CENTRAL BUSINESS COLLEGE

SEDALIA, Mo.

—School keeps up in interest notwithstanding the hot weather.

—The indications are that school will be much larger the coming school year than ever before. We receive more than twenty letters every day now.

—Among the new pupils that have entered school the past week are, Mr. Grant, city, and Mr. Purcell, Kansas. Mr. G. for three months in short hand and Mr. Purcell twelve months in the business course.

—M. Ludwig's friends will be glad to know that he will soon be with us again. He is one of the best workers that we have ever had. He is a young man of more than ordinary ability and for him we predict a bright future. He is to teach the schools at Georgetown the coming winter. We congratulate the board on securing such a young man as a teacher.

—We are now mailing about three thousand journals per day. Any one knowing of a young gentleman or young lady who is thinking of attending school, will do us a kindness and assist a Sedalia enterprise by mailing us the name or names with address on postal card. Anyone wishing to examine our journal and catalogue will receive them by return mail by sending us his address on a postal.

—Several of our pupils have recently accepted positions in the city, and are doing good work and giving satisfaction. We have several young men with us now who are ready for positions and whom we can recommend very highly. We will not under any circumstance recommend one who we are not confident will fill the bill. We often have young gentlemen and young ladies in our school who would do good work for any firm and be a credit to Sedalia. We should be pleased to see such persons get positions here and if the business men will have the kindness to call on us when they are in need of help, we are confident that they will find it to their interest.

Will Get the Insurance Money.

The coroner's investigation into the identity of the man who was fished out of the river May 14, was held yesterday. The body was exhumed and identified as that of Martin Heery. The investigation was made at the instance of a life insurance company in which Heery held a \$2,000 policy.—Kansas City Times.

Mrs. Heery lives in East Sedalia, having removed here since her husband's death.

When the lips are dry or scarred,
When the teeth are dark and dull,
When the tongue is hot and hard,
And fills the tainted mouth too full,
The magic SOZODONT supply,
And all those ills before it fly.

A Old Pioneer Preacher's Death.

Rev. W. T. Johnson, for many years a Methodist preacher, died at his home in Benton county last week. About a year ago he severed his connection with the Methodist church and united with the Missionary Baptists. He was 76 years of age.

A New Hotel.

Hon. Angell Mathewson of Parsons was in the city Friday and secured a 20-year lease from the receivers of the M. K. & T. for a site for the new hotel at Muskogee. I. T. Mr. Mathewson is the president of the company. The hotel will cost about \$30,000 and will be fitted up with electric lights, steam heaters and all modern improvements. Mr. John Adams will be "mine host." Since the U. S. court has been established at Muskogee it has become a good hotel point. It is the commercial capital of the Territory.

—There are two eclipses of the sun this year—a very rare occurrence. The last year so honored was the twentieth before the birth of Washington and the next will be 67 years hence.

—The infant child of David Davenport of Lamonte, died last Monday.

—The infant child of James Hunter of Bowlette, died last Wednesday.

FUGITIVE CLEVELANDER.

An Agent of the State of Ohio
Takes Charge of Truesdale,
dale,

Wanted at Cleveland for Rob-
bery and Leaves With
Him for the
East.

Officer A. A. Lawrence, the duly accredited agent of the State of Ohio, arrived here this morning from Cleveland to take Truesdale back to the scene of his crime. His papers did not call for Zebbelin, Truesdale's partner, and he was released. Mr. Lawrence, however, says that Zebbelin worked at the same place with Truesdale in Cleveland and left the city with him, but so far as known had no hand in the robbery.

He says Truesdale worked in a sale or livery barn and roomed at the residence of Mrs. Edvans, a widow lady. On the morning of the day the robbery was committed, he notified the landlady that he should probably sleep late as he had been on continuous duty for some time. He retired to his room fastened the door and apparently went to bed. Mrs. Edvans closed the house and went down town on a business mission. During her absence Truesdale stripped the room of everything of value that he could carry away and forced open the doors to other rooms in the house and stole a lot of other things, and then taking two large sized valises, packed the goods into them and decamped. The value of the goods stolen is about \$100. In addition to the robbery, he ran off with a gold watch, chain and charm which he bought at Colby & Wright's installment house. He had paid but one installment, \$7.50, on the purchase. The watch, chain and charm found on his person were identified by the numbers as the property fraudulently carried away.

