a Buying Combination but to the Simple Fact That Stocks Happen to Be Cheap Just at the Present Time.

NEW YORK, Aug. 6.—Following a weak, almost panicky, opening, today's stock market suddenly revised its course, substantial gains being registered by practically all the better class securities. The average of net ad-

tered by practically all the better class securities. The average of net advances were about 2 per cent. In some instances gains were much greater. New York Central led the active list with a net gain of 3%.

The change of front, which occurred in the early afternoon, was doubtless due to several reasons, the most potent of which was the "good" buying which seemed to emanate from high quarters. There is little room for doubt that stocks were purchased freely today by insiders—by banks, banktout that stocks were purchased freely today by insiders—by banks, banking houses, financial institutions generally, and wealthy individuals because they seemed cheap. No justification could be found for the report, rather industriously circulated, that the Vandardith Reshellows and Harrimans

derbits, Rockefellers and Harrimans, with their hosts of followers, had entered upon a plan to lift prices.

As a matter of fact, not a little part of today's improvement was undoubtedly due to extensive covering, many on the short side regarding the mar-ket as being very much oversold. De-spite the marked improvement, further talk of trouble and probable failures was heard on every side almost to the close, which was really buoyant. Re-ports current in trustworthy circles ports current in trustworthy circles suggest that several firms and individ-uals whose affairs were found to be in

uals whose affairs were found to be in bad shape have been permitted to make private settlements, thus saving themselves such sacrifices as would inevitably have been made had their holdings been thrown upon the market.

The day's business was slightly less than 1,000,000 shares. Stocks that made the most extensive net gains include Sugar, American Tobacco preferred, St. Paul, Colorado Fuel, Delaware & Hudson, Denver & Rio Grande, General Electric, Hocking Valley preferred, Illinois Central, International Power, Louisville & Nashville and Metropolitan Subscriptions, New York, Chicago & St. Louis second preferred, North American, Rubber Goods preferred, Southern Pacific, Virginia-Carolina Chemical, common and preferred. nerred, Southern Facinc, Virginia-Car-olina Chemical, common and preferred, Wabash preferred, Westinghouse, Wheeling & Lake Erie second prefer-red, and St. Louis & San Francisco, Eastern Illinois Certificates, the lat-ter advancing 10 points. A few days ago her uncle discovered her whereabouts and arranged with neighboring ranchmen to aid her in escaping. The father of the girl who sold her into peonage is said to be in South Africa and advantage was taken of his absence to rescue her.

All the ranchmen, telegraph operators, cowboys and trainmen in the vicinity assisted in the deal. Fast relays of horses, misleading telegrams, the stopping of train on the prairies and other methods helped to get the girl out of the jurisdiction of the man who bought her. She will be placed in

"I have never seen the inside of a church or school house, and have never had playmates like other girls," said the young woman today, exhibiting a pair of hands that would do credit to a street laborer. "Dolls? I have never seen one. My life has been one round of work—digging wells, milking cows, pitching hay, ranging cattle and break-

During her dreary years of drudgery she says she would by chance secure a piece of newspaper, by reading which she would learn something of the happenings of the great world that seemed to lie away off somewhere in space. She read of the lives of other girls at times, and occasionally she read a Bitimes, and occasionally she read a Bible, which she would steal out of its hiding place in the ranch shack. Revelations that came through these mediums filled the girl's soul with longings for a different and a better life.

New York and Chicago Men Plan Department Stores in Kingsway.

Special Cable to The Globe.

LONDON, Aug. 6 .- It is reported in the offices of the London county council that Marshall Field & Co., of Chicago; Sigel, Cooper & Co., of Chicago. and New York, and John Wanamaker, of Philadelphia and New York, have made application for building space in Kingsway, the new thoroughfare between Holborn and the Strand, with a view to opening department stores on the American plan. Today an official LODGE WILL PUT of the council said:

"We cannot impart definite information on this matter. However, I am at liberty to say that among the applications for sites on Kingsway are well known Americans. All the applications

remain to be acted upon."

