What has society been doing the past week? The element in question, has been doing just nothing at all, with the exception of Mrs. W. J. C. Kenyon's farewell at home, Mrs. D. A. Monfert's luncheon and Mrs. and the Misses McClellan's reception. The absence from town, of the majority of society people, is partly responsible for the depressed condition of affairs. There have been several smaller affairs, luncheons, picnics and informal euchre parties, but nothing of an elaborate character. The coming week does not give promise of being a brilliant one, although several affairs for which in-

vitations are already out, will aid in reviving society a trifle. The week in church circles, however,

taken, which though not strictly in society, certainly deserves mention in these columns, as pertaining to women's work, and one in which, society, church and all progressive women are taking an intense interest, and that is, the Levesque, J. Fr work of improving and beautifying St. and P. J. Brill. Paul, which is to be a part of the work of the Monument association. That the ultimate result of this new step will be a grand success, is a foregone conclusion, for the women have entered into the spirit of the work, with Friday for Misses Sadie and Mary Corbett, of the same earnestness and energy, which | Grand Forks. characterized their work before the G. A. R. encampment, and which resulted in such an overwhelming success. A meeting will be held this week at which definite plans and arrangements will be made