Mr. Lawrence left with his prisoner at noon.

Police Court.

Only one case was before the police court yesterday morning.

Joseph Williams, an M. K. & T. bridge carpenter, got furiously drunk Friday evening and was landed in the calaboose with the charges of intoxication and resisting an officer, booked against him. He was guilty of the former, but discharged as to the latter on the ground that he did not know what he was doing. He paid his fine, \$5, and left for St. Louis on the first train.

Col. Doniphan.

A glance at the old records of Lafayette county show that on Feb. 24, 1832, A. W. Doniphan was appointed a justice of the peace. This was the late Gen. Doniphan of Ray county, the hero of the "expedition to Mexico," the longest military march in the history of the world. About six weeks ago the writer met in St. Louis Col. R. A. Easton, who commanded one of the Missouri regiments which accompanied Gen. Doniphan on this march. Col. Easton is in his 82nd year, as clear and vigorous in mind and as hale in body as the average man of 60 years. This expedition marched overland from Independence, Mo., to Brazzito, Mexico, and back again, a total distance of over 6,000 miles.—Lexington News.

The M. K. & T. Reorganization.

The stockholders of the M. K. & T. are not anxious to hurry up their reorganization as the road is doing better, perhaps, in the hands of the receivers than it would in the hands of the owners. The road had been neglected and allowed to run down until the lowest estimate put upon the cost to repair it was \$2,000,000. As the credit of the line stood prior to its passing into the receiver's hands was so low that the money could not be borrowed except at ruinous rates, if, indeed, it could be had at all. Everybody, particularly railroad men, supposed that the road would linger along for a few years and be consumed in receiver certificates, and finally be disposed of section at a time to different roads and the great M. K. & T. pass into history. But to the astonishment of those who supposed the road had seen its best days, it rose almost as if by magic and within 8 months has taken a position among the great lines with a credit as good as the best. Instead of being consumed by receiver certificates the roads treasury is full of cash, enough to meet extraordinary rebuilding projects, purchase new cars, engines and to build 34 miles of new road, and yet leave a surplus. The bond holders do not get any interest, but their security is being daily made better and their securities increased in value, equal to a 10 per cent dividend. If they do not get a cent within 2 years the increase in the value of their bonds will exceed a 10 per cent per annum dividend. The market price of the first and second mortgage bonds has already increased at the rate of 15 per cent, a month since the future of the road has become assured.

—The Kansas City & Pacific, the recently acquired M. K. & T. branch, is worth \$2,000,000. At least that is what the owners ask for it.

—Receiver Eddy, of the M. K. & T., left for Leavenworth, his home, yesterday morning. He will leave for Yellowstone Park to-morrow, accompanied by his family and Judge Brewer of the United States court.

—Ladies who value a refined complexion must use Pozzoni's Powder—it produces a soft and beautiful skin.

A Handsome Present.

Capt. Parish is finishing up a fine six pound field piece to be used as an ornament for Gen. Smith's Post room. The gun is of wood and was turned and bronzed at St. Louis, and looks so near like a real gun that the deception could not be detected a few feet distant. The carriage was made by the captain, who proposes to present it to the post. It is a handsome present and will be greatly appreciated by the G. A. R. comrades.

ANOTHER BRUTE.

John Kaines Criminally Assault-
ed Little Kitty
King.

The Brute Eludes the Officers and
is Still at Large.

Another foul crime has come to light. John Kaines a brutish looking young man who has made his home near Houstonia, is charged with criminally assaulting little Kitty King, a girl 12 years of age, living with her sister in East Sedalia.

Kaines called at the house Thursday and finding the girl alone caught her but her cries and screams caused him to desist, but not until he had seriously injured her. The brute left her lying on the floor in an insensible condition. When her sister returned she had in a measure recovered from her fright and gave an account of the affair. The matter was placed in the hands of the officers who are in quest of the fellow. He evidently realized that he had committed a great crime and fled from the city in all possible haste. It is thought that he made his way to Benton county as he came from there last week.

