

**Growing Old Too Soon?**  
Are you one of those unfortunate folks who find yourself feeling older than you should? Do you feel lame and stiff mornings, drag through the day with a constantly aching back? Evening find you utterly worn-out? Then look to your kidneys. Present day life puts a heavy burden on the kidneys. They slow up and poisons accumulate and upset blood and nerves. Help your weakened kidneys with **Doan's Kidney Pills**. Doan's have helped thousands and should help you. Ask your neighbor!

## A Kansas Case

Christ Graf, Main St., Ellinwood, Kan., says: "I had a dull ache across my back and through my kidneys. Mornings my back was so bad I could hardly stoop over to put on my shoes. I had headaches. I had to get up frequently during the night to pass the kidney secretions. I saw Doan's Kidney Pills so well advertised I got a supply and two boxes cured me of the trouble." Get Doan's at Any Store, 60c a Box.  
**DOAN'S KIDNEY PILLS**

## Keep Stomach and Bowels Right

By giving baby the harmless, purely vegetable, infant's and children's regulator.

## MRS. WINSLOW'S SYRUP

Brings astonishing, gratifying results in making baby's stomach digest food and bowels move as they should at teething time. Guaranteed free from narcotics, opiates, alcohol and all harmful ingredients. Safe and satisfactory.  
At All Druggists

## Obeys Orders.

Boy Scout (on right guard)—Halt! Who goes there?  
Voice—Officer of the day.  
"Advance, officer of the day, and explain what you are doing out at night."  
—Answers.

## FREEDOM FROM LAXATIVES

## Discovery by Scientists Has Replaced Them.

An inestimable amount of injury, according to an eminent medical authority, is done by the use of pills and salts, as most of these provide only temporary relief at the expense of permanent injury.

Science has found a newer, better way; a means as simple as Nature itself.

In perfect health, a natural lubricant keeps the food waste soft. Thus it is easily eliminated, but when constipation exists, this natural lubricant is not sufficient.

To find something to take the place of this natural lubricant, medical authorities have conducted exhaustive research. They have discovered that the gentle, lubricating action of Nujol most closely resembles that of Nature's own lubricant. As Nujol is not a laxative, it cannot gripe. It is not a medicine in any sense of the word, and, like pure water, it is harmless. Get a bottle from your druggist.—Advertisement.

## Willing to Divide.

Teacher (sternly)—Willie, give that chewing gum to me.  
Willie—I'll let you have half of it.

There is nothing more satisfactory after a day of hard work than a line full of snowy white clothes. For such results use Red Cross Ball Blue.—Advertisement.

Every woman has a certain look with which she thinks she can squelch a man.

## Newborn Danger in Yellow Fever

May Cross Ocean in Event of Quick Transit Between American and African Tropics.

## GORGAS' WARNING RECALLED

In Former Days Time of Transit Across Atlantic Was Long Enough to Allow all Cases of Fever on Board to Kill or Cure.

Panama.—The two Portuguese aviators flying across the Atlantic from Africa to South America—bring to mind a prophetic warning of the late General Gorgas. This was to the effect that when quick transportation between tropical Africa and tropical America should develop, as it eventually would, it would greatly increase the danger of the spread of yellow fever to the Eastern Hemisphere as long as the disease remained in South America, especially in Brazil.

## Days of the Slave Trade.

The reason why yellow fever did not spread from America to Africa in the days of the slave trade, as malaria did spread from Africa to America then, illustrates beautifully an important difference between the two great tropical plagues, as well as gives point and pertinence to General Gorgas' warning. Yellow fever kills or cures in a very short time; malaria may linger in the system for a very long time. In former days the time of transit across the Atlantic was long enough to allow all cases of yellow fever on board a ship to die or to recover before the voyage ended. Recovery conferred immunity on the fortunate, and if a mosquito should bite them after they reached Africa they found no germs in them to transmit to others. So it required a very quick transit to get the infection across. It is not yet positively certain that yellow fever ever did cross the ocean. General Gorgas was on his way to the west coast of Africa to settle this question definitely when he died in London.

But malaria, which seems to have originated in Africa, does not confer

immunity upon those who recover from an attack. The germs may survive in the system of the sufferer for months, or even for years, in a more or less dormant state, even if acute attacks do not again develop, and these germs may infect the anopheles or malaria-carrying mosquitoes, and so enable them to infect others. In this way the African slaves brought malaria to America with them, but the slave traders did not carry back yellow fever with them to Africa—at least it is not definitely known that they did—and the long time of transit was unfavorable to any considerable transportation of the infection. It is certain that Africa has not suffered from the imported American plague of

yellow fever as much as America has from the malaria imported from Africa.

