COMMITTEE

—J. R. Linville, who has had charge of the caning factory at Florence, Ala., the past season, returned home, this week. Jake says they can't even get in signaling distance with this section of the country as an agricultural country, but they beat us away yonder in manufacturing, employing several thousand hands in the various factories operated there—says it is a good cotton producing country, and that about tells all, as far as the productiveness of the soil is concerned—not much of a country for garden products, and says that he does not think the canning factory can be made a success in that country. Jake is satisfied with his experience in that section, and is glad that he went down.

OREGON CANNING CO.,

By L. I. MOORE, Pres.

—Carelessness is largely responsible for the yearly sacrifice of human life. The other day two vessels on the Pacific coast collided through the carelessness of one of the wheelmen and one boat sank with over 40 lives. A few days before two trains crashed into each other and 60 poor creatures were offered as a burnt sacrifice to somebody's carelessness. And so it goes on day after day through the year. Is it that human life is so cheap?

—Harry, the 11-year old son of Mr. and Mrs. Frank Petree, was taken to the Sister's hospital in St. Joseph, Tuesday of this week, where he was operated upon for appendicitis by Dr. Daniel Morton, assisted by Dr. Potter; the family physician, Dr. Proud and Dr. Holme also being present. The little fellow came up from under the anesthetic nicely, and strong hopes are entertained for a full recovery. He is bright, sparkling little fellow, and the many friends of the family hope to hear of him being able to return home in the due course of time, fully restored, and ready for a good romp and play with his chums.

—Judge-elect John H. Hunt, of Craig, was here for a couple of days this week, and was seated in the county court, where he took notes as to how things were done by that body, which would be of benefit to him on his taking his seat next month as a member of the court from the upper district.

—The body of an unknown man, about 35 years of age, was found dead in Kimsey creek near Hovey Station on Tuesday morning of this week, December 4, 1906. It was found on taking the body from the creek, that he had tied bailing this wire to each his ankles, and to each wire was tied a heavy rock. He was seen by the operator at Hovey, late in the evening, walking to and fro on the railroad track, and acting strangely; and as if looking for something. It is thought that after finding the wire and rock, and tying the same about his limbs he jumped from the bridge over Kimsey into the creek, a deep pool being immediately under the bridge. A coroner's inquest was held at Forest City, and a verdict of death by drowning, supposed with suicidal intent, was returned. The body was brought to Forest City, and recognized by several as a body of a man, having been seen on the streets there the day previous. It is supposed that he was a "tramp," and from his actions was mentally unbalanced and growing weary of life, concluded to shuffle off this mortal coil by drowning himself.
