high hat, bouncing and jolting

along the floor. 'You'll have to pardon me, but really "You'll have to pardon me, but really I cannot keep my feet," she explained, and then, as the man rose to reach his hat, "Oh, take your seat! I'm a thousand times obliged. So kind of you, I'm sure," and with a smile that seemed to say "I told you so," she sank languidly into the vacated seat.

A SHOE SHINE Thousands.

vildly and a fortune may be made or attended by incidents so extraordinary as to be scarcely credible. There is a trader on 'Change who made a vow last week that he would never again have his boots blacked. The price of the shine has not gone up with wheat, and the regular quotation is a nickel, but the shine in question cost the tra-der in the neighborhood of \$5,000. It to that other leading to the Sisting came about in this way: He was thinking that his boots needed a brushing up, but he was watching a short line of wheat which was to be bought in if the market advanced to a cer tain figure. It was a figure that no one thought would be reached that day, but this trader was a trifle nervous over it, so he hesitated aboutgoing over to the blacking stand. As bad luck would have it another trader happened

along and said: "Charlie, let's go over and get a shine."

"No," responded Charlie, facetiously, "I haven't got the price."
"That's all right. If you'll go and get a shine with me I ll pay for it."

Charlie took him up, and while they were getting the shine the market, with one of those freaks not unusual during the last week, made a sky-rocket upturn and stayed just a quarter of a cent over the figure at which Charlie ought to have bought to save a loss if nearly \$5,000. He may retrieve himself if the market ever declines, but up to

date he has \$5,000 charged up to shine Dollar for Round Trip.

A GLIMPSE OF THE POPE

As He Was Borne to the Sistine Chapel to Celebrate Mass.

A society for the suppression of scandal has just been started at Insterburg, in East Prussia. Every scandalous story spread in the town will be traced and the originator prosecuted by the society. A writer in Harper's Bazar stood in the ante-room as Leo XIII., the day after his eighty-sixth birthday, was borne to the Sistine chapel to celebrate mass on the eighteenth anniversary of his accession to the pontificate, and thus describes the scene: Now and then a woman fainted or a man was led away, but the Sisters of Charity, in a room especially provided for the dis-New Court House Building, MINNEAPOLIS Chicago Tribana.

doorway in the room in which we stood chapel. and disappeared within that we heard -a long way off, it seemed-the chee of many voices in uneven acclamation from one to another, as lightning might dart and strike in unexpected places thusiasm creeping, till at last in ou forth. Men lifted children in their arms to see. Some waved their hats with loud vivas. People held up their rosaries to be blessed, or waved hand-kerchiefs in wild enthusiasm. Every MINNEAPOLIS, MINNESOTA.

The oldest and Only reliable medical office of its kind in the city, as will be proved by consulting old files of the third process. Kegularly graduated and legally qualified; long engaged in Chronic, Nervous and Skin Dissases. A friendly talk costs nothing. If inconvenient to visit the city for treatment, medicine sent by mail or express, free rounds of the control of person forgot his neighbor, straining toward that figure just inside the door. borne high above the heads of all. The face was fragile, ethereal, luminous, that of an old man from whose face all look of sex had vanished. It might have belonged to some rare old woman, burning, in spite of age, with intellectual fire. A mere shell, it seemed, for the holding of the spirit, set like a lamp within. One forgot the gorgeous vestments, the jeweled headdress, the white and gold of the sumptuous robes, the gorgeous chair on which the pope was seated, borne on ! velvet. All that one felt or saw was

velvet. All that one felt or saw was the transfigured face of an old man who was murmuring a benediction as he half rose from the chair that carried him, and the movement of that wonderful right hand, its two fingers aloft in blessing.

A grand function was held inside, those who saw it said, but we who stood outside and waited for the second coming of the pope felt that we had missed nothing. It was then that the right hand was toward us, a great diamond flashing on it. A phantom hand it seemed. Those who have seen hand it seemed. Those who have seen a faint white cloud floating just above the horizon on a starlight night have an idea of the impression that fragile hand made on those who saw it.

Takes It Straight. Though the Prince of Wales and most

digestion, Queen Victoria has never suffered from dyspepsia. She attrib-utes this to her eating little, but often, and to her taking whiskey at meals. She drinks it clear, without water.

In the matter of the assignment of Albert A. Hartwig and Alonzo E. Miller, co-partners as Hartwig and Miller, Insolvents.

Notice is hereby given that the above-named insolvents have, by deed in writing dated June 6th, 1895, made a general assignment to the undersigned of all their property not exempt by law from levy and sale on execution for the benefit of all their creditors without preferences who shall file releases of their claims as provided by law.