With the exception of the improvements committee of the council nobody in London appears to know the facts regarding the intentions of Sigel, Cooper & Co. and Marshall Field, but it is stated that Wanamaker is considering the question of opening a store in Kingsway. Several months ago he investigated the outlook carefully. A few weeks ago he returned to the United States favorably impressed. He in-tends to visit London again in January to bring matters to a definite issue.

Special to The Globe.

MORA, Minn., Aug. 6.-News comes of a fight in the wilds of Mille Lacs lake, near Lawrence, in which Otto and Nels Quick, two young men whose parents are residents of this city, narrowly escaped death in a fight with drunken Indians.

For some weeks past a blind pig has been operating openly at the lake, selling liquor to the reds, and, as a result, the Indians have been a disturbing element. Sunday afternoon the Quick boys made a purchase of liquor for the Indians, and soon a bunch of them were hilarious and brought knives into action. The Quicks attempted to take the knives from a brave named Gee-

Kee and his son. Soon a bloody fight was on. The Quick boys were slashed up badly, and Otto was left lying by a log supposed to be dead. The back of his head was slashed in a dozen places, his nead was stashed in a dozen places, his ears punctured and an arm broken. Nels received many injuries, including a broken hand. The Quicks were brought here and will recover.

Gee-Kee has a record of having killed

three men. He and his son have fled. The settlers are very much excited and will call upon the government to exterminate the illegal "booze joint."

high. The function will consume five hours.

The pope has informed the Vatican officers that he wishes he received on the threshold of the basilica by Cardinal Rampolla, who, as arch priest of the church, will address the formal greetings to him. At the conclusion of the ceremony the pope will confer his blessing on the people, but it has not yet been decided whether he will do so inside the church or from the balcony looking out on the plazza, where many hoped he would bestow his benediction on the day of his election. It is said that Pius X is favorable to the latter plan, but that the influence of the Vatican officers is against it on the ground that it might be interpreted as a recognition of the present state of affairs in Italy. The holding of the coronation ceremonies in St. Peter's itself represents a concession, as in the case of Leo it occurred in the Sistine chapel. It is expected that 60,000 tickets will be Issued for the event.

In the consistories to be held Monday and Thursday next the pope will confer the red hat on Cardinals Ajuti, Taliani, Kalschthaler and Herrero y Espinosa, who were raised from the purple on June 25, but who have not received these symbols of rank because of the illness and death of Leo. It is believed that the Spanish cardinal, believed that the Spanish cardinal, Herrero, will not be able to attend the coronation ceremonies.

MINING PROMOTER TAKES OWN LIFE, DEAL GOING WRONG

L. G. Shapcott, of Colorado Springs, Who Came to St. Paul to Finance a Deal, Commits Suicide-He Leaves Letter Blaming T. S. Russell.

Because the arrangement he made n St. Paul a week ago to finance a mining deal fell through, L. G. Shapcott, of Colorado Springs, Col., killed himself yesterday.

Shapcott, who had a large acquaintance among mining men, left several letters, in one of which he said he was compelled to take his life because T. S. Russeli, of St. Paul, had been unable to carry out a plan for the sale of 500,000 shares of mining stock.

Details of the Tragedy. Special to The Globe.

COLORADO SPRINGS, Col., Aug. 6. -Failure to close a deal for the sale of a half million shares of mining stock in St. Paul and the refusal of T. S. Russell, of that city, to honor a draft for \$400 caused William G. Shapcott, a prominent broker and promoter of this city, to commit suicide in his office this afternoon. He shot himself through the head.

He left letters explaining that financial troubles had driven him to the deed. He returned Sunday from St. Paul and announced that he nad closed the sale of 500,000 shares of the stock of the Upper Ten Mining com-pany and that the concern would de-velop its properties. When the sale fell through he found he had been en-

gulfed. Three letters were found on the body—one to the general public, one to the Exchange National bank, of this city, and the third to T. S. Russell, of 603 Holly avenue, St. Paul, Minn., the last two being in reference to the non-payment for \$400 drawn upon Russell by Shapcott. Shapcott.

It was the notification of this non-payment which evidently proved to be the last straw and which determined Shapcott to commit the rash act. The open letter follows:

Struggled to Pay Debts. "Financial troubles have driven me to do this. I have been struggling so hard, night and day for the past three
