SERIES OF EXPLOSIONS FROM LA SOUFRIERE

People of St. Vincent in a Panic—Luminous Cinders Appear in the Cloudless Sky Over the Crater—French Steamer Dahome Has a Marvelous Escape Near St. Pierre.

BASSE TERRE, Island of Guadeloupe, F. W. I., Sept. 2.—It has been learned from the gendarmes of the island of Martinique that 1,000 persons were killed and 1,500 injured during the last eruptions of Mont Pelee.

According to an official account the eruption of Aug. 30 was one of the most severe that has been experienced. Morne Rouge and a great part of Ajoupa Bouillon were destroyed. The zone between the river Capote and the valley of Champ Florie and Fonds Marie Reine has been devastated. Mont Capote suffered severely and the hills around Basse Pointe were burned.

The governor of the island is arranging for the evacuation of the northern parishes and the removal of the wounded.

The temperature at Martinique is reported to be almost unbearable.

An Earlier Report.

PARIS, Sept. 2.—The Havas Agency has received an undated dispatch from Fort de France, Martinique, announcing that about one thousand persons were killed and that several hundred were injured as the result of a violent eruption of Mont Pelee on Saturday, Aug. 30, which destroyed Morne Rouge and Ajoupa Bouillon, two villages near Mont Pelee.

The dispatch confirms the report that the village of Le Carbet was damaged by a tidal wave, which was also felt at Fort de France, where the people were panic stricken.

The French cruisers Suchet and Tage are embarking people in the northern part of Martinique.

La Soufriere Active.

KINGSTON, St. Vincent, B. W. I., Sunday, Aug. 31.—A remarkable volcanic phenomenon occurred here between 9 and 10 o'clock last night. There was a startling series of detonations from La Soufriere, louder than any since the terrible eruption of May 11. Each explosion shook the buildings of this town. The noises were terrific and gave the impression in every town and village of this island that the scene of disturbance was only about two miles away. During the period of intense anxiety which attended the detonations two luminous circles, like rainbows, appeared in the cloudless sky to the northwest. They were presumably the reflection of the flames in the crater of La Soufriere. Subsequently a dense cloud of steam arose from the crater, but this soon dispersed. The weather today is fair.

Grave Fears for Martinique.

Telegraphic reports have been received here from the islands of Grenada, Trinidad and Barbados saying loud detonations were heard at these places between 9 and 10 o'clock of last night. These explosions were similar to those heard when Mont Pelee, on Martinique, and La Soufriere were previously in eruption. The people of Grenada were greatly alarmed at the detonations. They were the loudest which have been heard there. This phenomenon was not attended by serious results on St. Vincent, but fears are entertained here for people on the island of Martinique, as Mont Pelee is known to be still terribly agitated, two eruptions having occurred there in the last six days. The first eruption was seen Aug. 21 by passengers on the French steamer Dahome. This vessel narrowly escaped destruction while passing near St. Pierre.

Telegraphic communication with the islands north of here has been interrupted since July 13. The cable repair steamer Newington is working to repair the cable, but owing to bad weather and the great depth of water, her efforts have not been successful. It is impossible to say definitely when the cable will be restored.

CARDINAL GIBBONS IS QUITE ILL

Has An Attack of Kidney Trouble and May Have to Submit to An Operation.

BALTIMORE, Md., Sept. 2.—Cardinal Gibbons is suffering from an attack of kidney trouble and has for a day or two been under a physician's care. Dr. Edward F. Millholland, who is attending his eminence, stated tonight that he looked for great improvement in his patient's condition tomorrow.

He hinted, however, that an operation might be necessary to permanently cure the cardinal of his ailment. The cold with which the cardinal has suffered for several days is greatly improved.

HAS HER \$200,000; TREATS HER COLDLY

Strange Charge of a St. Louis Woman in Making Application for a Divorce.

ST. LOUIS, Mo., Sept. 2.—Mrs. Gertrude W. Grice, a wealthy West end society woman and wife of Charles L. Grice, assistant general passenger agent of the Burlington, instituted proceedings in the circuit court today against her husband for divorce. They were married in Chicago, Feb. 26, 1893, and separated a few days ago.

According to Mrs. Grice her husband has treated her with utter indifference and has refused to devote any of his time to her socially. She says she has endeavored to please him, but he has treated her with coldness. Over \$200,000 worth of property, according to the plaintiff, is in the possession of her husband which belongs to her, but which he refuses to turn over.

Must Have Proof Against Canada.

