has pitched show this conclusively. If Denver had one more like him the team would not be trailing. It was a slugging match between Colorado Springs and Minneapolis yesterday, in which the Millionaires bunched their hits and won. The losing team made a rally in the ninth which delighted the big crowd, but lacked one run of tieing the score.

Denver captured the third and final game of the series at Lex ngton yesterday afternoon. The Saints did not succeed in getting a man across the plate, while the Colorado people accumulated seven runs, and the only wonder is that they were contented with so few. Knepper was on the slab for the Saints and the proved an easy projosition. The Denver men bit him aimset at will and made it a point at all times to knock the cover off the ball when hits were needed to bring runs in. Eyier was in the box for the visitors. This Eyler is a baseball pitcher. He has demonstrated that fact before and clinched the matter beyond all argument yesterday.

To go back into history a little it was this same Eyler who pitched the only game that St. Paul lost in Denver. In that game he held the Saints down to two runs and five hits. And it was this same Eyler who beat the Millers in a same Eyler who pitched the only the first the same Eyler who pitched the only the first the same than the particular the same than the same than the same than the same t same Eylir who beat the Millers in a one to two game and allowed them but one hit. Yesterday he allowed but three hits and struck out eight of the Saints. hits and struck out eight of the Saints.
Dillard was the only man on the team
who was able to make good. Pat landed on the ball for three safe ones in the at a time when it did not assist in rungetting. Twice the Saints filled the bases, and both times it was up to one Parker, who is hired to play right field and bat when his turn comes, but he falled to make good in each instance. In addition to his poor work with the stick Parker played a very bad right field. He is credited with but one error in the score, but that is because the rules do not allow errors for bad judgment.

RUNS IN FIRST INNING.

Denver began the run-getting in the first inning. Knepper gave Radeliffe four wide ones and Mohler sent him to second with a nent sacrifice. Hickey put the ball out in Parker's territory for two bases and sent Radeliffe home. Bradley went out from Crooks to Werker between the constant of the picked. den, but Leewe fared better. He picked out a nice one and placed it just far enough in front of Ryan so that he could not get it, and Hickey scored on the hit.
Presson drove one down to Werden and
went out at first. Brown opened the second inning with a safe hit to Parker's field, but no runs resulted as Sullivan flew out to Werden and Eyler went out from Huggins to Werden. Radeliffe drew his second free ticket, but Mohler put the ball to Brain and was thrown out at first. In the third, fourth, fifth and sixth the visitors were blanked.

and sixth the visitors were blanked.

Denver added two more runs in the seventh on hits by Preston, Brown and Eyler, a sacrifice by Sullivan and errors by Brsin and Dillard. Preston's three-bagger in the eighth, following Parker's error on Leewe's fly, added one more. The visitors had a cinch on the game, but they decided to make it good and fatten their batting average at the same time, so they acquired enough runs in the ninth to make a total of seven on hits by Eyler, Radcliffe and Bradley. COULDN'T GET IN.

At two stages of the game it looked as though the Saints would get in with the running. In the opening inning Clarke, if 4 0

Crooks drew a base on balls and Dillard followed with a safe hit. Ryan sacrificed and Werden drew a base on balls.

With the bases full the best that Brain could do was an easy grounder to Real Score by innings ficed and Werden drew a base on balls. With the bases full the best that Brain could do was an easy grounder to Radcliffe, who threw Crooks out at the plate. There were still three men on bases when Parker came up, but they never got away, for he put a nice little fly fourse in Bradley's hands. In the sixth Crooks led off by fanning the air. Dillard hit safely and Ryan drew four wide ones. Werden hit to Leewe, and an effort was made to get Ryan at second, but Mohler falled to make good at his end, and the bases were again full with Brain up. This time Brain took all the blame on himself for he struck out. It was up to Parker again, but the It was up to Parker again, but the best he could do was a hit to Leswe that forced Werden at second. At no other stage of the game did the Saints

was finished. As a means of restoring her to her normal neuretic condition, the dentist, just before she left his office, gave her fifteen strychnine pellets, with instructions to take one whenever she felt any necessity for doing so.

Arriving at her hotel, the prima donna, acting presumably on the theory that fifteen pellets would do fifteen times as much good as one pellet, swallowed the whole number that had been given her—an equivalent of nine grains of strychnine. She then lay down upon the bed and was soon in a comatose condition. A little while later her maid came into the room and her attention came into the room and her attention came into the room and her attention was at once attracted by the unusual appearance of the singer. After attempting in vain to arouse her mistress, the thoroughly frightened girl gave the alarm. Medical aid was quickly summoned, and after three hours of unremitting labor, the doctors succeeded in placing their patient beyond the danger point. She will appear tonight as usual. The opera in which Miss Germaine is The opera in which Miss Germaine is starring was given as usual at the Metro-politan in Minneapolis last night, an understudy taking her place.

FIVE GREAT CITIES COMPARED.

York and Paris, Lowest in Vienna.

Principal Expenses Highest in New York and Paris, Lowest in Vienna.