## Airplane May Change This.

But the airplane may easily change all this. If the Atlantic is crossed in two or three days any member of the crew of an airplane having an infection of yellow fever may easily carry the disease to where the mosquitoes are waiting to do their part on both sides of the Atlantic. Yellow fever does not reveal itself immediately after a man is bitten by an infected mosquito.

The only safety would lie in a strict quarantine at the port of arrival in Africa or Europe, the crew and passengers all being detained under watch until the period of incubation has passed. The other remedy is to clean up South America of yellow fever, as General Gorgas so strongly urged.

## Gunpowder Engines.

Before 1880, when gasoline was discovered to have power possibilities, gas engines were operated by gunpowder and turpentine.

## Would Harness Heat of Kilauea

Borings in Volcano Suggested to See if It Can Be Converted Into Power.

## EXPERTS SEE POSSIBILITIES

Tentative Plans for the Experiment Embrace at Least 50 Borings to Provide Thermal Map of Hot Belt of Volcano.

Honolulu.—An immediate start on experimental borings in the bed of the active volcano of Kilauea, on the island of Hawaii, to determine whether the heat of the volcano can be harnessed and converted into electrical power, was urged by Dr. T. A. Jaggar, director of the Volcano observatory, at the annual meeting of the Volcano Research association here.

Doctor Jaggar said that tentative plans for the experiment embraced at least 50 borings so located as to provide a thermal map of the hot belt

of the volcano. The first boring would be sunk to a depth of 200 or 300 feet in the center of the crater, with the others at 50 to 100 feet deep, depending upon the nature of the resultant discoveries.

Most of these borings will be made at the source of old lava flows.

The meeting, commemorative of the tenth anniversary of the founding of the research association, decided that the borings should not be made until subscriptions totaling \$8,000 had been obtained to defray the expenses. Of this sum \$7,000 already has been donated.

Doctor Jaggar also recommended the construction of a practicable pack trail to the summit of Mauna Loa, 14,000 feet above sea level. Kilauea is situated 4,000 feet above sea level, on the slopes of Mauna Loa. Doctor Jaggar said that he expected a summit outbreak of Mauna Loa, in the crater of Mokuawewe, next year, or in the year 1924, as nine years will have lapsed then since Mauna Loa's last activity.

## Wants House for Scientists.

He also urged the construction of a house at the summit in order that scientists might be quartered there in anticipation of this outbreak, as nobody has been known to have witnessed the first stages of one of Mauna Loa's activities.

Previously attention has always been attracted to the outbreak at the summit by the reflection in the clouds above of the glow of the boiling fire fountains which had risen through the summit crater. The board of directors endorsed this suggestion.

Doctor Jaggar's report reviewed the work of the research station on the brink of Kilauea volcano and the activities of the association.

## Don't Worry, Sweetheart; I'll Escape in Two Years

Washington.—"Don't worry, sweetheart, I'll escape inside of two years," Joseph Lauzon, charged with 200 burglaries here in the last eighteen months, replied to the warm embrace of the woman who had gone into his cell to bid him good-by the other day. Arrested with him, but later released, Miss Virginia Betty Carroll told Lauzon: "If they give you fifty years, I'll still be waiting for you when you're free."

## Gyroscope Stops Rolling of Ships

Here is the giant Sperry gyroscope, a mechanical device which will prevent the rolling of the ship which is equipped with it. This is one of the biggest of its kind and will be installed on the shipping board liner Hawkeye State.

## "ANGEL" WILL BUY A VILLAGE

Swedish Red Cross Nurse Seeks to Rehabilitate War Wrecks.

Aristocratic Girl Gathers German Refugees From Wastes of Siberia—Has Already Repatriated Thousands of War Prisoners.

Stockholm.—A refuge of rest and physical rehabilitation where the human wrecks of German war prisoners from Russia and Siberia may be treated and salvaged is being purchased by Miss Elsa Brandstrom, known throughout central Europe and Russia as "the angel of Siberia."

Miss Brandstrom is negotiating for a village in southern Germany which she proposes to turn into a human reclamation camp for the derelicts that once marched proudly under Hindenburg and other Teutonic military leaders against the Russians and were

captured and sent to Siberian concentration camps.

