BROOKLYN SHUTS CHICAGO OUT. Wonderful Catch By, Keeler the Feature of the Game.

Pittsburg 116 87 29
Brooklyn 118 63 55
Boston 112 57 55
Cincinnati 115 57 58
Chicago 115 56 59
St. Louis 113 52 61
Philadelphia 113 47 66
New York 112 39 73

BROOKLYN, N. Y., Sept. 3.—The Chicago team was shut out by Brooklyn today. Morrissey, the New York pitcher, did very well for a first performance in a big league game. The feature of the game was Keeler's running catch of Slagle's low line drive, which the Brooklyn captain scooped in with his bare hand. ACAINST ARBITRATION

LONG STATEMENT FROM PRESI-DENT OF READING COMPANY

He Holds a Conference With the Pennsylvania Senators and Then Gives His Reasons for Withholding Consent to an Arbitration of the Coal

PHILADELPHIA, Pa., Sept. 3.— President George F. Baer, of the Read-ing company, and United States Sena-tors Quay and Penrose, held a long conference today in the executive ofconference today in the executive of-fices of the Reading company in this city, at which the anthracite coal min-ers' strike was thoroughly discussed. At the conclusion of the conference, President Baer issued a reply to the two senators. Among other things, he

said:
"If we yield to the extravagant demands of the miners we will lose money. If we attempt to increase the price of coal we will destroy the industries depending upon anthracite fuel. If we depending upon anthracite ruel. If we increase the price on the domestic sizes, we will be called robber barons, oppressors of the poor, monopolists and enemies of mankind. We have concluded, therefore, that our duty to ourselves and to the public will best be served by standing firmly on these propositions:

propositions:
"One—That the wages paid in the anthracite coal regions are, compared with the wages paid in like employment, fair and just, and that men willing to work honestly can earn more on the present basis of wages than in any other industry engaged in producing common articles of necessity in

Would Increase Coal Prices.

-That wages cannot be increased without increasing the price of coal, and to increase the price of coal will restrict the market and drive the public to use bituminous coal, a cheaper and more abundant fuel, and that a restricted market will curtail production and result in depriving the

miners of regular employment.
"Three—That we are not fighting labor organizations. We fully recognize the right of men to organize to protect themselves from oppression and to benefit themselves in any legitimate way. But we do oppose their unrea-sonable interference with the discipline and ordinary management of our business. We will not permit them to se lect our employes. We are fighting the battle of freedom for the individ-ual and his right to labor on his own

Fourth-That it is, by reason "Fourth—That it is, by reason of varying conditions of each man, impracticable to adopt a uniform scale of wages for the whole region. But that at each colliery every complaint and grievance will be taken up and investigated by the superintendents and adjusted whenever it is just. I personally offered to Mitchell and his district presidents to go with them and investigate any grievance. tigate any grievance.

No Arbitration Here.

"You see, senators, none of these things can eb the subject of arbitra-tion. You cannot arbitrate a question of wages when an increase will destroy the business and a decrease will be unacceptable to the workmen. We cannot arbitrate a question as to whether mining operation and business generally shall be managed under the common sense rule of law and equity, by the owners and the converts they by the owners and the servants they have selected, or by a labor organiza-tion. You cannot arbitrate the right to protect your property and your workmen from the mob rule of labor organizations who boldly proclaim a organizations who boldly proclaim a purpose to destroy property and endeavor to make their proclamation effective by killing and injuring their fellow workmen, who refuse to join in their lawlessness."

COMMISSIONER WRIGHT REPORTS Nine-Hour Day Should Be Conceded as an Experiment.

as an Experiment.

WASHINGTON, D. C., Sept. 3.—
The report of Carroll D. Wright, commissioner of labor, on the anthracite coal strike was made public today. Commissioner Wright finds that there is no confidence existing between the employes and their employers. This he believes is one of the chief causes of the difficulties. Commissioner Wright suggests that it would be reasonable and just for the operators to concede at once a nine-hour day for six months as an experiment. He suggests that there should be organized a joint committee on conciliation composed of representatives of the operators and of a new union of anthracite employes to which all grievances should be referred for investigation and that their decision should be final and binding upon all parties and that there should be no interference with the non-union men.

be no interference with the non-union men.