MORE MEANNESS.

A White Man Charged With As-
saulting a Colored
Matron.

The developments of the past day or two tend to show that a portion, at least, of the people inhabiting this part of the country are not getting better in a moral point of view. A sensation that is a sensation is coming to the surface despite the efforts of the parties interested to keep the matter secret, that will create an uproar in high circles when it comes out. At present the officers will not tell the names of the parties, but the case will come up for trial before Justice Blair Tuesday. The facts are as follows:

A day or two prior to the 16th of the present month a well known colored man charged his wife with being too intimate with a certain white man. The woman claimed that the white man overpowered her and after accomplishing his hellish designs, threw three silver dollars into her lap and left her. The husband made her go before Justice Blair and swear out a warrant for the arrest of the white man for assault and rape. The warrant was issued on the 16th and the white man was taken into custody Friday night. He gave bail. On account of his family he said he did not want the matter to be made public.

He says the woman sacrificed her virtue for the \$3 and that there was no assault or rape in the case.

THE COLORED COLLEGE.

Work will be Begun on the Build-
ing Tomorrow.

The Structure will Cost Thirty-
Five Thousand Dollars.

Dr. Hartzell, the agent of The Southern Educational Society of the M. E. Church arrived here Friday morning for the purpose of letting the contract for the proposed colored college. After consultation with the committee of citizens composed of W. L. Porter, F. A. Sampson, J. C. McLaughlin, James Story, Dr. Wood and C. G. Taylor he decided to let the contract for the foundation of the main building and trust the committee to raise the deficit of \$500 in the \$5,000 bonus demanded. The contract was awarded to J. T. Cowan and will amount to nearly \$4,000.

City Engineer Yeater surveyed the grounds yesterday and set the stakes, and work will begin to-morrow. The society has appropriated \$30,000 for the building in addition to the \$5,000 to be donated by the citizens.

Mesdames Smith and Cotton made a clear donation of the grounds and Dr. Hartzell says that was the real inducement for the society to select Sedalia as the point for the school.

The committee having in charge the matter of raising the \$5,000 donation, will collect the deficit from time to time as the work progresses. It is intended to have the building ready for occupancy next year.

