Have you seen those swell buggies at A. Jaeger's Hardware?

Chas. Buckman went to St. Louis on business, Monday

For year 1911 I can offer to the public service a **REAL DRAFTER** of the best breeding and individuality my judgment dictates.

You must not fail to see Missouri Starlight, one of the best jacks in the State of Missouri; I claim for him a place second to none.

Gabarret 51842 (70465)

TO BREEDERS OF DRAFT HORSES.

Never in the history of the horse business have good horses sold higher than at the present time, the better the higher the price and having the interests of the business at heart I have purchased one of the best imported Percheron stallions that money could buy.

GABARRET No. 51842 (70465) is a dark iron grey, foaled April 15, 1906, is 16 1/2 hands high, weighs over a ton, with the bone and proper draft horse conformation. Gabarret is one of the low down, blocky kind has been tried and is a sure breeder.

MISSOURI STARLIGHT

MISSOURI STARLIGHT is a black jack, coming four years old, 15 1/2 hands high standard measure, black with white points, has as large a bone, big head and ear as can be seen on any jack. I have colts on the farm that show how he breeds. He was sired by Tennessee Giant, one of the best mule and jeannet jacks in Tennessee or Missouri.

Dam was by Belle Fonso. 2nd dam Alice Barlow. Continued pedigree of Gabarret and Missouri Starlight may be seen at the barn.

BARN AT ELY, MARION COUNTY, MISSOURI.

BOTH PHONES.

TERMS: Gabarret 51842 (70465) \$12.50; Missouri Starlight 10.00

to insure a living colt, money due when mare is parted with or leaves neighborhood. No insurance in second party's hands; lien retained on colt for service fee. Care taken to prevent accidents but will not be responsible should any occur.

Do not compare this horse and jack with the little kind with no breeding.

Come and see this stock and their colts before breeding elsewhere in all Iowa.

AFTER WATER

A Move For Water Works - Bids Asked For On A Well Not to Exceed 2000 Feet In Depth

The City Council is to be commended on its wise move of the last few week. It now looks brighter for Water Works and a Greater Monroe than any time in the history of our City. The council is asking for bids on a deep well. Should an abundance of good pure water be obtained, Water Works for Monroe City are assured. The deep well system is the best, if the water can be obtained in this way.

A committee went to Centralia Friday to investigate what they have there. The committee was composed of Aldermen McFarland, Yates and Yowell, accompanied by G. G. Hines, a Kansas City engineer and O. R. Emerson. They were greatly pleased with what they saw and came back more enthusiastic. They found even greater than they had expected and see no reason why Monroe should longer be without a first class water plant. At Centralia plenty of water was found at a depth of 1100 feet and the well complete cost only \$3800.

The water is soft, is free from disease germs, is good for domestic use and for steaming purposes. It rises to within 195 feet of the surface and costs the city only 7 cents per thousand gallons to pump into the tank. Under an extreme test of pumping 153 gallons per minute for ten minutes in a 12-inch hole could lower water only 32 feet. This looks good and again we say the council is to be commended on the step it has taken to let the contract for a deep well in Monroe City. Those who desire to bid on the proposition can see specifications at the office of G. W. Tompkins, City clerk.

Water Works means a more prosperous and a Greater Monroe.

Notice to Well Contractors. Sealed proposals will be received by the City of Monroe City, Missouri, up to 7:30 p. m. of Fifth day of May, 1911, for furnishing labor, tools and all other material and constructing a deep well for said City as per specifications which may be had on application to the City Clerk.

Each bid must be accompanied by a certified check of Five Hundred (\$500) Dollars.

The City reserves the right to reject any and all bids.

Jas. S. Scott, Mayor.
Geo. W. Tompkins, City Clerk.
Burns & McDonnell, Engineers,
821-826 Scarritt Building,
Kansas City, Missouri.
Monroe City, Mo., April 20, 1911.

I. N. Carman, the popular Cashier of the Farmers Bank of Stoutsville, and Mrs. Laura Girtin of near Florida, were married at Paris last Sunday. Both of the contracting parties are popular and highly respected people and the Democrat extends congratulations.

Virgil Johnston, of Fulton, spent part of the week with friends here. The many friends of the Johnstons are glad to know that they are doing well in Fulton. Their paper, both daily and weekly, has a good circulation and is liberally patronized by the live Fulton merchants.

A large area of country extending through Oklahoma and South Missouri was swept by wind and hail storms last week destroying many lives and much property.
