—If you want the price of your property greatly advanced, improve it. Little improvements in the way of neat fences, a clear coat of paint, a neat yard and shade trees go a long way towards advancing the price of city property, and it costs but a trifle to do this.

—Although farmers sometimes have a hard time of it making ends meet and often have to deny themselves of the comforts of life they are the most independent of all men, and as a rule live better and have more substantial comforts, both mentally and physically, than any other class in the land.
—Mr. C. N. VanFelt, formerly editor of the Craig Meteor, has purchased a half interest in the Holt County Press, and will enter upon his duties as editor of that paper next week. We welcome Mr. VanFelt to our city and especially to the newspaper fraternity. He is a most excellent gentleman and one with whom we will be glad to associate socially or professionally—neither of which, society or the business interests of our community will be injured by his coming among us. Our latch string is on the outside Bro. Van, you are ever welcome.

—Is there no way by which this incessant pilfering, that has been carried on in our community, from time to time, can be stopped? On Tuesday night last, the stores of Ira Peter, A. J. C. A. and Anderson & Cummins, and the saloon were all entered by thieves. A small amount of drawer change was taken from Ira Peter and Anderson & Cummins, and the saloon; attempts were made to enter the grocery house of Hinde & Moore and the drug store of Hinde & Philbrick, but the thieves were unsuccessful. It is difficult to catch such pilferers, but if our business men will take the proper course, we believe it can be stopped and the thieves brought to the bar of justice. Some of our citizens believe the mischief is done by home talent, while others think, the rogues reside in other places in the county.

—The Embroideries this Spring are Very Cheap, and Styles are unsurpassed for beauty. Give us a call.
—IRA PETER, Oregon, Mo.
—Little onions, fresh and green.
In the market now are seen:
Folks who eat them you can tell,
By the way their breaths will smell.
—Robert Meyer and Geo. Minton are home for a rest from Columbia, where they are students of the State University.
—Miss Laura Johnson, for the past year assistant principal of our school here, has returned to her home near Maitland.

—"Uncle" Tommy Cottier and his pushing boys made a shipment of six cars of cattle from Mound City one day last week. They were billed for Chicago.

—A piece of coal-plaster on a pretty girl's is very much out of place, but it doesn't improve matters when her sweet heart goes home with one on the end of his nose.

—The weather prophets are unanimous in advising the immediate building of caves and cellars, as cyclones will be frequent occurrence during the next two months.
—All members of Grange Camp, Son of Veterans, are cordially invited to meet with Meyer P. G. A. B. A. at their hall, on Saturday evening, next week, May 8th, at 8 o'clock.

The firm is one of the old and reliable ones of St. Joseph, and parties dealing with this house may feel assured of being honestly dealt with by the firm.
—Wanted: Persons who abandoned homesteads in the west that were taken prior to June 15th, 1880, or any of their friends, please write me, giving me the numbers or location, and I will write you something of interest; or of any land claims.

HENRY C. SMITH, Falls City, Neb.
—Mr. Otto Krause, whom all our people pleasantly remember, as the leader of the Jennie Holman Dramatic Company, gave us a call Wednesday. We regret to learn of the illness of his wife. Mr. Krause will remain a week or two among us, and may conclude to bring his family and spend the summer among us. We hope Mr. Krause will utilize some of our home talent, and give us an entertainment—say something on the minstrel road.

—An exchange expresses his sentiments in the following: "You may not like to be dunned, but suppose you put yourself, for a few minutes, in the publisher's place and consider yourself under the weekly expense of fifty dollars the year round. You can then see that it is not only fair, but necessary for the publisher of a paper to have what is due him. No man should get behind, and if his carelessness he does so, should settle it up as soon as his attention is called to it."
—Roll in, candidates. You are welcome to our valuable space—at the usual price, \$5 per announcement. Those who get left will receive eleven dollars' worth of our sympathy. We know that sympathy does not count like votes, but it beats nothing clear out of sight. And if there ever is a time when a man yearns for sympathy, it is when he discovers that "the other fellow" hanked the fat doughnut he has struggled so hard for.
—He tried just about that time to love his neighbor (his opponent) as he does himself, but to save his life he can't get his own consent to hire a brass band and go around and serenade the victor. Right here is where the good Samaritan newspaper will come in with its \$11 worth of sympathy per capita. Of course the candidate who does not announce gets no sympathy nor office either.

—'Tis a strange world we live in; Some are sorrowful and will not be comforted while others are exceeding glad and rejoice wonderfully. On Monday of last week two of Smoky row's (Forest City) citizens, much honored by some, took a sudden departure for a new field to ply their avocation. Some are sorrowful, not so much for the loss of company, but for the misplaced confidence, and the harrowing evidence of it on the wrong side of the ledger. Others rejoice because their leaving will add much to the moral's of the neighborhood from which they left. We would like to ask the question, is it right for the citizens of a community to permit such cattle to settle down in their midst, with their polluting and contaminating influence thrown out through the community like the stink of a skunk.

—The exhibition at the school house last Friday afternoon, was an affair of which the teachers in charge may well feel proud of. Our limited space will not permit a detailed account of the proceedings. It is sufficient to say that the complete manner in which they were conducted tends to show that the teachers have not been idle during the school year just closed. It is true that an exhibition such as this does not and cannot display all that the students should be taught, but many good and much needed qualities are brought into action and as these were well done, we note the whole affair a complete success. The afternoon exercises were presided over by the able assistant Miss Johnson Mrs. Knueber, Misses Lukens, Kelley, Lehner and Fry were employed in the preparation room. The last mentioned officiated at the organ also. At night the literary society of the Normal gave an excellent entertainment which was presided over by Peter Meyer. The proceedings were a good character except the part of Professor Speckling's speech, who indulged in some very unfortunate and rather unbecoming remarks reflecting upon citizens of the district, that can't be helped to some extent, impairing his usefulness here in the future.
