SHARP BREAK IN RECENT LEADERS

St. Paul, Southern Pacific and Union Pacific Suffer the the Most

reported. Reading's strong statement of January net earnings did not help that stock.

The day's record clearing house balance exchanges only slightly below the highest record, witnessed the heavy requirements of the Southern Pacific bond payment made yesterday. With this operation completed, easier money conditions are to be expected, but this did not serve to check the speculative liquidation in stocks. The feeble rallying power of the market aggravated the tendency to throw over stocks, and the pressure increased, making low prices for the day in the final dealings and a decidedly weak closing. New York Central's loss ran to nearly five points, and the other active speculative leaders were down from 2 to 3 points.

Bonds were easy. Total sales, par value, \$4,720,000. United States bonds were all unchanged on call.
