GRAINS ARE ACTIVE

Wheat Makes Fair Advance in an Erratic and Restless Market.

The St. Paul stock and grain commis-sion men received the following letters resterday relative to the markets: M. Doran & Co.'s Chicago grain letter

M. Doran & Co.'s Chicago grain letter Says:

Wheat—The domestic news was strong from all quarters. Demand for best qualities was good. Low grades were higher at Minneapolis and good No. 3 sold at 5c under May, the best relative price so far. Seaboard reported 25 loads taken for export. St. Louis and Kansas City shipments were nearly 250,000 bu in excess of receipts, while the total primary receipts were about 50,000 less than the shipments. The Southwest bought the July early on the break, letting it go again on bulge. Liverpool closed practically unchanged.

Corn—The course of the corn market was very similar to that of wheat. Trade was small and not of a significant character. The movement from first hands is light and shipments from primary points exceeded arrivals by 50,000 bu. The low grades in the local market were strong again, advancing 1@2c, while better qualities were strong, but not quotably higher.

Oats—Oats appeared to be under pressure moderately at the start, but recovered along with wheat and corn, closing strong. Stocks in dealers' hands in Iowa, according to State Grain Dealers' association, is 2,000,000 bu less than year ago. The demand for shipment is fair and the local cash market is strong.

O'Connor & Van Bergen's stock letters say:

and was of little effect on the general market.

The firmness of Amalgamated Copper, which was lifted over a point in the late dealings, was nominally due to trade conditions, and it is argued that the outbreak of war will cut off the Japaness product from the market, thus appreciably affecting supplies. Money was easy and time money rates yielded slightly. Call money also maintained its notable ease. A canvass of the banks shows that the movement of currency is still in favor of New York, in spite of the expectation that the turn in the tide was at hand. The market closed fairly steady near the top, but the trading was almost stagnant. Bonds were dull, but slightly irregular. Total sales, par value, \$1.000,000. United States new 4s coupon declined ¼ per cent on call.

Weakness was in evidence in the corn pit during the early part of the session. There was heavy selling by the large bull interests and there was also considerable commission house selling. Larger receipts than had been expected and easter cables were the influences that brought out the selling for short account. The demand came mainly from shorts, but after the first hour the buying became more general and the market gradually advanced. Late in the day there was liquidation by holders who did not care to carry lines over the holiday, and this selling caused some reaction. The close, however, was firm. May opened a shade to 1/4 @ %c lower at 53 1/2 653 %c, sold off to 52 %c. and, after advancing to 54 1/4 c, closed at 53 7/2 654 c. July showed a gain of 1/4 0/4 %c, closing at 52 1/4 @ \$2. Local of 1/4 0/4 %c, closing at 52 1/4 @ \$2. Local of 1/4 0/4 %c, closing at 52 1/4 c. and a grade.