The five great cities whose munic pal expenses are usually compared are London, the most populous city in the world, New York, the greatest city of the European cities of the first-class: Berlin, the European city which is growing most rapidly in population, and Venna, whose affairs are administered under conditions which have changed little since me laeval times, says the New York Sun.

London had by the last census a population of 4,500,000; New York, 3,500,000; Paris, 2,500,000; Berlin, 1,885,000, and Vienna, by the census of ten years ago, 1,365,000 which has probably been increased 1,500,000 now.

The cost of the government of London i sapproximately \$65,000,000 a year, or at or about \$28 per capita. The municipal expenses of New York are \$95,000,000 a year, or at the rate of about \$28 per capita, the same as New York, though Paris has a burdensome debt and has been expending for many years millions of francs on adornments and embellishments, the pressing utility of which would not probably be agreed to by many New York taxpayers.

The municipal expenses of Berlin are \$21,000,000 a year, or at the rate of about \$12 per capita, and the municipal expenses of Vienna are \$12,000,000 a year, or at the rate of about \$12 per capita. NEW YORK, May 19.—The match for \$2,500 a side for teams of American and British trap shooters at inanimate targets, which is to take place on the grounds of the Middlesex Gun club, near London, Eng., on June 11 and four following days, promises to be one of the most interesting of the many international contests to be decided this year. After many weeks of preparation and negotiation on both sides of the Atlantic arrangements have been most satisfactorily completed. Twelve of the best wing shots in the United States have been selected to represent America, and these with several friends, some of whom may be called upon to act as substitutes in case of emergency, will sail for Europe on the steamship Canadian from this city next Sunday. They expect to reach London about June 5, so that the English traps prior to the beginging of the match.

It is said that a despicable trick was turned by the National league in getting Mathewson. Christle was borrowed from Norfolk last year, and a sum, said to be \$2,000 by one authority, \$1,200 by another, was to be paid for him by the New York club if he proved satisfactory. After getting a line on his abilities, Freedman sent him back to Norfolk, saying that he would not do. Andy then hatched up a trick with Brush, and had Cincinnati draft the pitcher. Brush then turned him over to Freedman, who thus got the player and dodged paying the swindled minor league manager the money.

BEWARE THE STENOGRAPHER! To Dictate a label to the Typewriter Is to "Publsh" It.

Baltimore American.

A decision as to what constitutes a libellous 'publication'" in contemplation of law has recently been handed down by the Maryland cour of expeals, which should lead persons imploying private amanuenses and strongraphers to use great cere as to the subject matter of a dictated letter. According to this decision, the first judicial deliverance of a state court of last resort deciding the precise point, the publication of a letter dictated and typewritter containing libellous matter is legally complete, although it contents have not been made known to any person other than the stenographer. The court ruled:

Neither the prevalence of any business customs or methods, nor the pressure of business which compels resort to stenographic assistance. Can make that legal which is illegal, nor make that legal which would otherwise be actionable. Nor can the fact that the stenographer is under contractual or moral obligation to regard all his employer's communications as confidental alter the reason of the matter.

as confidental after the reason of the matter.

Under the ruling, publicity within the meaning and intent of the libel law of Maryland is sufficiently accomplished when the objecti nable matter is dictated to the stenographer. The libel is published" under such circumstances as fully for legal nursoes as though it was PASEBALL NOTES.

Of the 20,6%,251 bottles of champaigne exported from France in the past twelve months, it appears that at least 3,000,050 bottles came to this centry. The monthsummaries of commerce and finance issued by the United States treasury department show that ir the twelve months, ending April 1, 1901, 3,873,420 bottles of champagne were imported into this country. Exactly what proportion way furnished by France is not shown, except with regard to the total imports of wines of all sorts.

It also appears that Americans have been drinking an increased percentage of the total exports of Freich champare.

HAD HEART FLUTTERING SPELLS. Mrs. E. A. Schwolow, a dressmaker.

aged forty-two years, living at 809 South Front street, Philadelphia, writes: "My work requires me to sit steady, which I sometimes do till other troubles. I have had several the heart, which is very bad. One day an old friend of my dear mother called when I had one of those heart fluttering spells. She asked me what I was taking, so I told her, and she said: 'Why don't you try Ripan's Tabules? You won't be troubled with spells like that if you persevere with them; just follow the directions." Nothing could take the place of Ripans Tabules since I have been using them, which is now one year and eight months. If I live to be one hundred years old I will never forget those wonderful Tabules. If you could only see the work I turn out afules you would say yourself: 'Kcep on taking them, for they really bennial for publication in books or whatever way you feel inclined to use it."

Ripans Tabules are the best, Ripans Tabules food digest, Ripans Tabules joy will bring, Ripans Tabules are the thing.

There is scarcely any condition of ill health that is not benefited by the occasional use of a R.I.P.A.N.S. Tabulo, and the price, 10 for 5 cents, does not bar them from any home or justify any one in enduring ills that are easily cured. For sale by all druggists.
