## YATES & HAGAN,

"JUST RIGHT CLOTHIERS."

Let us roll us 50,000 majority for Bryan and Cowherd.

The interests which fatten on the people through unjust laws are for Taft.

The Republican party is noted for its extravagant use of the people's money.

Democracy says let the people rule. Our Republican friends policy is for Cannon to rule.

Senator Stone has done valiant service for Democracy or in other words for the people.

All the people contribute to the Republican campaign fund but the big trusts get the credit and the benefits.

We all pay tribute to the big trusts. Let us quit it. This we can do by electing Bryan and a Democratic congress.

The Democratic ticket in Missouri is composed of clean, able honest men, men who will make officers that will be a credit to Missouri.

Every man who believes in equal rights to all and special privileges to none should get busy and keep busy working for the success of the Democratic ticket.

The farmer or laboring man who votes the Republican ticket is voting for money to be taken out of his pocket and given to the big trusts and monopolies.

The great trusts will not pay the Democratic campaign expenses. These expenses must be paid by people and every Democrat should contribute something to this campaign.

The big trusts and monopolies which desire, and get at the hands of Republicans, such laws as will enable them to take unjustly from the people, are working for the success of the Republican ticket.

Should our Republican friends have enforced just laws it is more than likely that some who are now contributing large sums to the Republican slush fund, would be doing service behind prison bars.

Every Democrat should show a practical interest in the cause of Democracy by sending either the National or State committee, or both would be better, by some money to aid in paying the expenses of the campaign.

Certainly the people will not endorse the nefarious Vreeland-Alldrich currency bill which gives the plutocratic banks even greater power over the currency of this country and with greater power over the currency they can at will fleece the people of millions. The actions in the past of these people would indicate that they will take advantage of the law and take more money unjustly from the people. A vote for the Republican ticket is an endorsement of this hold up of the people.

Do you want a greater prosperity for Monroe City? You answer: "Yes." Then do you do your part to bring a greater prosperity for Monroe City and vicinity? This you answer by your acts. If you always patronize a home institution in preference to a foreign institution, talk for home and home enterprises; then you are working for a Greater Monroe City. If on the other hand you patronize foreign institutions instead of home institutions, are always knocking on your home town, then you are not loyal to Monroe City and are keeping back some of the prosperity which belongs to us.