HAMBURG, Sept. 2.—A letter published by the general customs administration today, the general purport of which is identical with the explanation recently made by the customs authorities in regard to the case of imported grain, says that hereafter with all consignments of grain shipped from ports north of Philadelphia, including the great lakes, proof must be furnished that Canada is not the place of origin. Proof must be forthcoming not only in the form of an American certificate, but also in the form of a bill of lading, such as ships' papers, invoices, bills of lading, commercial correspondence, etc. Wheat, rye, oats, barley and peas come within the terms of the new regulation.

DRAWS A KNIFE ON WILLIAM J. BRYAN

The Nebraskan Has a Narrow Escape From a Drunken Man in a Fight.

LINCOLN, Neb., Sept. 2.—The quickness any physical prowess of Mr. Bryan alone saved his person from possible serious harm last evening in a park in the outskirts of Lincoln.

Mr. Bryan and several friends were leaving the place at the close of the Labor day exercises, where Mr. Bryan was orator of the day, when they came across a big burly fellow who had a much smaller man down and was unmercifully pummeling him.

Mr. Bryan took hold of the man and pulled him off his antagonist, but no sooner had he loosened him than the big fellow pulled a knife and a revolver and started for the Bryan party. He was seized and disarmed before he could do any harm, Mr. Bryan being the first to reach him.

The man, who was intoxicated, fought desperately, but the ex-presidential candidate's muscle prevailed. No report of the affair was made to

"THE AWAKENING" OUT OF A LIBRARY

Regarded as Improper by the Mercantile, St. Louis, and Removed From Its Shelves.

Special to The Globe.

ST. LOUIS, Mo., Sept. 2.—"The Awakening," a story of Creole life in Louisiana, written by Mrs. Kate Chopin, of this city, has been placed under the ban with Zola, Balzac, Mark Twain, Walt Whitman and other noted writers by Horace Kephart, librarian of the Mercantile library, because it was objected to by some members of the governing board. The copies on the shelves of the Mercantile were taken out and burned in the furnace. The book was written in 1899, and while it was sharply criticised by the reviewers, all agree as to the artistic merits of the work. A number of copies are on the shelves of the public library, and the question of its withdrawal from circulation has never been considered by Librarian Cruenden.

An attempt was made to see Mr. Kephart today, but he was absent from the library. His assistant, however, said: "The Awakening" was

IT WILL SOON BE WORTH ITS WEIGHT IN GOLD.

John G. McCullough, Republican, of Bennington. The returns from 200 cities and towns out of 246 give the following vote for governor:

Gen. John G. McCullough, Republican, 26,497; Felix W. McGottick, Democrat, 6,112; Percival W. Clement, high license, 23,239; Joel C. Sherbourne, Prohibitionist, 2,052.

The best idea of the change over in votes in both the Democratic and Republican parties is shown by the comparison with the vote of the same 200 cities and towns in 1900, which gave Stickney, Republican, 39,665; Senter, Democrat, 14,439; all others, 1,290.

Clement Strong Candidate.

Mr. Clement showed great strength in the large cities, his home town, Rutland, giving him a majority of 1,214 out of a total vote of 1,559. The returns show that Gen. McCullough did not begin to hold the Republican vote. Clement getting his strength from this defection, to which was added, it is claimed, about one-half of the total Democratic strength in the state. The Prohibition vote was heavy for that party. As a majority vote is required to elect, the choice of governor and lieutenant governor is thrown into the general assembly, which convenes on the first Wednesday in October.

The election will go down in history as the most interesting ever known in the Green Mountain state, there having been a spirited contest from the time the conventions were held until the last ballots were deposited this afternoon. This was brought about by the bolting of many of the delegates to the Republican state convention, headed by Percival W. Clement, after an effort to place in the platform a plank favoring high license, local option, had failed. The convention did adopt a somewhat milder plank drafted by former Gov. John W. Stewart, which had a referendum clause providing that the law should take the place of the present prohibitory law that has been on the statute books for fifty years upon its receiving a majority vote when presented to the people.

The Bolt Comes.

Those delegates following Clement's leadership accepted this plank, and were on the point of calling the attention of the convention to the alleged claim of bribery in the election of certain delegates when they were stopped by parliamentary procedure, claiming that they could not be given a hearing, the high license local option delegates bolted. Percival W. Clement was their choice for governor, and at a convention held in Burlington he was chosen to lead the ticket, while Frank W. Agan, of Ludlow, was nominated for lieutenant governor. The convention was enthusiastic, and as a result a movement was started that had never been considered in the state. The high license local option men worked early and late in their endeavor to defeat the regular Republican ticket.