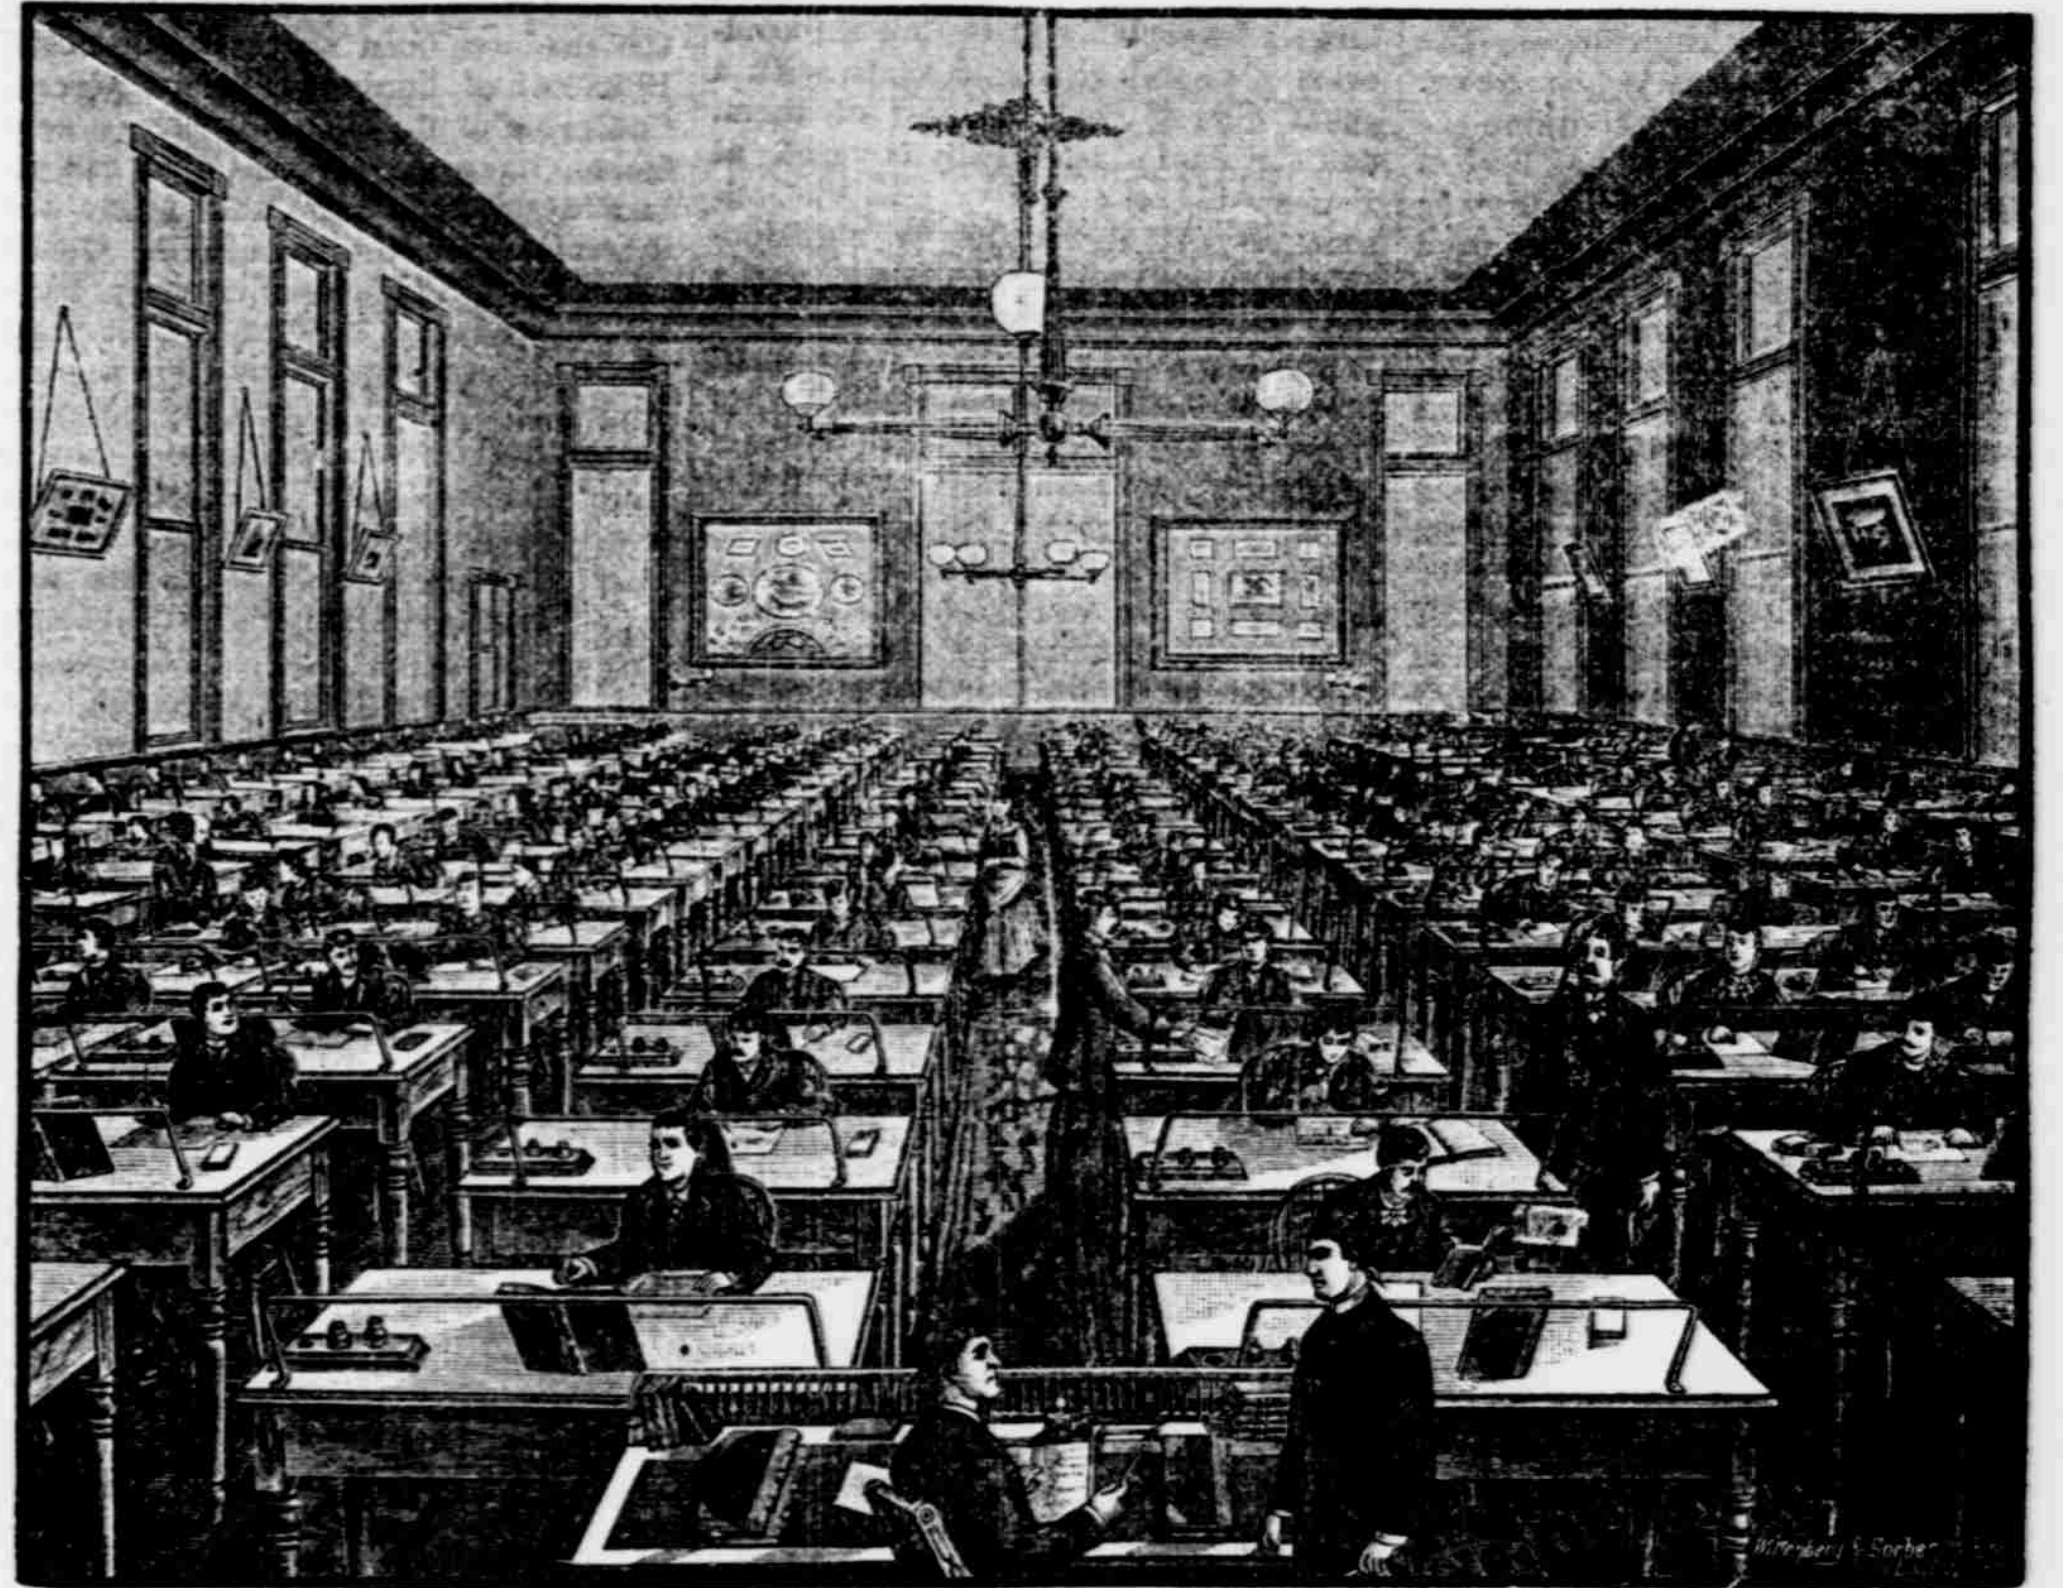

He Stole the Dog.

The trial of Jordan Murphy, charged with stealing a pup belonging to Mr. Manas, before Justice Halstead Friday resulted in Murphy's conviction. He was sent to jail for 25 days. The case was tried by a jury.

A FIEND.

Samuel Boone, of Iowa Town-
ship, Lodged in
Jail.

On a Charge of Committing Rape
Upon An Eight-Year-
Old Girl.

This morning, Justice of the Peace J. F. Howe and the constable of Iowa township brought Samuel Boone to Sedalia and lodged him in the county jail. The charge against Boone is that of rape upon a little child eight years old.

Boone is a widower thirty years old, and has one child, a little girl. He is a farm hand in the employ of E. K. Cannady, a farmer living near Ionia, in this county. During the warm weather he has been sleeping in the barn. Wednesday night, Mr. and Mrs. Cannady went to a neighbors, where there was a very sick child, to spend the night. They told Boone to sleep in the house that night and take charge of the children and house. They left with him and under his charge their little girl, Boone's girl and the girl of Mrs. Edwards, a widow and neighbor. The latter, little Eva Edwards, was eight years old.

