MARKET CLOSES IN GOOD TONE.

Bonds Were Under Constant Pressure During the Day-Recover Slightly Before Close.

NEW YORK, June 7-There was in-NEW YORK, June 7—There was increased activity on the stock exchange today. At the opening the bears made a determined raid on the market, using the reduction in Northwestern dividend as a lever with which to depress values. The London market for American securities was also heavy, and foreigners were small sellers of St. Paul in this market. Until a short time after midday prices for American securities was also heavy, and foreigners were small sellers of St. Paul in this market. Until a short time after midday prices continued to decline, and at the bottom figures the losses ranged up to 4 per cent, the latter in Susquehanna and Western pfd, the common losing 1½ per cent; Northwestern leading to Cordage's 1½ for the preferred and 2 for the guaranteed, New Jersey Central 1½; Rubber, 1½c; Reading, Hocking Valley and Iowa Central preferred, 1½; Sugar, 1½; Lake Erie and Western, Wheeling & Lake Erie fd, Louisville & New Albany pfd and Kansas & Texas, 1½; do pfd, 1½, and Manhattan, Pullman, Southern pfd, Keokuk & Des Moines, and Tonnessee Central 1 per cent. At the lowest figures the shorts began to cover and other buyers also came to the market whose purchases helped to rally the market. As the figures moved upward the anxiety of the bears to cover their contracts increased, and the result was a strong and active market during the afternoon. The recovery was, however, only partial, and, although the speculation continued in good tone to the close, the great majority of the list is below the final figures of yesterday.

The principal rallies frmo the low sales of the day are: Susquehanna & Western preferred, 4½; do common, 1½; Consolidated Gas, 3½; Tennessee Coal, 1½; Lackawanna and Lake Erie & Western, 1; and Northwestern and St. Paul, 1¾. Several shares made gains on the day, notably Minnesota Iron, 5½. Consolidated Gas, 3½; Consolidated Coal, 2; and Lake Shore, Delaware, Lackawanna, Edison Electric, of New York, and St. Paul & Duluth preferred, 1½ per cent. The general market closed active and strong.

The bond market was under constant pressure during the day, until just besore the close, when the speculative western General 5s broke to 75, against 9½; the previous transactions; do resunding 5s gave way 3½ per cent to 234. Other losses of note were friends of the design of the previous transactions; do resented transactions of the previous transactions; do resunding 5s gave way 3½ per c

Higher—Sheep Lower.

CHICAGO, June 7.—Only about 3,500 head of cattle were received today, and with a good demand prices for choice heavy and the best light native steers were strong to 10c higher. Extra beeves were nominal in the absence of any offerings of that class, and sales of steers were at \$3.60@4.90 for poor to medium, and at \$5@5.85 for good to choice. About 1,500 Texans were received, making about 16,000 for the week. They were in slow demand at weak prices. About 23,000 hogs came in today, and enough were left over from yesterday to swell the supply to 36,000 head. There was a very heavy demand at strong prices, and the good droves were nearly all taken. Quotations were pretty much the same as yesterday as a rule, but some lots were 5c per 100 lbs higher. Heavy hogs sold at \$4.25@4.70; mixed and butchers' averaging 196@245 lbs at \$4.30@4.60; lightweights at \$4.20@4.50, and pigs at \$3@4. The bulk of sales were at \$4.55@4.70 for heavy and at \$4.45@4.55 for light. A good many common hogs will be carried over tonight.

able Cables Ruling Factors-Corn and Oats Lower.

CHICAGO, June 7 .-- Helped by crop damage reports and strong cables, wheat started today with a promise of a wild advance, but became tame later on heavy realizing sales, closing but %c higher and 1c under the figures. Corn closed ½c lower, oats %c lower, and provisions lower for pork, but slightly higher for lard and ribs. Wheat got a vigorous hoist at the closing. Only one or two fives were secured at the lower figures at the time offered to, the great bulk of the first few minutes business being at from 80%c to 81c. Inside of the next minute or two 81%c was realized for a chance, then there was heavy buy-ing for a few seconds at 81½c. The closing price yesterday was 79½c. There has been no rain in the winter wheat belt in the last twenty-four hours. and none was predicted for that space of time to come. Spring wheat had been again plentifully watered and more rain was promised for tonight, and the fine promise it is giving helped to keep the market from getting beyond control. Perhaps the chief in-fluence in preventing the price from running heavenward was the certainty regarding the nature of the forthcoming government report. The Liverpool market was ½d higher for futures and 1/2d up for spot wheat. Logan & Co.'s private cablegram from there remarked that there was a milling demand for the wheat, and from there to the Liverpool dispatches have ascribed the advances there entirely to speculation. Berlin was from 1½ to 1¾ marks higher. Paris also sent Improved quotations. The day's movements included 20 carloads received here, but only 11 came from the country, 9 being from private city warehouses. Minneapolis and Duluth received 240 cars; compared with 272 on the corresponding day of the year before. The export clear-ances from the Atlantic seaboard were very light, amounting to only 89,000 bushels in wheat and flour together. bushels so far this week, leaving then with only about 200,000 bushels according to a telegram from there. Immense quantities of long wheat were disposed of. Logan & Co. alone, it was reported, sold 6,000,000 bushels. The price of July dropped twice to 804c, and recovered as often to 81c. Its last drop took it to 79%c, but at the close 8014c

was bid. Corn rose at the opening in sympathy with wheat,, but became very weak, and helped to pull the latter off its perch near the close by the heaviness it displayed. The reports concerning the promise for the next crop seemed to none too good, and the acreage planted too heavy to permit of any lasting enthusiasm on the bull side July started at 531/2c, as compared with 52%c, at the close yesterday. It dropped near the close to 521/4@52%c, and closed