They remained in Siberia till long after the world war was over, and there are still thousands of them left, free to return home if they could. But they have neither the means nor the physical strength to do so.

Miss Brandstrom is a young Swedish Red Cross nurse, the daughter of the late Gen. Edward Brandstrom, for many years Swedish minister to Russia under the czar's regime. Leaving her comfortable home in Stockholm and the aristocratic social set in which she had been brought up, she led a small Red Cross expedition into western Siberia and has succeeded in repatriating thousands of German and Austrian war prisoners.

But she found that when the former soldiers reached their homes they were unable to assume their former places in society. They were wrecks. So she has collected a considerable fund and hopes to purchase a village

and have it ready for occupancy this autumn.

As to the war prisoners still wandering about Russia and Siberia, many of them never will be found, and none of them will ever be able to get back without outside aid. Miss Brandstrom proposes to continue rounding up these waifs and bringing them to her haven of rest.

## Wooden Leg as Flask.

Spartanburg, S. C.—The storied "uses of adversity" proved anything but sweet the other day for Alex Balenger, a one-legged Spartanburg Negro. When a faint and muffled "splash, splash" was heard to accompany him as he hobbled down Main street a policeman took him in. At the station a cache in his wooden leg was found to contain a pint of liquor. The judge imposed a fine of \$100 for transporting intoxicants.

## Organize Wild Life League.

Clarksburg, W. Va.—Organization was perfected here of the Wild Life League of West Virginia, designed to foster fish, game and forest protection.

## MRS. HATFIELD SABINA, OHIO

In Pitiable Condition when she Began Taking Lydia E. Pinkham's Vegetable Compound

Sabina, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound for weakness and irregularity. I was weak and nervous and could hardly stand on my feet long enough to cook a meal. I was this way for about a year and had tried several medicines and had a physician, but to no avail. My sister was taking your medicine and finally induced me to try it. I now feel fine and can do my housework without any trouble at all. You can use this letter for the sake of others if you wish."—Mrs. WELDON G. HATFIELD, R. R. 3, Sabina, Ohio.

Housewives make a great mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties.

Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial. It surely helped Mrs. Hatfield, just as it has many, many other women.

## WATCH THE BIG 4

Stomach-Kidneys-Heart-Liver

Keep the vital organs healthy by regularly taking the world's standard remedy for kidney, liver, bladder and uric acid troubles—

## GOLD MEDAL HARLEM OIL CAPSULES

The National Remedy of Holland for centuries and endorsed by Queen Wilhelmina. At all druggists, three sizes. Look for the name Gold Medal on every box and accept no imitation.

## EYES HURT?

Don't ignore the danger signs of itching eyes, red lids, blood-shot eyeballs. Mitchell's Eye Salve removes irritation, reduces inflammation, soothes pain.  
HALL & HUCKEL

## Cuticura Talcum Always Healthful

Soap 25c, Ointment 25 and 50c, Talcum 25c.

**YOU CAN** color your hair easily, quickly and safely by using Q-Ban Hair Color Restorer. Safe to use as water. Makes you look young again. At all good druggists, 75 cents, or direct from HESSIG-ELLIS, Chemists, Memphis, Tenn.

## Are Men So Fickle?

Women members of the Republican county committee were discussing Assemblyman Steinberg's bill providing that no marriages should be performed until thirty-six hours after the issue of the license. Miss Mary Wood, prominent in politics, opposed the measure. "It gives a man too great a chance to change his mind," she said.—New York Herald.

## You'll Get A Year's Wear or more.

when you buy **EXCELLO** SUSPENDERS. No rubber in rot. Phosphor Bronze Springs give the stretch. Ask Your Dealer for No-Way Suspenders. Getters and Hosiery Supporters. If the lamp's them, send direct, giving dealer's name. Every pair guaranteed. The Excello Suspenders Co., 1000 N. 1st St., St. Paul, Minn.

## 50¢ Postpaid Coin or Stamps

This simple little device can be used to test the action of any make spark-plug without removing plug from cylinder. Simply by touching one wire of the tester to terminal cap and the other to the packing nut at base of the plug you learn at once if the plug is O. K. When the plug is working right a fast spark will jump across the gap into tester.

Actual size 5 1/2 x 1 1/4; fits the pocket. This tester does not short-circuit the current like other methods of testing.

Agent Wanted **PERRINS SPARK PLUG TESTER CORP.** 360 Broadway, New York, N. Y.

W. N. U., KANSAS CITY, NO. 20-1922.