It is charged that in the night, Boone got in the bed where the children were asleep and outraged Eva Edwards. The child's clothes and person are said to show evidences of the act. The child was badly frightened but not injured to any extent. She informed Mrs. Cannady of what had transpired, the next day. Mr. Cannady had Boone arrested yesterday, and brought to Sedalia to-day. His preliminary hearing will take place at Ionia, August 31st, before Justice Howe. Until that time he will remain in the county jail.

Boone has stood well heretofore and is said to have respectable relatives in Johnson county. He has employed W. D. Steele to defend him.

A High Priced Horse.

John Combs shipped his black colt, Wildwood, up to Sedalia on Monday to go into training for the fair. He will be handled by Fuller and we predict for him a "walk-away" in every ring in which he is shown. He is only 3 years old and is doubtless one of the best young horses in Missouri. He is a Boone county horse, and a very high priced one.—Boonville Topic.

A Lawn Tennis Contest.

The Crescent Lawn Tennis club received a telegram from the tennis club at Marshall yesterday afternoon, announcing that they will be here to-morrow afternoon to play a contest of two courts.

The Mexican War Veterans.

Capt. T. P. Hoy of this city, the secretary of the Mexican War Veterans' Society of this and adjoining congressional districts has announced that the next annual meeting of the society will be held at Higginsville, on the 25th of next month.

Sedalia II: Jeff City, 9.

The colored base ball club of this city went up to Sedalia Thursday afternoon and tackled the colored nine of that place. The result of the game is indicated in the head lines above. The players of the Jefferson City team claim that they need a manager badly. In Thursday's game they did some good playing and lost by a wild throw from the pitcher to third base. Taibet pitched a good game and was supported by Chappell behind the bat in elegant style. The latter also distinguished himself by making a three-bagger when the bases were full. Tom Sheely made several brilliant catches in the field and Bradley, the third baseman for the Jeffs, led the batting for both sides. The umpire, as usual, was a prominent factor in winning the game for Sedalia. Chappell's base-stealing was of the Latham order. The Jefferson City team is considered the best of the colored clubs in central Missouri. They play on their home grounds August 10.—Jefferson City Tribune.

WINE OF CARDUI, a Tonic for Women.