Continued on Fourth Page.

the police, the labor leaders suppressing it.

Mr. Bryan today admitted the facts about the affair, but refused to discuss it. Eye witnesses say that his assailant evidently did not know whom he attacked, but that it was a close call. The fellow is unknown and was permitted to go.

KILLED A WOMAN WITH STRYCHNINE

Chicago Nurse Makes a Confession As to Giving An Overdose of Poison by Mistake.

CHICAGO, Sept. 2.—Miss Emily Etheridge, a nurse in the Presbyterian hospital and the daughter of the late Dr. James H. Etheridge, one of Chicago's leading physicians, confessed to Coroner Truesher tonight that she had made a fatal mistake in administering strychnine to a patient in the hospital.

The victim of this error was Mrs. Laura Moore, of Rensselaer, Ind., whose sudden death one week ago today had been a mystery until Miss Etheridge made a clean breast of the matter.

The confession was spoken to the coroner and his physician at Miss Etheridge's residence, 1631 Michigan avenue, tonight.

"I gave Mrs. Moore two grains of strychnine, when I should have given her only the thirtieth part of a grain," said Miss Etheridge, who was on the verge of nervous collapse from the strain which she had undergone since her own discovery of the fatal blunder.

ARE UNDER ARREST FOR BREAKING INTO CARS

Winona Police Make a Capture After a Long Chase.

Special to The Globe.

WINONA, Minn., Sept. 2.—After a hot chase down the Milwaukee railroad near this city by Sheriff Lins and deputies, Charles G. Raymond, of Chicago, and John R. Hatch, of Udon, N. Y., were landed behind the bars in the county jail here. Hatch and Raymond are arrested on the charge of breaking into a box car on the Milwaukee road and stealing a quantity of merchandise. The missing goods were recovered from them. It is thought that the arrests are important ones, and that the band of thieves who have been working the trains will be broken up. When the men discovered the officers in pursuit they concealed themselves in the tall grass.

Albert H. Horton Dead.

TOPEKA, Kan., Sept. 2.—Albert H. Horton, ex-chief justice of Kansas, died at his home in this city tonight after a long illness. Judge Horton was prominent in Republican politics, and at one time came within a few votes of defeating John J. Ingalls for the United States senate.

taken off the shelves of the Mercantile library because it was objected to by some members of the library association. Mr. Kephart simply acted upon the request of the persons objecting to the novel. I know Mrs. Chopin personally and she is a very fine woman, a gifted writer."

Mrs. Chopin is in no wise disturbed over the action taken by Librarian Kephart.

GUIDI GETS TELEGRAM FROM ARCHBISHOP

Ireland Congratulates the New Apostolic Delegate to the Philippines.

ROME, Sept. 2.—J. A. Ferriera da Costa, the Brazilian minister to the holy see, who will act as Mgr. Guidi's sponsor at the latter's forthcoming episcopal consecration as titular archbishop of Stavropolis has sent the new apostolic delegate a magnificent present of a traveling case containing sacred vessels of gold, set with precious stones, which formerly belonged to Pius IX., who used them both as bishop and pope. Mgr. Guidi will use them for the first time at Manila.

Several cardinals have sent their congratulations to the Right Rev. John M. Farley, D. D., the auxiliary bishop of New York, on the decision of the propaganda yesterday to recommend the pope to appoint him archbishop of New York, in succession to the late Archbishop Corrigan.

There is some possibility that there will be no consistory this year, and that it may be postponed until after the pontifical jubilee in March. A great demonstration is being organized for St. Peter's Cathedral on the occasion of the jubilee.

Church circles do not consider it desirable at present to change the papal nuncios to Spain and France in consequence of the religious situation in those countries.

The pope is in excellent health. He spends several hours daily in the Vatican gardens. He invariably passes a portion of his time in prayer before the replica of the Lourdes grotto, which he had constructed in the gardens.

Mgr. Guidi has received many congratulations from America, and was highly gratified by the receipt of cordial telegrams from Archbishop Ireland, of St. Paul, Minn., and Bishop O'Connor, of Sioux Falls, S. D.

The apostolic delegate to the Philippines has written to Gov. Taft announcing his appointment and expressing an earnest desire to reach a solution of the friars' question satisfactory to both parties concerned.

Dimmick on Trial Again.

SAN FRANCISCO, Cal., Sept. 2.—The second trial of W. L. Dimmick, accused of having stolen \$30,000 from the United States mint in this city, was begun in the district court today. The first trial ended in a disagreement.
