The Palmyra Massacre.

ROBERT DEVOY A Tale of the Palmyra Massacre. By Frank H. Sosey. Palmyra, Missouri: Palmyra Spectator. Price \$1 bound in cloth, postage 8 cents.

This is the first history of the Palmyra Massacre (an event of the Civil War which caused general discussion) and the causes which led up to it, that has ever been published for general circulation. Presidents Lincoln and Davis took up this horrible butchery with their respective cabinets and discussed it on several occasions. October 18th, 1862 will long be remembered. There are many men now living who witnessed the horrible murder. From these men who are fully conversant with all the details of the affair from first to last, and also from the local papers which contained graphic descriptions of it, the author has gained his information and he has probed and has written a historical novel which appears to be an accurate, unbiased account of the horrible massacre. The book is illustrated, tells of the terrible price which the wife of the reprieved man paid for the liberty of her husband, has the farewell letters of several of the murdered men, etc. There is also an account of Marion City and its promoter. A charming love story is artfully interwoven with the historical features of the book, and the attention of the reader is held from the first page to the last one.

Monday Joshua Jarman was seen sitting on the platform of the merry-go-round. He looked like he was dreaming that he was astride of one of the untamed chargers having a regular busting broncho time.

The license in this, as in other towns, should be raised so high that an Uncle Tom's Cabin show would be prohibited. The radical work and radical play has already raised sheol enough. There is just enough truth in the fiction to make it vicious.

Mrs. Homer W. Starr is visiting the homefolks at Waxahatche, Texas.