Essays About Mosquitoes.

Dr. R. H. Lambern, of New York, has evidently "had a time" with New Jersey mosquitoes and he proposes to make war upon them in a scientific manner. He has placed in the hands of the president of the American museum of natural history in New York the sum of \$200 to be offered in prizes for the best entomological essays on the subject of dragon flies and other mosquito-eating insects. The essays are also to describe the best dragon flies for the purpose, and how to propagate them artificially in sufficient numbers to extirpate the pests in every direction.

The pests evidently stirred up the wrong man when they socked their bills through his hide.

Married.

John W. Jameson of Sedalia and Miss Mary A. Geschen of Pettis county were united in marriage by Justice Blair yesterday afternoon. The bride had no home and the groom took her to his parents' residence where the ceremony was performed.

No Fight.

The reported blood fight between Judge Higgins and a farm hand last Wednesday proved to be an insignificant quarrel in which the Judge slapped the with his open hand. No sickles, scythes or other weapons were used and neither party remembered the affair an hour afterward.

McLREE'S WINE OF CARDUI for Weak Nerves.

A Severe Hurt.

Miss Effie Shoup, daughter of Thos. Shoup, who lives 3 miles east of town, was seriously injured last Monday. She had gone to the barn where her father and brother were putting away hay with a patent machine, to take water to them. While a bunch of hay was being elevated the chain fastening became loosened and an iron hook struck her just back of the ear, fracturing the skull and knocking a hole in her head an inch deep. She was picked up unconscious. Tuesday morning she had regained consciousness but was vomiting blood. The wound is quite serious though not necessarily fatal.—Knob-Noster Gem.

Drowned Fish.

Last week a heavy rain storm in the valley of the big Tebo river, flooded the cornfields where the soil was loose and which readily mixed with the washing waters. The stream quickly became swollen and the flood of waters poured into the Grand river. Parties living along the latter stream were astonished at the appearance on the surface of the water of all kinds of fish, of sizes from 30 to 40 pounds weight and less. So tame were the fish that many were caught by simply pulling them out of the water by hand, and soon many were seen floating dead or nearly so down with the current into the Osage. The cause of this fish catastrophe was doubtless the muddy condition of the water, together possibly with some peculiar ingredients of the soil that had a sickening and deadly effect on the finny tribes of the river.—Warsaw Enterprise

—Wesley Campbell, a former resident of Lamonte, this county, was married to Miss Mary S. Merrill of Covington, Ky., last week. Campbell's home is at present at Mt. Sterling, but he is arranging to move back to Lamonte with his bride.

ITCHING AGONIES

Every Night I Scratched until the
Skin was Raw.

Body covered with scales like spots of
mortar. Awful Spectacle. Doctors
useless. Cure hopeless. Entirely
cured by the Cuticura Remedies
in five weeks.

I am going to tell you of the extraordinary
change your CUTICURA REMEDIES performed on
me. About the first of April last I noticed some
red pimples like coming out all over my body,
but thought nothing of it until some time later on,
when it began to look like "spots of mortar" spotted
on, and which came off in layers, accompanied
with itching. I would scratch every night until I
was raw, then the next night the scales, being
so sore, were scratched off again. In vain did I
consult all the doctors in the country, but
without aid. After giving up all hopes of recovery,
I happened to see an advertisement in the
newspaper about your CUTICURA REMEDIES, and
purchased them from my druggist, and obtained
almost immediate relief. I began to notice that
the scaly eruptions gradually dropped off and dis-
appeared one by one, and have been fully cured.
I had the disease thirteen months before I began
taking the CUTICURA REMEDIES, and in four or
five weeks was entirely cured. My disease was ec-
zema and psoriasis. I recommended the CUTICURA
REMEDIES to all in my vicinity, and I know of a
great many who have taken them, and thank me
for the knowledge of them, especially mothers who
have babies with scaly eruptions on their heads
and bodies. I cannot express in words the thanks
to you for what the CUTICURA REMEDIES have
been to me. My body was covered with scales,
and I was an awful spectacle to behold. Now my
skin is as nice and clear as a baby's.
