

# Jasper News.

Arthur F. Drake, Owner and Editor.

JASPER, MO., THURSDAY, AUGUST 26, 1920.

Twenty-third Year. No. 1

## SCHOOL SHOES

School service is the most strenuous that shoes have to withstand. Young people spend a great deal of the day on their feet and the various activities of school are particularly hard on shoe leather. Every mother appreciates the problem school footwear presents.

These shoes are designed to help solve that problem. They are from the best makers who have always served us and you. Comfortable lasts for the growing feet, and the good shoe making that will stand the knocks of lively feet.

## Ice Cream Social.

The ladies of the Hackney Cemetery Association will give an ice cream social Saturday night, August 28, at the home of Emory Tiller, 7 1/2 miles southeast of Jasper. The proceeds will be used to improve the cemetery. Committee.

## Lamar Fair Boosters Here.

The Barton County Fair boosters—35 or 40 cars of them—were here Tuesday morning. It was a jolly, peppery lot of men and women out for the serious purpose of boosting their community, and having a lot of fun at the same time.

The very fact that the business men of the town, and their families, can get out occasionally and have a good time together will do a lot toward sweetening the social and business life of the community, and its utter impossibility to expect much growth and development in any town unless its citizens are on good terms with each other and have a real honest liking for one another.

We might cite a town not a thousand miles from here, where half the business people act as though the other half were liars and thieves, where real community cooperation is a stranger and suspicion and distrust runs rampant and the growth of that community is at a standstill.

## Miss Mary Lawson Entertains Friends

Miss Mary Lawson entertained at dinner Tuesday the following teachers who are leaving soon: Misses Myrtle, Ruby, Lucile and Adeline Teter and Josephine and Myrtle Collier. Misses Ruby and Lucile Teter will teach in Chyenne, Wyo., Miss Myrtle teaches at the Southwest Teachers College at Springfield, and Miss Adeline teaches at Jasper County's demonstration school. Miss Josephine Collier is instructor of English at the Fort Leavenworth High School in Kansas and Miss Myrtle is instructor of mathematics in the University at Los Angeles, Cal. Miss Lawson will teach at Commerce, Okla., the coming term.

Mrs. Cassil and her little son of Joplin spent Sunday with her parents, Rev. and Mrs. E. H. Sapp.

## Commercial Club Meeting.

All members of the commercial club and all citizens are asked to be present Friday night at Nunnelly's hall to the regular commercial club meeting and to listen to a proposition to submit to the people who are interested in securing a water works system in Jasper. L. T. McCune, Pres.

## The Chataqua Successful.

Jasper's three days' chataqua closed Sunday night with a large and well pleased crowd in attendance. It was successful in that the programs of music, readings and lectures gave satisfaction to those who had the privilege of attending the question of financial outcome being of secondary importance. The guarantors paid a deficit of \$3.75 each, a matter which always irritates a little because it could be avoided if a few more people would interest themselves in affairs of this sort, which are really of inestimable value to the community.

## A Watermelon Feast.

The I. O. O. F. have moved to their new hall. In honor of this occasion Charles Andrews, the "fiddling tornado of Coon Creek," brought to lodge Monday night 6 of the long green variety of Kleckley Sweet watermelons, for the members. Oh, boy! You ought to have seen them when they were cut open. Great big red juicy hearts—a feast for a king and a joy forever. Three cheers were given for Chas. Andrews. Long may he live and may his watermelons be prolific.

## Births.

The following births were reported to The News this week by Dr. Knott:

To John King and wife, 10 miles north of Jasper, a boy, Friday, August 2.

To Mahlon Earl and wife, 9 miles southeast of Jasper, a girl, Monday, August 23.

## Farmer's Wife Fatally Burned.

By the explosion of a gasoline iron with which she was working, Mrs. Fred Banwart, living 13 miles northwest of Jasper, was fatally burned Wednesday morning of last week. The accident occurred at 9:30 a. m. and Mrs. Banwart died at 3 p. m.

Two of Mrs. Banwart's children were painfully burned by the explosion, and Mr. Banwart was very seriously burned while trying to extinguish the blaze about his wife.

The funeral was held Saturday at the German Church near the Banwart home and the body buried in the churchyard.

## Former Jasper Citizen Dies at Home.

Word has been received of the death of D. M. Wallace, which occurred at the home of his son, E. E. Wallace at Hume, Mo., on July 29th. Mr. Wallace formerly owned the farm now owned by F. W. Wescott 4 1/2 miles southwest of Jasper, and he had many warm friends in this section who will regret to know of his death.

## \*A Little Free Advice.

By a local poet (?)

The farmer is sure a funny feller,  
A good producer but a poor seller,  
He hicks about the price of meat,  
Yet don't know how to sell his wheat.

The laboring men they organize,  
And if the farmers would be wise  
Unitedly and firm they'd stand—  
Three dollars for their wheat demand.

The union man won't work a lick  
For orphan, widow, or the sick,  
Unless he has a guarantee  
Of what his pay is going to be.

Then why should you both toil and save  
For sixteen hours like a slave,  
Then let the other fellow give  
You just enough so you can live?

'Tis true this old world must be fed,  
But get this thought into your head—  
Not what you buy, I know full well,  
Your loss is all in what you sell.

The cost of production you should know  
Of cattle, hogs and the grain you sow,  
Then demand a just profit, it is your right—  
Stand firmly together with all your might.

## LOST \$6 000 000.00 A WEEK

The United States Department of Agriculture estimates that the farmers of the United States lose the above amount every week through neglecting to house farm implements.

The depreciation on \$1,000 worth of machinery amounts to about \$200 annually when left with only the blue sky for a roof.

The remedy—use the \$200 and build an implement shed.