Commissioner Wright says that the facts seem to show that, in contradistinction to most strikes, officers of the miners' union, with perhaps one or two exceptions, persistently opposed the present strike on the ground that it would probably last all summer and entail great hardship and suffering upon the mine workers as well as work incalculable injury to the industrial interests of the country. Their attempt, however, to secure conferences between the representatives of the mine workers ers and the mine operators proved fruitless and the miners themselves decided that a strike should be organized.

When it is shown that a ton of coal says Mr. Wright, contains a varying percentage of refuse as it comes from

the mine, it is difficult to see the force of the argument why it should not be weighed and the miner paid for the work h does. At least the operators, he thinks, ought to share in the loss of labor in mining impurities.

Mr. Wright makes the following suggestions which he was the following suggestions which he was the mining impurities.

gestions, which he says seem reason-able and just:

"First—That the anthracite em-

"First—That the anthracite employes should organize an anthracite coal miners' union, in its autonomy to be independent of the United Mine Workers of America. The new union might, of course, be affiliated with the United Mine Workers and the American Federation of Labor, but in the conduct of all the affairs relating to the anthracite coal regions the new union should preserve its own autonomy and be financially responsible for its agreements. "Second—That, considering all the facts relative to production, cost of coal at the mines, profits, freight traffic, etc., etc., it would be reasonable and just for the operators to concede a proper of the company of

at once a nine-hour day, but this should be done for a period of six months as an experiment, in order to test the influence on production, with the guarantee that if production be not materially reduced thereby, the agreement shall be made for a more permanent reduction of time. "Third—That under a new organiza-tion consisting of anthrecite employed

tion consisting of anthracite employes there shall be organized a joint comthere shall be organized a joint committee on conciliation, composed of representatives of the operators and of the union to which all grievances as they arise shall be referred for investigation; and that when two-thirds of the committee reach a decision, that decision shall be final and binding upon both parties.

"Fourth—That the first duty of such joint board of conciliation shall be to enter upon a thorough examination and investigation of all conditions relative to mining anthracite coal.

ative to mining anthracite coal.

"Fifth—That whenever practicable and where mining is paid for by the and where mining is paid for by the ton and until the joint committee be-fore referred to shall have made its report, coal shall be paid for by the ton and be weighed by two inspectors, one representing the operators and one representing the men, each side to pay its own inspector.

"Sixth—That there shall be no interference with non-union men.
"Seventh—That whenever practicable collective bargains shall be made relative to wages, time and other conditions under rules to be established by the joint committee referred to."

PASSENGERS TERRORIZED BY A THIEF WITH A RAZOR

Pickpocket Furnishes Excitement On

a New York Elevated Road. NEW YORK, Sept. 3.—Slashing to right and to left, with a razor, a thief on the Third avenue elevated road terrorized a car full of passengers and held them at bay until he could make injured a passenger and the guard. After the train passed 47th street, Edward Bergen, a passenger, saw the thief take another passenger's watch. He called the guard and together they attempted to catch the pickpocket. As they closed on him he drew a razor and slashed Bergen twice, cutting frightful gashes in the arm and right thigh. The man shouted he would kill any person who interfered, and at 53rd street station he jumped over the gate to the platform. Passengers then took up the chase through the streets, where they were joined by a large crowd, but the thief escaped.

Extensive Copper Deal.

ST. LOUIS, Mo., Sept. 3 .- The Great Lincoln Copper company, controlling one of the largest mining properties in Arizona, has sold its holdings to a syndicate of Chicago and Cleveland capitalists, among whom is John S. Rockefeller. It is said the amount paid was \$6,000,000.

Standard Sleepers and Largely Guesswork. CHICAGO, Sept. 3.—Lacrimae proved easily the best in the fourth race at one mile at Harlem today after a wretched start, in which Hargis and Jane Holly were badly worsted. Hargis, the favorite, backed from 6 to 5 to even money, was third at the finish, being beaten by John A. Clarke for place. Reclining Chair Cars. The Scenic Express, leaving St. Paul at 8.05 a. m. except Sunday, arrives in St. Louis early next morning. Sleeping Cars from Rock Island south. Nellie Waddell won the second race This is the most direct route from Minneapolis and St. Paul to Clinton, Davenport, Rock Island, and all Mississippi River cities.
